# Import Promotion Desk (IPD)

Get to know evaluated suppliers from developing countries!

If you are an importer looking for reliable exporters of natural ingredients for cosmetics and want to open up new supply sources, then Import Promotion Desk (IPD), the initiative for import promotion, will support you.

**On your behalf, we undertake the international sourcing of reliable trade partners in selected partner countries.**

We identify highly promising producers for you who are able to reliably meet the demand on the European market. We prepare the suppliers thoroughly for the EU market: considering factors such as product quality, exportability, export capacity, and compliance with international standards and certifications.

We introduce you to carefully evaluated companies at trade fairs in Europe or during virtual b2b events. Thanks to our preparation, you will meet business partners who know what is important to European importers.

**Our mediation is neutral, quality-conscious and free of charge.**

On the following pages we present selected companies from Colombia, Côte d'Ivoire, Ecuador, Ethiopia, Ghana, Indonesia, Kenya, Madagascar, Morocco, Namibia, Peru, and Sri Lanka, offering their diverse range of natural ingredients for personal care products.

We establish direct contact to these new suppliers and organise b2b meetings for you.

**Get in touch with us!**

IPD is an initiative of the Federation of German Wholesale, Foreign Trade and Services (BGA) and sequa, the development organisation and partner of German business. We are funded by the Federal Ministry for Economic Cooperation and Development (BMZ).

In line with our development policy objective, we aim to increase exports from partner countries, promote innovation and higher value creation in order to contribute towards sustainable economic development in partner countries.

COLOMBIA

# Caryo

Caryo is a Colombian family-owned company dedicated to the production and distribution of cacay oil. Cacay oil is also known as the liquid gold of the Amazon, for its moisturizing, regenerative and rejuvenating benefits for the skin. The oil is currently used in premium formulations for skin care products worldwide.

Caryo offers a single origin cacay oil, cold pressed exclusively from the cacay nuts harvested at the Caryo farm, which is located in the Meta state in Colombia. This allows Caryo to have 100 % traceability of the production chain, as well as to carry out a rigorous quality control, complying with high sustainability criteria and increasing the yearly production by expanding the cacay tree plantation.

## PRODUCTS & QUANTITIES PER YEAR

- + Cacay oil / 1 t (year 2023)
- + Cacay oil / 2 t (year 2024)
- + Cacay oil / 4 t (year 2025)

## CERTIFICATIONS

- + PETA (Cruelty Free and Vegan International) verification

## SOURCE OF RAW MATERIAL

- + Cacay tree nuts from own plantations in a farm in Meta, Colombia

COLOMBIA

# Kahai

Kahai is a Colombian company that industrializes the new Amazon nut called “Cacay”, from which a precious oil for skin and hair care is extracted.

Cacay oil exceeds the best properties of argan and rosehip oils and has an outstanding absorption that leaves no oily or sticky feel. Clinical studies run in Germany prove its anti-aging efficiency, where 95 % of patients had wrinkle reduction of up to 45 %, after only 4 weeks of use.

Kahai has 650 hectares of own crops and is exporting its products to 18 countries worldwide. Since 2009, the company has been promoting cacay cultivation as a sustainable alternative for reforestation, illicit crops substitution, food safety and economic growth in Colombias Amazon.

## PRODUCTS & QUANTITIES PER YEAR

- + Cacay oil / 5t
- + Cacay shell exfoliant / 1t

## CERTIFICATIONS

- + COSMOS NATURAL
- + NATRUE

## SOURCE OF RAW MATERIAL

- + Own plantations
- + Small suppliers

# Agriland

Agriland is a family-owned company founded in 1998 in Côte d'Ivoire.

Agriland operates as the agro-industrial subsidiary of its mother company Afreco. Its business started with plant cultivation on its own plantations and quickly expanded into the production of fresh ginger essential oil. Afreco is specialized in ingredient sourcing in West Africa for more than 40 years. This way, it is possible to control the quality of the products from the source while ensuring good traceability.

In 2017, Agriland diversified its activities by introducing cold pressed organic vegetable oils and butters. All products are exported worldwide to cosmetic, pharmaceutical and food processing companies.

## PRODUCTS & QUANTITIES PER YEAR CERTIFICATIONS

- + Wild palm kernel oil / 200t
  - + Shea butter / 700t
  - + Ginger essential oil from fresh rizophomes / 3t
- + ORGANIC (EU)
  - + HALAL
  - + KOSHER

## SOURCE OF RAW MATERIAL

- + Shea nuts and palm kernels are sourced from local suppliers who collect the raw material when it falls from wild trees.
- + Ginger rizophomes are sourced from local farmers

CÔTE D'IVOIRE

# Bio Amandes

Located in Ferkéssédougou, in the heart of the Tchologo region of Northern Côte d'Ivoire, Bio Amandes is the region's biggest organic and Fair for Life certified shea butter producing company.

Bio Amandes was created in 2018 by Eric NGuetta, a young Ivorian whose main concern was to offer quality and traceable shea butter while promoting local traditional know-how. Bio Amandes produces shea butter using modern technology offering the highest quality shea butter (international standards) while preserving the artisanal skill of extraction and production.

Bio Amandes employs 41 people and exports mainly to Europe (France, Germany, The Netherlands). The company's corporate social responsibility is dedicated to the empowerment of rural women involved along the processing chain.

PRODUCTS & QUANTITIES PER YEAR	CERTIFICATIONS

# Aroma Santo

Aroma Santo, a family company founded in 2016, is a company dedicated to the production of essential oil from Palo Santo (*Bursera Graveolens*). It is of particular interest to state that the base raw material of their product is the Fruit of the Palo Santo tree.

They ponder the enormous benefits that their product offers, considered as an ancestral botanical treasure. Its aromatic, analgesic, antiseptic and anti-inflammatory properties have made it a unique product of its kind.

Aroma Santo, has its main legal and administrative headquarters in Loja, Ecuador.

## PRODUCTS & QUANTITIES PER YEAR

# Kavianian

Kavianian is an Ecuadorian company behind the project of BioLignum which is committed to the development of high-quality organic products used in the cosmetic and the food industry. The company's signature product is the organic moringa oil in which every production stage from the cultivation of the tree to the selection of the best seeds and finally the oil extraction process is taken care of. This way it is ensured that the final product meets high standards and fulfills the clients' requirements.

Since the beginning, Kavianian's goal has been the creation of organic products and the generation of a positive impact on the people who work with the company, prioritizing the application of circular economy principles.

# Betigil Moringa

In 2012, Betigil Moringa was the first company in Ethiopia to receive a production and export license for moringa. Ever since, the company has been raising awareness and paving the way for a local traditional food item to receive international attention.

The organic farm and its production hall are located in the area of Arba Minch, in the warm and friendly South of Ethiopia. Betigil Moringa introduced shade drying of the fresh leaves to preserve the vital nutrition and healing potential. Since 2021, the company holds the organic certification by EcoCert.

Moringa is a fast-growing tree that has earned a reputation of being the earth's most nutritive plant and can indeed be called a "super food". It has a long history of being used both as food and medicine. In Amharic, the national language of Ethiopia, moringa is known as "Shiferaw" which can be translated as "the plant that 1,000 diseases fear".

Betigil Moringa is currently exporting to Europe and Japan.

## PRODUCTS & QUANTITIES PER YEAR      CERTIFICATIONS

+ Moringa seed oil / 4.7t

ETHIOPIA

# Tchakka Origins

Founded in 2019, Tchakka Origins is a specialty natural ingredients enterprise focused on personal care and wellness products from Ethiopian indigenous plants. By sourcing directly and in partnership with smallholder farming communities in Ethiopia's forested and biodiverse areas, Tchakka Origins works to change the way business is done. The enterprise's ethos is that ecologically and socially impactful businesses can change the course of climate change.

Tchakka Origins crafts specialty essential and fatty oils, floral water, dried herbs, flowers and spices from a range of plant base materials, with focus on indigenous species. By selecting naturally high-performing and nutrient-rich plants, Tchakka Origins seeks to shift climate consciousness in personal care and wellness.

# Ava Coconut Oil (GKV Investments)

GKV Investments, is a “zero waste” agro-processing company from Ghana and located in the Western Region which is endowed with rich natural coconut farmlands especially the West African Tall breed with its unique aroma and flavour.

GKV mission is to add value to its produce with minimal nutritional loss. This is achieved by GKV’s commitment of creating innovative and wholesome products to engender their consumers feelings of “pure health and pure pleasure”. Their products are 100% natural with no additives and give superior health benefits. The oil is triple filtered, giving it a water clear appearance. Quality standards are secured during all steps of production with a well qualified and motivated work forces.

GKV’s sustainability goals and ethos ensure the sourcing of high-quality coconuts from small holder farmers. The various operations generate direct and indirect economic and employment opportunities for farmers and the communities GKV operates with.

GKV products are already exported to Canada, Morocco, Nigeria and Martinique.

INDONESIA

# Mignon Sista

Mignon Sista International is a leading company from Indonesia with more than ten years of experience in the essential oil and spices sector. Mignon produces a wide selection of ingredients under high-quality food safety standards and with an in-house laboratory.

The family-owned company works passionately to help others find more goodness and make a difference in the Indonesian community.

Mignon provides a sustainable supply for each product as they follow Sedex's / SMETA approach for ethically sourcing. This approach ensures the products' complete traceability, starting by working directly with the farmers and ending with accurate documentation from accredited laboratories.

They aim to triple their sales within five years and be a net zero company by 2030.

# Arbor Oils of Africa

ARBOR  
OILS OF AFRICA

Arbor Oils of Africa distils *Boswellia neglecta* frankincense essential oil from resins harvested in the semi-deserts of northern Kenya. Their collectors are mainly pastoralist women who are trained in sustainable harvesting techniques and the trees are not cut or harmed in any way as the resin is a result from larvae activity in the tree bark. Currently, Arbor Oils of Africa is the only company which supplies FairWild and certified organic frankincense essential oil in Kenya.

Arbor Oils has been operating for 15 years in international business and is familiar with EU compliance regulations. *Boswellia neglecta* essential oil can be used in cosmetic formulations for its skin regenerative properties as well as in aromatherapy for its calming, relaxing health benefits.

# Vokenel Enterprises

Vokenel Enterprises is a Kenyan company that processes and sells natural baobab fruit powder and baobab oil. Baobab fruit powder is a highly nutritious super food, while baobab oil is a cosmetic oil known for its nourishing properties to skin and hair. The company sources their raw materials (baobab fruits) from Makueni, Kenya where they process the baobab fruit powder and cold press the baobab oil. The baobab tree is one of the most iconic and indigenous trees from Africa and it is also referred to as the 'Tree of Life' due to its numerous benefits. They source their raw materials from over 100 farmers, mostly women, in the semi-arid area of Makueni, Kenya. Buying their baobab products has a direct impact in the rural community where the baobab fruit is sourced by helping farmers and processors earn a living through employment, improve their livelihoods, access better healthcare and educate their children. In addition, their work goes into conserving baobab trees as farmers can receive an income from selling the fruits, hence having an incentive to conserve the iconic baobab trees.

## PRODUCTS & QUANTITIES PER YEAR

# Flora of Madagascar (Floramad)

Floramad is a reliable supplier of essential oils from Madagascar. Founded in 2010, the company exports its natural ingredients worldwide, serving the aromatherapy, cosmetic, flavor and fragrance industries (including 14 tons/year to Europe).

Floramad offers high-quality essential oils (fully pure and natural, matching with international standards). Oils are systematically controlled and are following a traceability system for each batch of production.

Voluntarily engaged in CSR, Floramad aims to sustainably value the virtues of Madagascar's flora for its stakeholder's well-being, through responsible practices in all its activities.

# MG Sakay

With more than 15 years of experience in distillation of essential oils, MG Sakay started exportation in 2018. Their products are produced on the company's farm. The production site is located in the most wooded region in the East of Madagascar. A region full of endemic plants, rich in biodiversity and conducive to essential oil plants cultivation.

MG Sakay's essential organic oils are certified by ECOCERT with several natural properties. They are used in aromatherapy for their antiviral, antifungal, analgesic, anti-inflammatory properties. The cosmetics industry uses them for their great moisturizing power and their anti-aging properties.

The cultivation of MG Sakay is with respect for the environment and every year the company participates in reforestation campaigns.

The human factor is very important for MG Sakay. They contribute to the economic and social development of their staff by establishing a fair partnership.

MOROCCO

# Taneta Investment

Founded in 2015, Taneta Investment is a Namibian family-owned company specialized in the processing of Marula Oil (*Sclerocarya Birrea*). Its Pure Marula by Taneta products are 100 % organic, pure and natural and exclusively of Namibian origin.

Marula fruits are harvested sustainably in partnership with the rural women in the northern part of Namibia whose livelihood depend on it to support their families. Marula kernels from the nut of the marula fruits, harvested from the wild marula trees are then cold-pressed in the company's processing facility in Windhoek, Namibia.

Taneta's vision is to create high quality marula oil while contributing to the social well-being of the local communities and the environment. Taneta strives to enhance its position in the local market, while refining its international marketing strategy.
