# Confirel Co., Ltd

**SUPPLIER**  
from Cambodia

Confirel was founded in 2001 by Dr. Hay Ly Eang, who was driven by the conviction that rural development and the improvement of farmers' living conditions were the keystone of a happy future for his country, Cambodia. Confirel wanted to demonstrate that improving farmer incomes depends on the creation, in Cambodia, of high value added products grown in local soils. At the same time, Confirel strives to improve the lives of their rural suppliers by increasing their revenues and by achieving the company's objectives in terms of Corporate Social Responsibility (CSR). The Asian Development Bank and the World Bank have recognized Confirel as a business model for sustainable development. With a strict quality control that begins in Confirel's own laboratory, and then by the Pasteur Institute of Cambodia, Camcontrol, LNCG and CIRAD in France, Confirel guarantees the safety and the quality of its products.

Partner of

# Kirirom Food Production (K.F.P) Co., Ltd

Kirirom Food Production is a Khmer-owned business based in Cambodia's mango heartland, the Kirirom region, that started the operation in 2014. Today the farm has grown to more than 600 ha filled with mango and with jackfruit. Kirirom invested in a dried fruit manufacturing plant with a total of up to 700 employees in the season. By processing the unsold fresh mangoes, Kirirom aims to stabilize farmers' incomes during harvest season. Today, to reduce waste, mango skins are brought to compost, and mango seeds are used for new crop or used to extract the oil. During off seasons of mango, Kirirom also processes dried fruit in order to take full advantage of their facilities. Kirirom is now a leading producer of Cambodian dried mangoes and the products are distributed to the local market and exported to 12 countries. Kirirom's unique selling points: They produce no flavor added, no coloring agent added but it contains the very beautiful natural smell with the natural color, produced from well matured mango. Kirirom's factory is located in the surrounded company owned mango farm, which gives the product the taste of very fresh natural mango. As Kirirom grows, the aim is to diversify the line of mango products.

## Products & quantities per year

- + Dried mango / 300 mt
- + Other dried fruit (dried pineapple, papaya, banana, jackfruit) / 50 mt

Partner of

# Monbel Trading Partners S.A.S.

Monbel Trading Partners S.A.S. is a leading Colombian company dedicated to produce and trade natural derivatives from sugar cane for the food and beverage industry. It counts remarkable experience of more than 25 years in the food sector as a supplier of natural sweeteners that contribute to the well-being of humans. Their own brand Panela Oro Del Valle is recognized for integrating more than 300 small farmers that grow sugar cane in territories that in the past were victims of violence.

Monbel's production capacity is around 6,000 tons per year and it can provide products throughout the year. It has quality certifications in place and work every day to achieve the highest production standards. Monbel serves national clients as well as clients in countries such as Spain and the United States.

# DLIP Industrial S.A.

**SUPPLIER**  
from Ecuador

Founded in 2010, DLIP Industrial S.A. is an Ecuadorian family company specialized in functional and nutraceutical superfoods, in powdered or liquid form. 100% natural products, gluten free, NON GMO. The raw materials such as cereals, fruits, vegetables and medicinal plants, are obtained from the Andean and Amazon region. The high technology “Spray Dry” hydrolysis and/or micro capsuled, will help to maximize the final product result and grant a long lasting shelf life. DLIP Industrial S.A. focuses on local natural resources to create economic and employment opportunities for the region. Being a versatile company, DLIP Industrial S.A. counts with a Development and Innovation Department to create “tailor-made” products and develop specific formulas to meet the requirements, needs or consumer trends identified by their customers.

# Uchu Spice

We know you care about where your ingredients come from – we do, too.

With 35 years of experience, advanced manufacturing techniques, and state-of-the-art facilities, we have mastered the art of growing, producing, and processing a wide array of chili pepper varieties. We work with hundreds of independent smallholder farmers across Ecuador and Peru to successfully export the highest-quality processed specialty hot peppers in the market. We are hot pepper experts who strive to provide our clients with the most unique and flavorful combinations to spice up their businesses! Uchu Spice offers various hot peppers in powder, flake, smoke, brined, mash and puree form to spicy food creators around the world.

Although we believe our product's quality and diversity is unparalleled, our entrepreneurial roots and spirit are still alive and active. We look forward to connecting with you, and if what we offer is not what you were looking for, reach out to us anyway – we love challenges that trigger our imagination and give us a reason to create something new!

## Products & quantities per year

- + Over 2.000.000 kg of fresh hot peppers processed in 2020 into dried hot pepper, mash and puree hot pepper, brined hot pepper and smoked hot pepper.

## Source of raw material

- + From over 500 independent smallholder farmers in Peru and Ecuador

## Certifications

- + FSSC 22000
- + Kosher

# GKV Investments Ltd

**SUPPLIER**  
from Ghana

GKV, an established Agro-processing and “zero waste” manufacturing company is located in the Western Region of Ghana. Ghana, situated on the West coast of Africa is endowed with rich natural coconut farmlands.

The vision of GKV is to add value to agricultural produce in its catchment area with minimal loss to the nutritional value of the produce processed. This is achieved by GKV’s commitment to creating innovative and wholesome products using basic methods such as separation technology and adding value to nearly every part of the coconut fruit.

GKV products are all 100% natural and have superior healing properties with no additives. GKV’s sustainability goals and ethos ensure the sourcing of high-quality raw materials from small holder farmers in the Western and Central Regions of Ghana. Their operations generate direct and indirect economic and employment opportunities for these farmers and the communities within which they operate. Every litre of oil produced and purchased by their customers impacts and enhances the livelihoods of these communities for the better.

Ava products are retailed by the top supermarkets in Ghana and internationally to Canada, Morocco and Nigeria.

## Products & quantities per year

# Ceyshine Corporation (Pvt) Ltd

The Ceyshine Corporation (Pvt) Ltd has three Trade Mark registered products namely VITALIA SUPERFOODS®, CEYDEX® and MyBonBon®. Our company has a reputation as producers of high quality Active Natural Ingredients for the food, cosmetic and pharmaceutical industries. We are supporting 6700 farmers through our farmer cluster program, promoting sustainable organic cultivation in Sri Lanka.

The Ceyshine Corporation (Pvt) Ltd has been utilizing novel value addition green technologies that have never been found in the natural raw material based industry in the past, such as the Target Specific Isolation (TSI) method and green cold-technology for isolation of Active Natural Ingredients from tea, coconut, ginger, tamarind, turmeric, cinnamon, etc. We produce active ingredients that can be used in flavor, medicinal food and cosmetic industries. Our products are 100% natural and we do not use additives, chemicals or preservatives.

## Olivna – T.A.O.O.C.

**SUPPLIER**  
from Tunisia

The Olivna oil plant is located in the north western part of Tunisia, in the beautiful city of El Kef. The favorable climate of the Haut Tell region enables the cultivation of one of the oldest olive varieties in the world, the “Chetoui”. Experts regard Olivna oil as one of the best olive oils in Tunisia, given its sensory and organoleptic qualities. It is characterized by its low acidity, its distinctive aroma, its strong character and its delicate fruity taste. All olives are harvested by the method of hand-picking and the pressing of the oil is done under high quality standards.

### ADDRESS

Olivna – T.A.O.O.C.  
Z.I Oued Errmal  
El Kef 7100  
Tunisia  
[www.olivna.com](http://www.olivna.com)

“Olivna” is the main brand of the Tunisian American Olive Oil Company (T.A.O.O.C.) founded originally to focus on the American market, but now also offering its products to European customers. The most important philosophy of Olivna T.A.O.O.C. is a high-quality standard to ensure the consumer’s safety.
