COST- AND RISK-OPTIMISED SOURCING FROM NEW MARKETS

Since 2015, IPD has been represented together with “Gesellschaft für internationale Zusammenarbeit” (GIZ) at Biofach, the world's leading trade fair for organic food, under the motto "Organic sourcing for development". We are continuing this successful cooperation at the Biofach eSpecial 2021 and will be presenting more than 38 innovative companies from Burkina Faso, Ecuador, Egypt, Ethiopia, Ghana, Indonesia, Kyrgyzstan, Morocco, Sri Lanka, Togo, Tunisia and Ukraine.

All suppliers have been carefully screened by IPD or our partner GIZ.

We consider criteria such as product quality, export capability and capacity, and compliance with international standards and certifications. The exporters are familiar with online meetings and web conferences. Experienced IPD experts will support you before, during and after the online meetings.

Our services for you are neutral and free of charge. Benefit from our pre-selection of suppliers and reduce your sourcing costs.

On the following pages you will find detailed information about the IPD exporters and the companies supported by GIZ.

IPD is the German initiative for import promotion.

Our objective is to integrate the partner countries into global trade, thereby contributing towards sustainable economic development in these countries

We introduce exporters from our partner countries to the EU market and assist them in setting up trading relations. For European importers, IPD opens up new supply sources in the partner countries and supports them in the complex purchasing process.

IPD is an initiative of the Federation of German Wholesale, Foreign Trade and Services (BGA) and sequa, the development organisation and partner of German business. We are funded by the Federal Ministry for Economic Cooperation and Development (BMZ).

Bioprotect-B

SUPPLIER
from Burkina Faso

Founded in 2011, Bioprotect-B is an economic interest group under Burkinan law that is active in researching and promoting the use of organic inputs, training agricultural producers and transferring effective technologies for the production and use of bio-pesticides. Its vision is to provide innovative solutions to safeguard and increase local harvests while improving human health and conserving biodiversity.

Bioprotect-B works with natural elements adapted to the soils and crops of Burkina Faso and the West African region and would like to widen its connection to the European market by expanding the sales markets of its high-quality products.

Coopake

SUPPLIER
from Burkina Faso

Coopake (*Coopérative Agricole du Kénédougou*) was founded in 1963 as one of the first Burkinan farmer cooperatives in the province of Kénédougou. The province is also nicknamed the "Orchard of Burkina" because of its rich production of fruit and grain.

Today, the cooperative has over 160 producers. Coopake focuses on the preservation of biodiversity through agroecological practices and building the necessary agricultural, social, economic and cultural infrastructures. The cooperative improves the working and living conditions of their members, especially for young people and women. Coopake markets a wide range of high-quality organic products and is eager to expand its offer to the European market.

Products

- + Sesame seed
- + Dried mango
- + Cashew nut

Agroapoyo

SUPPLIER
from Ecuador

Agroapoyo is a company that processes fruits and vegetables, mainly dehydrated and fried. We add value to Ecuadorian raw materials, both tropical and from the mountains: plantain, cassava, pineapple, banana, orange, dragon fruit, among others. We offer bulk products and we launched this year our retail brand YUNIQ, which brings together 20 years of experience as food processors and our variety of healthy, natural and differentiated ingredients.

Amati-Proalgram is a family owned agribusiness. We produce 100 % natural, value added, vegan, gluten and lactose free products, based on Andean ancient grains such as amaranth. All our ingredients come from Ecuadorian farming communities and adhere to fair trade regulations. We have more than 15 years of experience with Andean ancient grains. We count with organic and fair-trade certified products.

Ecuador has been considered as one of the megadiverse countries of the world due to its richness and abundance of fauna and vegetal species that are a source of inspiration for the development of our unique, delicious and innovative products, which in turn rescue the ancestral knowledge of our indigenous people.

Dare to taste a fully transformative experience that will take you on a journey through the flavors, colors, culture and landscapes of Ecuador.

¡Come to meet us at BIOFACH 2021!

Copropap

Farmer's Association of sugar cane, El Paraíso. Copropap is a cooperative of small producers of organic raw sugar cane from Ecuador, the middle of the world. Located in the humid subtropical forests of Ecuador, 1.300 meters above sea level and at 0° latitude, where sunlight strikes permanently all year long. All these environmental conditions allow a high quality raw sugar cane, whose brix degrees can reach an average of 18° to 21°. The cooperative was established in 1992 with a concern on sustainable, social and environmental development. All the producers avoid the use of GMO, therefore the crops and the production facilities are organic certified for the European Union and the United States. The production is also under local good manufacturing practices which assures food safety.

Products & quantities per year

- + Organic raw sugar cane / 850 t

Source of raw material

- + Plantations of small organic producers from the humid subtropical forests

Certifications

- + ORGANIC (EU, US)

Jumandipro S.A. (Waykana Guayusa)

Jumandipro is a company looking to share the natural energy and the wellbeing derived from the guayusa plant of the Ecuadorian Amazon, under the name Waykana Guayusa. Guayusa is an Amazonian energetic leaf native to Ecuador. Waykana Guayusa is a “unique” quite revolutionary natural energy product, which offers the end-users a long-term energy boost while not harming the body. Waykana Guayusa is filled with natural caffeine and valuable antioxidants. It is different from similar products because it has a green light color and a premium flavor.

Jumandipro is focused on making the indigenous communities they work with, the protagonists of the business by invigorating the local economy and creating social projects. Waykana Guayusa from Jumandipro is currently sold in more than ten countries worldwide.

Products & quantities per year

- + Guayusa leaf bulk / 100 t
- + Guayusa tea bag boxes / 360,000 units

Certifications

- + ORGANIC
- + KOSHER
- + HACCP

Source of raw material

- + Raw guayusa is sourced directly from small scale producers in the Ecuadorian Amazon.

Waneco Land for Medical Plants

SUPPLIER
from Egypt

Waneco is an Egyptian company that produces herbs and medical plants with over 40 years of experience. The facility is located in Beni Suef where most herbs are grown. The company is involved in all steps of production: from growing organic and conventional products to sieving, sorting and packing in PP bags or cardboard boxes. They supply local exporters and overseas customers.

Waneco believes in long-term business relationships and sets priority to high-quality products according to customer's specifications. They can pack products as a final product in favor of their customers abroad.

Bench Maji Coffee Farmers Ltd Cooperative Union

SUPPLIER
from Ethiopia

Bench Maji Coffee Farmers Ltd Cooperative Union (BMCU) is a Union of 80 primary cooperatives and over 18,000 small holder member farmers based in South West Ethiopia. It was established in July 2005 in Bench Sheko & West Omo Zones to engage in the marketing of coffee, spices, honey and grains on behalf of its member farmers and in order to provide agricultural inputs as well as other household and production necessities. Member farmers produce wild, forest and semi forest coffee. Honey and spices are widely produced and exported. The primary cooperatives (PCs) are located in 6 Woredas (districts) of Bench Sheko Zone in South Western Ethiopia which are endowed with high production and marketable potential of coffee, spices, honey, grains and fruits. The Cooperative Union commits itself to promote the livelihood of their members and supports the development of the region by delivering high-quality products to the world.

Ideal Providence Farms

SUPPLIER
from Ghana

Ideal Providence Farms (IPF) has been growing and producing its raw materials for almost 20 years. IPF products are true to type as their slogan depicts “traceable to nature”. The products are organically certified and IPF is a member of IFOAM - International Federation of Organic Agricultural Movements Bonn, Germany.

IPF maintains a processing facility in Kpone, Greater Accra Region, where raw materials from the farm are turned into consumable goods.

IPF cooperates with women groups, around 800 women, in the Upper West Region and in the Northern Region in the wild collection of shea nuts and the traditional production of shea butter.

Ideal Providence Farms (IPF) exports its products to neighbouring countries, to Europe, the United States of America and Canada.

CV Kerinci Agro originates from a family business that started trading with cinnamon in 1958. In 2006, the company in its current constitution was established.

Today, CV Kerinci Agro is one of the fastest growing spice companies in Indonesia, being the first company from its region that is processing and exporting cinnamon. Kerinci's main product is Cassia Vera from the Kerinci region (Jambi provinces), also known as "Cassia Vera Korintji".

With its vision "from farmers to farmers", CV Kerinci Agro now aims to establish direct links between the farmers at the source and its customers throughout the world.

Products & quantities per year

- + Organic cinnamon / 600 mt
- + Conventional cinnamon / 1,000 mt

Certifications

- + ORGANIC EU
- + ORGANIC US

Sun Planet Organic

SUPPLIER
from Kyrgyzstan

Sun Planet Organic is the first company in Central Asia that exported organic prunes to the European Union and one of the few who exports wild & organic walnuts. The raw material comes from a farmers' cooperative with a high level of social responsibility. Together with their European client they managed to develop a trade project that makes European clients aware of the unique origin of the product – Kyrgyzstan.

In 2018, they reached over 1,000 family members for the prune cooperative organized in more than 50 farmers' cooperative groups collecting walnuts from the unique wild walnut forest Arslanbob. Sun Planet works closely with Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH, introducing international experience in order to build effective cooperative models and supply chains.

Products & quantities per year

- + Wild organic walnut / 400 t
- + Organic prune pitted / 200 t
- + Extra virgin walnut oil / 200 t
- + Organic walnut milk / 500 t
- + Organic prune puree / 500 t

Certifications

- + ORGANIC EU
- + FSSC ISO 22000
- + FAIRTRADE

Source of raw material

- + Farmers' cooperative

Oléastre SARL

SUPPLIER
from Morocco

The company is a small family-run business specialised in producing extra virgin olive oil. They own an olive grove planted with selected and organic certified olive trees which are essentially Moroccan varieties. Drawing their strength and uniqueness from a rich clayey soil, their olives benefit from a yearly temperate climate, allowing them to release their full aromas. They are harvested early in the season in order to preserve their beneficial nutritional qualities, then carefully selected, washed and pressed the same day. Extracted without any chemical procedure, the premium olive oil Olealys is produced and bottled directly on site.

Olealys has an appealing golden yellow color. To the smell, it is harmonious and subtle, with elegant notes characteristic of ripe bananas, white apple and aromas of tomatoes of medium maturity. To the palate, it is complex and wide, containing vegetable overtones of fresh beans and lettuce, enriched by spicy characteristics of sage, mint, basil and black pepper. Bitterness is harmoniously present and spicy. Intense and fruity, it will bring a typical Mediterranean touch to your dishes.

Products & quantities per year

- + Extra virgin olive oil / 15 t

Certifications

- + ORGANIC EU
- + ORGANIC NOP

Source of raw material

- + Own orchard

Terra Citrus

SUPPLIER
from Morocco

The family farm was established in 1950, near the river Sebou, a small hour from Fez. At first, they sold only oranges. It wasn't until the past decade that they seriously started introducing a large variety of citrus fruit on their plantation. The company chose the finest examples in the myriad of diversity citrus has to offer. Their terroir, climate and know-how, all the factors that affect our produce, make these fruits express better characteristics than in their native area. New varieties are being planted on a regular basis to meet the demand during the month of december. Transformation of their produce delivers excellent results. Their partners help them fine-tuning different products such as juices, lyophilized peel and powders. Terra Citrus made a conscious choice to become organic farmers and they are on an ongoing journey to improve labor standards, health and safety, environment and business integrity.

Products & quantities per year

- + Caviar lemon / 16 t
- + Buddhas hand / 10 t
- + Japanese uzu / 20 t
- + Persian lime / 250 t

Beni Ghreb

SUPPLIER
from Tunisia

Beni Ghreb was established in 2002 in Hazoua, Tunisia. Working closely with a farmers' cooperative, the company produces high quality organic and biodynamic Deglet Nour dates.

Beni Ghreb applies a holistic approach to their work focusing on sustainable agriculture, environment conservation and local economic development. The company provides support services to farmers throughout the cultivation process to guarantee the high quality of the end product and purchase their entire production to ensure a steady income. Together, they have pioneered innovative practices, such as composting for water retention, nets for protection from insect infestation, bubbler irrigation for water usage optimization. Processing takes place at Beni Ghreb's plant near the farmers' oasis creating employment opportunities for the local community.

Products

- + Dates on branches, whole and pitted
- + Diced dates
- + Date syrup
- + Date paste
- + Date powder

+ Certifications

- + ORGANIC EU
- + BIO SUISSE
- + DEMETER
- + FAIRTRADE
- + ORGANIC US
- + ISO 9001
- + ISO 22000
- + IFS/BRC (in process)

IMPORT PROMOTION DESK

Amethyst-Ole was created in 2011 by a team of ambitious young people headed by Vasyi Chamor.

Business began with a small production facility which was made up of a single refrigerating chamber and a fast-frozen food storage of a decent size, but thanks to the concerted effort of the team, the business began to grow fast.

At the present time two powerful production lines for electronic berry sorting are in use at their facility. With cutting-edge equipment and professional teamwork, the Amethyst-Ole manufactures up to 30 tons of IQF produce a day.

Products & quantities per year

- + Wild Blueberry frozen / 800-1,000 t
- + Wild Blackberry frozen
- + Wild Elderberry frozen
- + Lingonberry frozen
- + Aronia frozen
- + Cranberry frozen

Certifications

- + ORGANIC EU
- + NATURLAND
- + HACCP
- + ISO 9001:2005
- + ISO 22000:2005

Source of raw material

- + Wild collection and farming partners

Staryi Porytsk is an unique Ukrainian enterprise, founded in 2010, which is producing organic products – dairy and crop. The crop production work is carried out in three parts: the grain production, the fodder production, the production of pulse crops and fodder grasses.

Currently, the enterprise has 750 cattle, including 300 heads of dairy herds.

The strategy of the enterprise is to provide a full cycle of production and sales of the products "from field to store shelf". The use of traditional recipes and the control at every stage of production ensures the highest quality and excellent taste of all products.

Products & quantities per year

- + Spelt / 300 t
- + Buckwheat / 200 t
- + Flax / 100 t
- + Vetch / 100 t
- + Mustard seeds / 100 t
