ANUGA
@HOME

IPD presents around 30 selected companies from Colombia, Côte d'Ivoire, Ecuador, Egypt, Ethiopia, Ghana, Indonesia, Sri Lanka, Ukraine and Uzbekistan, offering their diverse range of natural ingredients.

IPD is the German initiative for import promotion that connects European importers with these carefully evaluated exporters. Our goal is the sustainable and well-structured import promotion of special products from selected developing countries and emerging markets – under compliance with high quality, social and environmental standards.

We introduce exporters from our partner countries to the EU market and assist them in setting up trading relations. For European importers we open up new supply markets in the partner countries and support them in the complex purchasing process.

Reduce your initiation, negotiation and control costs with IPD. We have the contacts, information and communication channels to your new suppliers. Our services for you are neutral and **free of charge**.

All IPD companies were carefully selected and then readied by IPD to commence export to the European market. On the following pages you will find detailed information about our reliable exporters.

We establish direct contact to these new suppliers and organise b2b meetings at the trade fair. **Get in touch with us!**

IPD is an initiative of the Federation of German Wholesale, Foreign Trade and Services (BGA) and sequa, the development organisation and partner of German business. We are funded by the Federal Ministry for Economic Cooperation and Development (BMZ).

Anabana

From seeds to final products, Anabana is a GLOBALG.A.P. certified guanabana (soursop) grower and processing company located in the central region of Colombia.

The guanabana also known as graviola, soursop, corossol and stachelannone is processed by a very meticulous handmade technique which takes special care of its aspect and flavor, which are key factors in the final product quality.

Anabana has a wide range of guanabana products that are used in the industrial sector as raw material for juices, smoothies and ice cream preparations. They take special care of traceability for its 75 hectares of guanabana. Besides, Anabana develops private labels for retail and food service companies too.

COLOMBIA

Frutihelen

Frutihelen is a Colombian company producing frozen fruit pulps and juices from a wide variety of fruits. They have their own crops which generate income for farmers and ensure high quality of the fruit from its origin.

Frutihelen is deeply committed to the social and environmental responsibility of Colombia, which they consider essential for the sustainability and improvement of their company. In this regard, Frutihelen works mostly with single mothers, not only improving the quality of life of their employees but also their families. They compost their organic waste, use renewable energy and only invest in environment-friendly, high-tech machinery and equipment for refrigeration and freezing.

COLOMBIA

Goldchips

Goldchips is a family-owned Colombian company with 27 years of experience. We produce snacks based on plantain and cassava as raw material. The plantains are harvested by the family of the owners in the Quindío region, therefore guaranteeing the traceability of the product. The raw material meets all the criteria for organic certification and is in the process of biodynamic certification.

The mission of the company is to improve the environmental conditions, support the better social standards for the workers and enhance the life conditions of vulnerable women. Goldchips is already present in the American and European market.

COLOMBIA

Sanam Company

Sanam is an innovative company. Our strategy is to produce and sell ingredients from the coffee cherry. We are a pioneer in applications and developments for the human nutrition, cosmetics or even agricultural fertilization industries around the world. We supply coffee fruit concentrates that can be transformed in spray dried or freeze dried powders. Also, premixes can be prepared with other tailor made formulas.

Sanam's patents are unique as they keep the best molecules from the pulp or husk and deliver them to help living beings to live better. Their ingredients are rich in polyphenols, protein and natural carbohydrates without modifying the biological integrity of the fruit.

Sanam is located in Colombia and Costa Rica, two of the best coffee quality producers.

PRODUCTS & QUANTITIES PER YEAR

- + Coffee fruit concentrates / 1,600 t
- + Premixes with tailor made formulas

CERTIFICATIONS

- + KOSHER
- + HACCP

SOURCE OF RAW MATERIAL

- + Sourced directly from the coffee cherry fruit of the large coffee crops in Colombia and Costa Rica

COLOMBIA

ADF Groupe

ADF Groupe, composed by two companies ADF-AGRO and CSF, was founded in 2017 and has one main objective: the transformation of raw material in order to create substantial added value to farmers' crops and provide employment opportunities for the rural population in Ivory Coast. ADF Groupe produces dried mangoes and also exports fresh fruits.

The company also aims at supporting women in Ivory Coast and to enhance their general status in life. ADF Groupe assists in creating mango plantations, provides relevant knowledge like training for organic production and guarantees that the farmers' harvest enters the market. The former is of high importance to ensure a steady income for the farmers, who represent a vital component in this production chain.

During the high season, ADF Groupe employs 100 people. The company has exported fresh and dried mangoes to Europe (France and Belgium) and Morocco.

PRODUCTS & QUANTITIES PER YEAR

- + Dried mangoes / 12 t to 15 t
- + Fresh mangoes / 70 t to 100 t

CERTIFICATIONS

- + ORGANIC EU

SOURCE OF RAW MATERIAL

- + Own mango farm of 45ha
- + Partner farms

COTE D'IVOIRE

Industria Alimenticia Flavors & Scents

Established in 2017, Industria Alimenticia Flavors & Scents is an Ecuadorian company focused on the production of freeze-dried food. The company is located in Quito, where they receive raw materials from farmers across the country and process their products with top-of-the-line technology. The standards and certifications allow them to guarantee their clients the best possible quality in freeze-dried products.

The local and international strategy is to provide the customers with the functional benefits superfoods have to offer, thus, targeting a clientele that values its health and well-being.

ECUADOR

Quinoa Cotopaxi

Quinoa Cotopaxi was founded in 2014. The company is the result of over 100 years of hard work, effort, and passion of a family dedicated to agriculture. The company grows its own quinoa to assure high-quality raw materials, under the best agricultural practices. Quinoa Cotopaxi cares about social commitment and supports two projects with indigenous groups in Ecuador. The company teaches indigenous women agricultural practices that help them obtain profits from their crops. They also support the project "Yachay Kawsay", a Saraguro bilingual indigenous school in the South of Ecuador and the program BE JUST to support education for people with down syndrome.

Quinoa Cotopaxi creates products that are gluten-free and dairy free made with quinoa, under the best standards. By using quinoa, the golden grain of the Incas, the company provides high protein and 100% natural ingredients in each product. Quinoa Cotopaxi produces its own brand as well as under white label.

PRODUCTS & QUANTITIES PER YEAR

- + Quinoa in grain (Total capacity of 300 t)
- + Quinoa baking mixes (banana cake, brownie, quinoa cakes)
- + Quinoa pancake mixes (Vanilla, banana)
- + Quinoa blend with dried vegetables, herbs and spices

ECUADOR

Uchu Spice

proaji ECUADOR

pizcafoods PERU

We know you care about where your ingredients come from – we do, too.

With 35 years of experience, advanced manufacturing techniques, and state-of-the-art facilities, we have mastered the art of growing, producing, and processing a wide array of chili pepper varieties. We work with hundreds of independent smallholder farmers across Ecuador and Peru to successfully export the highest-quality processed specialty hot peppers in the market. We are hot pepper experts who strive to provide our clients with the most unique and flavorful combinations to spice up their businesses! Uchu Spice offers various hot peppers in powder, flake, smoke, brined, mash and puree form to spicy food creators around the world.

Although we believe our product's quality and diversity is unparalleled, our entrepreneurial roots and spirit are still alive and active. We look forward to connecting with you, and if what we offer is not what you were looking for, reach out to us anyway – we love challenges that trigger our imagination and give us a reason to create something new!

EGYPT

Novaroma is a food processing company with its production site in Beni Suef, Egypt. They provide an alternative to the few other alternative origins for similar products and enjoy an amiable relationship with the EU along with competitive pricing and high quality material.

Novaroma is a vertically integrated organization that handles crop cultivation, harvesting and also boasts a fully equipped dehydration & processing facility in a bid to keep all work done in-house. Finished product is packed in retail foil bags, paper bags, cartons, supersacks, etc. Egypt also benefits from its ideal geographic location for quick & cost effective transportation by Sea to all EU ports. The company is constantly pursuing higher standards which is reflected in 3rd party audits, facility upgrades and upkeep, and upgrades to machinery. Next steps for 2022 include continuing expanding vegetable program and to initiate organic production & capsicum oleoresin extraction.

PRODUCTS & QUANTITIES PER YEAR

- + Dehydrated vegetables (Jalapeno, chili, carrot, spinach, green onion, bell pepper, etc.) / 300 t

EGYPT

Olira Agro Industry

Olira Agro Industry was established in 2008, focusing on exporting both organic and conventional hulled sesame seeds to high value markets including USA, Europe and Middle East. The company has expanded its activities during the previous years and is now engaged in exporting diverse agro products to global markets such as pulses, other oilseeds and some spices.

Olira engages more than 1,800 smallholder farmers who produce sesame seeds. The farmers are supported with pre-finance, inputs, premium price and training to empower them and guarantee a stable supply. As an ISO certified factory, the sesame is processed with a high level of professionalism. Modern European machines are used for all process steps and certifiers are constantly monitoring organic and food safety standards.

Olira's values are based on quality, customer satisfaction, fair treatment of its employees as well as other aspects of CSR.

PRODUCTS & QUANTITIES PER YEAR

- + Conventional natural sesame seeds / 2,000 t
- + Conventional hulled sesame seeds / 1,000
- + Other conventional oilseeds / 1,200 t
- + Pulses (pea beans, chickpeas, green mung) / 500 t

ETHIOPIA

GKV, an established agro-processing and “zero waste” manufacturing company is located in the Western Region of Ghana. The vision of GKV is to add value to agricultural produce in its catchment area with minimal loss to the nutritional value of the processed products. This is achieved by using basic methods such as separation technology and adding value to nearly every part of the coconut fruit. GKV’s sustainability goals and ethos ensure the sourcing of high-quality raw materials from small holder farmers in the Western and Central Regions of Ghana. Their operations generate direct and indirect economic and employment opportunities for the farmers and communities within which they operate. Every liter of oil produced and purchased by their customers impacts and enhances the livelihoods of these communities for the better.

Ava products are retailed by the top supermarkets in Ghana and internationally to Canada, Morocco, South Africa and Nigeria.

PRODUCTS & QUANTITIES PER YEAR

- + Virgin coconut oil / 360 t
- + Dessiccated coconut powder / 200 t
- + Coconut chips / 120 t

CERTIFICATIONS

- + FSSC 22000

GHANA

Pure and Just

Pure and Just is a climate-smart agro-processing business transforming the naturally flavorful tropical fruits of Ghana into world-class, naturally-dried fruit products. They source pineapple, pawpaw (papaya), mango, and banana directly from farmers, which are later processed at their facility. Established in 2017, they currently have a staff of 15 people (incl. executive management.) They are in the process of setting up a new facility located 1.5 hours from the capital, Accra. This new facility (operational in April 2022) will have a staff of 40 people and a monthly capacity of up to 40 tons of dried fruit products. They have exported consignments to Japan and the US.

PRODUCTS & QUANTITIES PER YEAR

480 t of dried fruit:

- + Dried bananas
- + Dried mangoes
- + Dried pawpaw
- + Dried pineapple

CERTIFICATIONS

- + HACCP (In process)
- + Preparing FSSC 22000 for new site

SOURCE OF RAW MATERIAL

- + Fruits sourced directly from farms in Ghana's regions
- + 60 acres on-site cultivated farm land

GHANA

Zalli Foods

Zalli Foods is an agro-processing company that develops and produces nutritious snacks made from African fruits and superfoods. The company was launched in early 2017 with its line of Toasted Coconut Chips under the SOA | Snacks of Africa brand. It also produces high quality fruits (mango and pineapple) for bulk and whole-sale distribution.

The company stands on 3 pillars of impact:

- + Women & youth empowerment: Zalli Foods is woman owned and operated with 70 % of its workforce being women and 100 % under the age of 30.
- + Stable market access for smallholder farmers (80 % of Ghana's coconuts are produced by smallholders).
- + Contribution towards the diversification of Ghana's industrial sector beyond Gold and Cocoa production.

PRODUCTS & QUANTITIES PER YEAR

Bulk dried fruit:

- + Dried mangoes / 40 t (available Q1 2022)
- + Dried pineapples / 30 t (available Q1 2022)
- + SOA toasted coconut chips / 8 t (50g pouches x 400k) – currently available

CERTIFICATIONS

Aksara Kencana Putra

As an organic agriculture producer, Aksara Kencana Putra (AKP) presents a wide range of high quality products, such as cocoa beans and nibs, spices (ginger, turmeric, galangal), coconut sugar, cassiavera bark and blended tea. Together with local farmers and cooperatives, AKP facilitates organic land banks at various locations.

AKP Organic creates an integrated supply chain, named "petaniorganic.com" to ensure that every producer and buyer transaction will follow the contract agreement. "petaniorganic.com" as an integrated trading platform aims to ease the communication between all stakeholders. Starting from searching products, dealing with producers, binding agreements until receiving the product and also the payment transaction will be secured.

The companies' values are based on transparency and accountable fair business. Together it aims to empower and educate farmers as well as reliable and sustainable communities.

AMETHYST *Ole*

Amethyst-Ole was created in 2011 and has gained reputation of a mindful and reliable partner since. Business began with a small production facility which was made up of a single refrigerating chamber and a fast-frozen food storage of a decent size, but thanks to the concerted effort of the team, the business began to grow fast.

At the present time two powerful production lines for electronic berry sorting and one for nuts processing are in use at the facility. In 2020 walnut sorting equipment was totally upgraded for an unsurpassed quality.

UKRAINE

Borovyk

The company Borovyk was founded in 2003 and is located in Boryslav in Western Ukraine, close to the Carpathian region.

Borovyk is a family business which employs today over 100 persons. According to ISO22000 requirements, Borovyk grows and processes champignons and other mushrooms from wild collection in own drying and processing facilities.

Thoroughly selected raw materials, ecological soil, diligent supervision, quality control, and true love to our produce created favorable conditions to grow delicious and ecological mushrooms.

Prior delivery, mushrooms are stored in special "shock" cryogenic chambers or in refrigerators. Dry mushrooms are packed in paper bags. Canned mushrooms are produced in jars.

Brancho Ukraine

BRANCHO

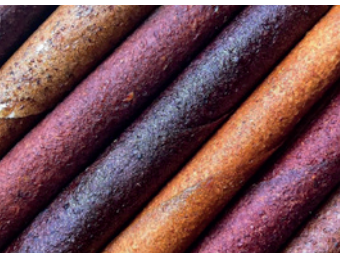

FROM NATURE

Brancho™ is a family-owned company, producing natural fruit and vegetable products since 2018. Brancho™ is specialized on dried ingredients and snacks from about 35 types of fruits, berries, vegetables, and mixed components.

Brancho™ commitment to a full eco-system mindset spanning across the use of natural and organic products, ecological packaging, and high standards of manufacturing.

Brancho™ uses innovative technology of processing raw materials to keep vitamins and nutrients in finished products, which are then packaged into TÜV certified home compostable packaging, minimizing the ecological footprint of our production.

Biogumus Farm

Biogumus Farm, from sunny Uzbekistan, established in 2001, is one of the largest producers of sun-dried tomatoes in Central Asia, with more than 10 years of experience in production and export to European countries. The entire value chain have been controlled, from the selection of seeds for growing, harvesting, production of sun-dried tomatoes, packaging, to delivery to the customer. After gentle harvesting and washing the ripe fruits, tomatoes are cut in half and sprinkled with salt, then dried in the sun for 3-4 days, subjected to quality control for moisture, safety, taste and color, and carefully packed in boxes by 7 kg., stored and delivered at +4 +6°C.

We are committed to our community and provide fair employment to more than 150 people. We pay the highest farming salary in the region. Our production is located in the Nukus region of Uzbekistan, where hot and windy climate creates ideal conditions for growing and sun-drying tomatoes.
