# Import Promotion Desk (IPD)

## Open up new markets and find reliable business partners

VISIT US  
AT BOOTH  
**A 59**

If you are an importer looking for reliable suppliers of natural ingredients and want to open up new supply sources, then Import Promotion Desk (IPD), the initiative for import promotion, will support you.

### **On your behalf, we undertake the international sourcing of reliable trade partners in selected partner countries.**

We identify highly promising producers for you who are able to reliably meet the demand on the European market. We prepare the suppliers thoroughly for the EU market: considering factors such as product quality, exportability, export capacity, and compliance with international standards and certification.

We introduce you to the carefully evaluated companies at trade fairs in Europe or during virtual b2b events. Thanks to our preparation, you will meet business partners who know what is important to European importers.

### **Our mediation is neutral, quality-conscious and free of charge.**

On the following pages we present selected companies from Colombia, Côte d'Ivoire, Ecuador, Egypt, Ethiopia, Indonesia, Namibia, Tunisia, and Uzbekistan, offering their diverse range of natural ingredients for personal care products.

We establish direct contact to these new suppliers and organise b2b meetings for you.

### **Get in touch with us!**

IPD is an initiative of the Federation of German Wholesale, Foreign Trade and Services (BGA) and sequa, the development organisation and partner of German business.

We are funded by the Federal Ministry for Economic Cooperation and Development (BMZ).

In line with our development policy objective, we aim to increase exports from partner countries, promote innovation and higher value creation in order to contribute towards sustainable economic development in partner countries.

# IPD Partners

IPD works with a network of international organisations in Europe and our partner countries. Thus we efficiently pool information and know-how.

This enables us to link existing import and export promotion measures and carry out their strategic further development. Our partnerships always make it possible for us to match all services of IPD to the needs of importers and exporters exactly and then carry out our services optimally at any place.

# Be Karité

Based in the north of Côte d'Ivoire, in Korhogo, Be Karité is a company that supplies the food, pharmaceutical and cosmetic industries with natural shea almonds and shea butter worldwide. Be Karité collaborates with cooperatives of women from precarious social backgrounds who collect shea nuts and produce artisanal shea butter without additives. Its objective is to take an active part in the empowerment of women in Côte d'Ivoire by integrating its producers into the value chain according to international criteria. Its goal is to improve their living conditions and create wealth by reducing the intermediaries between producers and international industries so that they benefit from the fruit of their hard work. Be Karité is responsible for all the operations involved: collection, production, storage, processing and distribution of its natural products. The corporate identity is built on ensuring the credibility of their products through artisanal production and fair valuation of their partner cooperatives. Be Karité is in the process of renewing its organic certification and obtaining fair trade certification. In order to preserve the environment, the company uses biodegradable and recyclable packaging for the appropriate conservation of the shea nuts and butter's quality. Be Karité aims to fully satisfy your various orders by favouring value for money and respecting terms of delivery.

## PRODUCTS & QUANTITIES PER YEAR

# Sanam Company

Sanam is an innovative company focusing on the production and selling of ingredients from the coffee cherry. They are a pioneer in applications and developments for the human nutrition, cosmetics or even agricultural fertilization industries around the world. Sanam supplies coffee fruit concentrates that can be transformed in spray dried or freeze dried powders. Also, premixes can be prepared with other taylor made formulas.

Sanam's patents are unique as they keep the best molecules from the pulp or husk and deliver them to help living beings to live better. Their ingredients are rich in polyphenols, protein and natural carbohydrates without modifying the biological integrity of the fruit.

Sanam is located in Colombia and Costa Rica, two of the best coffee quality producers.

## PRODUCTS & QUANTITIES PER YEAR

- + Coffee fruit concentrates / 1,600 t
- + Premixes with taylor made formulas

## CERTIFICATIONS

- + KOSHER

COLOMBIA

# Aroma Santo

Aroma Santo, a family company founded in 2016, is a company dedicated to the production of essential oil from Palo Santo (*Bursera Graveolens*). It is of particular interest to state that the base raw material of their product is the Fruit of the Palo Santo tree.

They ponder the enormous benefits that their product offers, considered an ancestral botanical treasure. Its aromatic, analgesic, antiseptic and anti-inflammatory properties have made it a unique product of its kind.

Aroma Santo, has its main legal and administrative headquarters in Loja, Ecuador.

ECUADOR

Uyamafarms is an Ecuadorian family company dedicated to the production of avocado fruit. The extraction factory makes avocado oil from the seeds and leaves. The oil is extracted through a cold-centrifuge process that preserves all of the nutrients, antioxidants, essential fatty acids and vitamins from the avocado fruit. This makes it one of the best ingredients not only for human consumption, but also for natural cosmetics. Uyamafarms offers the freshest all-natural avocado-derived products, ethically sourced and with 100% traceability. Tailor-made for the natural cosmetic industry, especially for those looking for non-chemically processed ingredients.

## PRODUCTS & QUANTITIES PER YEAR

- + Extra virgin avocado oil / 50t
- + Avocado seed / 1t
- + Avocado skin and seed / 10t

# Tchakka Origins

Founded in 2019, Tchakka Origins is a specialty natural ingredients enterprise focused on personal care and wellness products from Ethiopian indigenous plants.

By sourcing directly and in partnership with smallholder farming communities in Ethiopia's forested and biodiverse areas, including Kafa Biosphere Reserve, Yayu Biosphere Reserve and Greater Bale, Tchakka Origins works to change the way business is done. The enterprise is embedded in the belief that ecologically and socially impactful businesses can change the course of climate change, while creating new ways of sustainably consuming plant-based products.

This is why Tchakka Origins crafts special essential and fatty oils, floral waters, dried herbs and ground spices from a range of plant base materials, with focus on indigenous plant species. By working in the ecosystems that we are dependent on, promoting organic agroforestry, selecting naturally high-performing and nutrient-rich plant base materials, Tchakka Origins wants to change the climate consideration for the personal care and wellness markets.

## PRODUCTS & QUANTITIES PER YEAR

- + Nigella sativa fatty oil / 8,700 l
- + Afromum corrorima oil and distillate / 100 l
- + Aloysia triphylla oil and distillate / 20 l

# Aroma Atsiri

Aroma Atsiri Indonesia (AAI) provides 100% pure & natural Indonesian origin essential oils and derivatives. AAI believes that the best quality of products comes from selecting the best raw materials, the right processes, and the best technology. Adhering to this principle AAI ensures, that everything at AAI is fully integrated.

The company's continuous heavy investment in innovative technology brings them at the forefront of modern advancements, allowing AAI to create new products and keep production costs to a minimum.

AAI's research team aims to discover new and improved distillation techniques and assists growers with good farming practices. With a well-equipped and advanced lab for the quality check of their processes, the company serves the customers with a consistent and fully traceable supply of quality products.

# Indosains Essential Oils

Indosains Essential Oils (Indosains Niaga Sejahtera) supplies typical Indonesian essential oils by assuring high-quality standards and purity.

The company's principles consist of its dedication to product excellence, customer satisfaction, enlightenment, and wellness. Their essential oils can be used for aromatherapy, all-natural perfumes, home scenting, or bath and body items.

All raw material entering to Indosains is collected from Indonesian farmers and distilled in their own distillation house. An additional level of quality assurance is in place by GC-MS (Gas Chromatography-Mass Spectrum) testing essential oils.

## PRODUCTS & QUANTITIES PER YEAR

- + Citronella oil / 4-8t
- + Clove leaf oil / 4-8t
- + Patchouli oil / 1t
- + Nutmeg / 500 kg
- + Cananga / > 5t

# Javagri

Javagri is an upcoming Indonesian family-owned producer of essential oils, aromatic chemicals and plant extracts for local and international flavour & fragrance industries, founded in Gresik, East Java, Indonesia in 2014. East Java is a region with tremendous biodiversity of flora and fauna, that enables Javagri to work closely with regional farmers to produce the purest and most sustainable natural ingredients. The Indonesian-derived and produced essential oil, extracts and aromatic chemicals are in continuous development to meet and uphold a strict international quality and safety standards.

As a young company, it is crucial for Javagri to actively innovate and evolve its ways of operation, products, qualities and technologies to meet the local and international customers demands; and to continuously enhance resources to increase Javagri's capability in offering the best solutions.

Javagri is dedicated to deliver the best quality, efficiency, innovation sustainably throughout the whole supply chain. Its focus is to enrich the quality of life of all aspects; economically, environmentally and socially.

# Mitra Ayu

Mitra is an innovative company that manufactures unique and high quality essential oils, oleoresins and natural isolates. All of its products are 100% pure and natural and they are all exclusively of Indonesian origin.

The slogan "Manufactured to Perfection" describes very well Mitra's culture and reputation as an innovative company that maximizes the use of state of the art green manufacturing technologies (such as supercritical CO<sub>2</sub> extraction, fractional distillation, and molecular distillations) to produce the best quality products.

Commitment to ethical and sustainable business practice is one of Mitra's core values besides safety, quality and passion. Even as a small family owned company, Mitra believes that through its plantation and its cooperation with government, universities and farmers, it can incrementally make a better impact towards the environment and local community.

# Taneta Investment

Founded in 2015, Taneta Investment is a Namibian family-owned company specialized in the processing of Marula Oil (*Sclerocarya Birrea*). Its Pure Marula by Taneta products are 100% organic, pure and natural and exclusively of Namibian origin.

Marula fruits are harvested sustainably in partnership with the rural women in the northern part of Namibia whose livelihood depend on it to support their families. Marula kernels from the nut of the marula fruits, harvested from the wild marula trees are then cold-pressed in the company's processing facility in Windhoek, Namibia.

Taneta's vision is to create high quality marula oil while contributing to the social well-being of the local communities and the environment.

Taneta strives to enhance its position in the local market, while refining its international marketing strategy.
