Organic Sourcing for Development

DISCOVER THE ORGANIC POTENTIAL FROM DEVELOPING AND EMERGING COUNTRIES!

Since 2015, Import Promotion Desk (IPD) – the German initiative for import promotion – and the international service provider “Gesellschaft für Internationale Zusammenarbeit” (GIZ), have been present at BIOFACH with a joint stand.

Under the motto “Organic sourcing for development” we connect German and European importers with selected exporters from developing and emerging countries.

At BIOFACH 2023, we are showcasing more than 50 innovative companies from Cambodia, Cameroon, Côte d'Ivoire, Ecuador, Ethiopia, Ghana, Indonesia, Kenya, Madagascar, Morocco, Mozambique, Namibia, Sri Lanka, Togo, Tunisia, Uganda, and Ukraine.

Our suppliers bring a wide variety of high-quality organic products to Nuremberg.

Take a look at the product finder starting from page 6, which gives you an overview of the available products.

Take advantage of BIOFACH 2023 and visit us at our booth in hall 3A – there we will put you in direct contact with exporters that are of interest to you.

On the following pages you will also find detailed information about the IPD evaluated exporters and the companies supported by GIZ.

Import Promotion Desk (IPD)

Open up new markets and find reliable business partners

Visit us in hall 3A | Booth 3A-220

Regardless of whether you require natural ingredients for foods, pharmaceuticals or cosmetics: High-quality products are the only way to satisfy the high demands of consumers.

It is therefore crucial to find the right suppliers throughout the world. Import Promotion Desk (IPD), the initiative for import promotion, supports you exactly in this.

On your behalf, we undertake the international sourcing of reliable trade partners in selected partner countries.

We identify highly promising producers for you who are able to reliably meet the demand on the European market. We prepare the suppliers thoroughly for the EU market: considering factors such as product quality, exportability, export capacity, and compliance with international standards and certification.

Thanks to our preparation, you will meet business partners who know what is important to European importers.

At BIOFACH 2023, we introduce you to 38 reliable exporters of organic products from Côte d'Ivoire, Ecuador, Ethiopia, Ghana, Indonesia, Kenya, Madagascar, Morocco, Sri Lanka, Tunisia, and Ukraine.

On the following pages you will find detailed information about the IPD exporters. We establish direct contact to these suppliers and organise b2b meetings at the trade fair.

Our mediation is neutral, quality-conscious and free of charge.

IPD is an initiative of the Federation of German Wholesale, Foreign Trade and Services (BGA) and sequa, the development organization and partner of German business. We are funded by the Federal Ministry for Economic Cooperation and Development (BMZ).

In line with our development policy objective, we aim to increase exports from partner countries, promote innovation and higher value creation in order to contribute towards sustainable economic development in partner countries.

IPD partners

IPD works with a network of international organisations in Europe and our partner countries.

Thus we efficiently pool information and know-how.

This enables us to link existing import and export promotion measures and carry out their strategic further development.

Our partnerships always make it possible for us to match all services of IPD to the needs of importers and exporters exactly and then carry out our services optimally at any place.

Agriland

Hall 3A | 3A-220

Agriland is a family-owned company founded in 1998 in Côte d'Ivoire.

Agriland operates as the agro-industrial subsidiary of its mother company Afreco. Its business started with plant cultivation on its own plantations and quickly expanded into the production of fresh ginger essential oil. Afreco is specialized in ingredient sourcing in West Africa for more than 40 years. This way, it is able to control the quality of the products from the source while ensuring good traceability.

In 2017, Agriland further diversified its activities by introducing cold pressed organic vegetable oils and butters.

All products are exported worldwide to cosmetic, pharmaceutical and food processing companies.

PRODUCTS & QUANTITIES PER YEAR

- + Wild palm kernel oil / 200t
- + Shea butter / 700t

CERTIFICATIONS

- + ORGANIC EU
- + KOSHER
- + HALAL

SOURCE OF RAW MATERIAL

- + Shea nuts and palm kernels are sourced from local suppliers who collect the raw material when it falls from wild trees.

CÔTE D'IVOIRE

Bio Amandes

Hall 3A | 3A-220

Located in Ferkéssédougou, in the heart of the Tchologo region of northern Côte d'Ivoire, Bio Amandes is the region's biggest organic and Fair for Life certified shea butter producing company.

Bio Amandes was created in 2018 by Eric NGuetta, a young Ivorian whose main concern was to offer quality and traceable shea butter while promoting local traditional know-how. Bio Amandes produces shea butter using modern technology offering the highest quality shea butter (international standards) while preserving the artisanal skill of extraction and production.

Bio Amandes employs 41 people and exports mainly to Europe (France, Germany, The Netherlands). The company's corporate social responsibility is dedicated to the empowerment of rural women involved along the processing chain.

PRODUCTS & QUANTITIES PER YEAR

- + Crude shea butter / 2,000t
- + Refined shea butter / 2,000t

CERTIFICATIONS

- + ORGANIC (EU, NOP)
- + FAIR TRADE (FAIR FOR LIFE)

SOURCE OF RAW MATERIAL

- + Biodiversity zones of Warigué

CÔTE D'IVOIRE

Conexión Chocolate Ecuador

Hall 3A | 3A-220

Conexión Chocolate is an award-winning terroir-driven fine chocolate company committed to crafting incredible chocolate in the country of origin, sourced directly from small scale cacao growers using traceable and organic agroforestry practices.

Nacional Cacao is a heirloom variety native of Ecuador considered one of the best fine flavor cacaos in the world and it is in danger of extinction. Conexión Chocolate works directly with cacao cooperatives to preserve its cacao, empowering communities and inspiring new generations. The company connects the world with the country's soul and boosts their customers creations providing unforgettable experiences.

Conexión Chocolate uses a variety of roasting profiles to highlight the innate organoleptic flavor profiles from different regions of Ecuador to bring single-origin artisan chocolate to life. It is sold in Asia, US and Europe.

PRODUCTS & QUANTITIES PER YEAR

- + Raw and roasted cacao derivatives (nibs, powder, butter, liquor) / 250t (each)
- + Raw and classic chocolate couvertures / 200t

CERTIFICATIONS

- + ORGANIC (EU, NOP)
- + KOSHER
- + VEGAN

SOURCE OF RAW MATERIAL

- + Cacao beans are sourced directly from cooperatives of small-scale cacao growers all over the country using traceable and organic agroforestry practices

Hacienda Palo Santo is a vertically integrated family business growing cacao since 1984 in Ecuador for the past three generations. Palo Santo owns and manages their own cacao farms and has built a factory where cacao fruit is produced right in the middle of the cacao plantation to ensure freshness and quality.

Hacienda Palo Santo went into a long in-house process for developing the machinery needed to extract the pulp from the bean and industrialize the production under all food safety compliments.

Having Italian roots, the family owning Cultivagro, used to have cacao fruit ice-cream as their everyday desert. The company started sharing their family tradition with the world by making cacao fruit pulp available in frozen and room temperature.

Cacao fruit has endless properties and is categorized as a superfood containing antioxidants, flavonoids, theobromine, caffeine, magnesium, zinc and potassium. Packaging alternatives go from 100 g up to 18,5 kg.

PRODUCTS & QUANTITIES PER YEAR

- + Cacao fruit pulp / 150t
- + Cacao beans / 125t

SOURCE OF RAW MATERIAL

- + Own cacao farms (more than 300 ha of production)

Kavanian

Hall 3A | 3A-220

Kavanian is an Ecuadorian company behind the project of Biolignum which is committed to the development of high-quality organic products used in the cosmetic and the food industry. The company's signature product is the organic moringa oil in which every production stage from the cultivation of the tree to the selection of the best seeds and finally the oil extraction process is taken care of. This way it is ensured that the final product meets high standards and fulfills the clients' requirements.

Since the beginning, Kavanian's goal has been the creation of organic products and the generation of a positive impact on the people who work with the company, prioritizing the application of circular economy principles.

ECUADOR

Latiali

Hall 3A | 3A-220

Located in Duran, Ecuador, Latiali has a state-of-the-art facility. With a decades-long legacy and streamlined process from field to industrialization, Latiali has gained recognition as a reliable manufacturer and distributor of various products derived from cocoa, such as cocoa beans, cocoa nibs, cocoa mass, cocoa butter, and chocolates.

Latiali invested numerous years in sourcing the finest cocoa plantations in different regions of Ecuador. The plantation selection considers aspects such as soil characteristics, plantation conditions, traceability, cocoa bean genotype, employees' conditions, environmental protection, certifications, etc.

Latiali's finest chocolate combines the best Ecuadorian cocoa beans with a designated step-by-step chocolate-making process to enrich and retain the distinct Ecuadorian cocoa's nutrients, taste, and aroma.

Betigil Moringa

Hall 3A | 3A-220

In 2012, Betigil Moringa was the first company in Ethiopia to receive a production and export license for Moringa. Ever since, the company has been raising awareness and paving the way for a local traditional food item to receive international attention. The organic farm and its production hall are located in the area of Arba Minch, in the warm and friendly South of Ethiopia. Betigil Moringa introduced shade drying of the fresh leaves to preserve the vital nutrition and healing potential. Since 2021, the company holds the organic certification by EcoCert.

Moringa is a fast-growing tree that has earned a reputation of being the earth's most nutritive plant and can indeed be called a "super food". It has a long history of being used both as food and medicine. In Amharic, the national language of Ethiopia, Moringa is known as "Shiferaw" which can be translated as "the plant that 1,000 diseases fear".

Betigil Moringa is currently exporting to Europe and Japan.

PRODUCTS & QUANTITIES PER YEAR

- + Moringa leaf bulk / 64.35t
- + Moringa leaf powder / 214.5t
- + Moringa tablets / 1,155,000 units
- + Moringa seed oil / 4,730l

ETHIOPIA

Beza Mar Agro-Industry

Hall 3A | 3A-220

Beza Mar Agro-Industry is a pioneer organization in the apiculture subsector. The company was established in 2003 with the aim of collecting, processing and supplying the untapped apicultural resources of Ethiopia for both the local and export markets. Beza Mar is established as a private limited company owning two modern honey processing plants.

The company has been engaging in the production of table honey and beeswax since 2008 and has gradually started to export honey and beeswax to the international market.

After the EU accreditation of Ethiopia under the third country listing, Beza Mar became the first private company to supply organic semi-processed honey and beeswax to the UK market. Since then, the company obtained exposure to foreign markets and became registered as an exporting company of honey and beeswax. Furthermore, Beza Mar expanded its market to other EU countries, Middle East, Japan and USA.

PRODUCTS & QUANTITIES PER YEAR

- + Honey / 400t
- + Beeswax / 200t

Bio-Tropical Products Company

Hall 3A | 3A-220

Bio-Tropical Products Company is a company in Ghana, established in 1984 as an agricultural enterprise. It has established 300 acres of citrus and 200 acres from its organic certified small holder farmers with a total acreage of 500 acres. In addition, it has 100 acres of cocoa plantations as well as 90 acres of Voacanga farms.

Currently, Bio-Tropical Products processes dried organic peels from sweet orange, lemon fruits with different presentations and fresh citrus for the export market. The company exports according to the buyer's specification. Its fresh orange, lemon and dry orange and lemon peels are certified as organic by Ecocert SA.

GHANA

Emmy's Daughter Organics

Hall 3A | 3A-220

Emmy's Daughter Organics was set up in 2021 by two entrepreneurs with a passion for medicinal and aromatic plants.

As a responsible Ghanaian business, Emmy's Daughter Organics is committed to putting back more than it takes out of the planet. This commitment starts with paying both farmers and workers a fair price for their services and raw materials.

What differentiates Emmy's Daughter Organics from the competition is the company's commitment to quality. This is best exemplified by the innovative use of greenhouse technology to sun and air-dry citrus peels under controlled, sealed and hygienic conditions – free from contamination and unwanted pests that can occur when dried in the open.

Wad African Foods

Hall 3A | 3A-220

Wad African Foods was created in the year 2000 with the aim of supporting small-scale farmers by organising them and adding value by processing their produce into dried fruits for export.

The knowledge of farmers and their individual harvesting by hand allows them to select only mature well-ripened fruits. This coupled with all the steps in Wad African Foods' processing – peeling, cutting, and packaging done manually, contributes to more accurate checks allowing Wad African Foods to offer its customers high-quality products.

The company currently exports to Switzerland, Germany, Japan and the USA.

Privamnuts

Hall 3A | 3A-220

The macadamia nuts of Privamnuts are naturally grown in the mineral-rich highland soils of Mt. Kenya, right at the equator. The farmers allow their trees to grow most naturally with very little intervention, using available resources like animal manure only. Spraying is non-existent.

Privamnuts has a modern processing facility as well as a macadamia nursery that supplies over 100,000 organically grafted macadamia seedlings. End-to-end quality monitoring systems are implemented and the quality control team adheres to a strict food safety management system from the farm to the point of sale.

Privamnuts exports macadamia kernels to different global markets. The American market accounts for the largest share of its exports with the other markets being Europe, the Middle-East, Japan and China.

PRODUCTS & QUANTITIES PER YEAR

- + Macadamia nuts kernel / 200t

Flora of Madagascar (FLORAMAD)

Hall 3A | 3A-206

From the unique
flora of Madagascar

Floramad is a reliable supplier of essential oils from Madagascar. The company has been exporting its natural ingredients worldwide since 2010, serving the aromatherapy, cosmetic, flavour and fragrance industries (including 14 tons to Europe per year).

Floramad offers high-quality essential oils (fully pure and natural, with stable quality and matching with international standards). Oils are systematically controlled and are following a traceability system for each batch of production.

Voluntarily engaged in CSR, Floramad adopts sustainable practices on its own production sites as well as with its small-scale partners. Thus, the company contributes to human well-being and environmental conservation through all its activities.

دار التموور
DAR TOMOOR

من دارنا لداركم
From Our Home To Yours

Dar Tomoor is a family business inspired by long-lasting traditions. The farm base was established 13 years ago in the Ferkla region, near Errachidia in Morocco – a 23 hectares lot where the orchards of palm trees are now thriving. The company's mission is to make organic Medjoul and Boufeggous dates accessible to all and to promote a healthy lifestyle by educating consumers on the benefits of dates.

Dar Tomoor dates are grown with care in order to deliver the highest-quality products. Dar Tomoor's commitment to the environment is crucial. Some of the actions taken are powering the land with solar energy to reduce carbon emissions, recycling organic farm waste as compost, and delivering zero phytosanitary products.

Dar Tomoor is currently only operating in Morocco, which has been a great success. The next step is to penetrate the European market and supply Dar Tomoor's unique products internationally.

MOROCCO

Ellawala Horticulture

Hall 3A | 3A-310

Ellawala Horticulture, founded in 1992, is a pioneer in Sri Lankan agriculture. The Tom EJC mango variety was introduced by Ellawala and received formal recognition from the Department of Agriculture in 2003 and is now the variety of choice for cultivation in the dry and intermediate zones of Sri Lanka.

In 2017, the company began exporting organic fresh mango and other fruit varieties to several countries worldwide. In 2021 Ellawala commissioned a modern food production facility located within its extensive farm in the Sri Lankan North Central Province. With five production lines, including pulping, canning, cooking, freezing, and dehydrating, Ellawala can produce a wide range of tropical fruit products that are full of natural goodness made from tree ripened and handpicked fruits that are grown in their organic farms.

Ellawala has 150 employees, of which 70 % are women from the villages around the factory.

PRODUCTS & QUANTITIES PER YEAR

- + Dried mango, pineapple, banana, papaya, coconut / 120t

BIOORIGIN
FRUITS TUNISIA

BioOrigin Fruits, established in 2019, is based in Hazoua, Tozeur, Tunisia. BioOrigin Fruits operates in the packaging of agricultural products including Tunisian "Deglet Nour" organic dates & derivatives. This variety originates from organic oases of the Jerid and Nefzawa regions, produced by small farmers (1 ha max). The company is committed to promoting organic farming, the socio-economic development of these regions and protection of the environment.

BioOrigin Fruits focuses on fair trade to encourage farmers to get engaged in organic farming and trust this mode of production. The farmers are registered in associations that have been certified "organic" and "Fairtrade" named "Continental Intercalaire of Rjim Maatoug", "Biopalma El Faouar" & "Biooasis Hazoua". BioOrigin Fruits produces and exports organic dates and dried fruits for EU & UK markets.

Amethyst-Ole

Hall 3A | 3A-220

AMETHYST *Ole*

Amethyst-Ole was created in 2011 and has gained reputation of a mindful and reliable partner since business began with a small production facility which was made up of a single refrigerating chamber and a fast-frozen food storage of decent size, but thanks to the concerted effort of the team, the business began to grow fast.

At the present time two powerful production lines for electronic berry sorting and one for nuts processing are in use at the facility. With cutting-edge equipment and professional teamwork, Amethyst-Ole is able to manufacture up to 30 tons of frozen berries a day on average, up to 2000 tons a year.

In 2020 walnut sorting equipment was totally upgraded for an unsurpassed quality and the company can currently process up to 300 tons of export grade walnut kernels per season. In 2022 a separate chamber for raspberry and walnut processing is being set in operation.

PRODUCTS & QUANTITIES PER YEAR

- + Wild blueberries frozen / 1,000t
- + Wild blackberries frozen / 400t
- + Wild elderberries frozen / 400t
- + Raspberries frozen / 400t
- + Lingonberries frozen / 100t

Oril-Eco

Hall 3A | 3A-220

Driven by the love for their native land, Oril-Eco company was founded in 2018. The company grows strawberries on an area of 12.8 hectares and remontant raspberries on an area of 22.7 hectares in the Tsarichansky district of the Dnepropetrovsk region, Ukraine. They have completely organic fields and organic crops.

Since 2019, the company has launched its own freezing complex, which now makes it possible to process the entire crop of strawberries and raspberries, as well as controlling every stage of the processing and packaging. Every year Oril-Eco harvests and freezes 130-170 tons of organic strawberries and 100-130 tons of organic raspberries. The production is certified according to the FSSC standard which is confirmed by corresponding certificate.

In 2022, despite the difficult situation in the country, the company started a new berry project - the sublimation of raspberries and strawberries. The first freeze drier machine with 100 kg capacity of frozen raw materials started working in July 2022. In addition, Oril-Eco has been successfully exporting frozen berries since 2019 to EU countries (Netherlands, Poland and Italy).

Panfruit Ukraine (Dykanski Yagody)

Hall 3A | 3A-220

The company has been growing organic berries since 2015 and currently cultivates more than 15 hectares in environmentally safe regions of Ukraine (Poltava region). Produced at its own farm: ripe fruits are collected, cooled within 30 minutes, frozen and freeze-dried directly at the field to preserve all nutritional benefits of natural ingredients. Panfruit has a clear traceability of the whole chain and modern certified equipment for freezing and freeze-drying.

Since 2022, Panfruit is partnering with the company Oril-Eco to consolidate quality, volumes and efforts.

The organic certification – it is the first Ukrainian company that received an Organic certificate for freeze-dried products and became a leader in B2C sales in Ukraine. The company offers products under the label „Panfruit Ukraine“ in retail packaging. They are also open to cooperation under your “private label”.

UKRAINE

Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH

Hall 3A | Booth 3A-220

At BIOFACH 2023, GIZ provides an overview of its engagement in organic agriculture.

Our joint stand presents partner companies, organic project experiences and possibilities for future cooperation with the private sector.

GIZ is a global service provider in the field of international cooperation for sustainable development with over 50 years of experience. It supports the German government, in particular the Federal Ministry for Economic Cooperation and Development (BMZ) and other clients, in around 120 countries in achieving their development objectives.

GIZ works with its partners to develop effective solutions that improve the living conditions of people in our partner countries sustainably. We turn existing potentials of a region into a sustainable development and take advantage of local opportunities resulting from demand in national and international markets.

Our advisers help optimise (organic) value chains and establish global standards for internationally traded products.

GREEN INNOVATION CENTRES FOR THE AGRICULTURE AND FOOD SECTOR (GIC)

Germany supports through its 15 Green Innovation Centers (GIC) the agriculture and food sector in 13 African countries and two in Asia.

Being part of the special initiative "Transformation of Agri-food systems" of the BMZ, the GIC aims to increase the productivity and revenues of 1.6 million small-holder farmers together with various partners from the public and private sector.

The objective of the GIC Organic Agriculture Working Group, currently consisting of eight country members, is to facilitate the transfer of knowledge and experiences with respect to organic cultivation practices and contribute to the global organic movement by supporting farmers with technical advice, connecting stakeholders and strengthening organic markets.

In 2021 the program started a strategic cooperation with sequa to connect exporters with importers in the organic sector. The objective is to establish sustainable trade relationships.

Sela Pepper

Hall 3A | 3A-220

Sela Pepper specializes in both organic and conventional pepper products. It operates a pepper processing plant in the Cambodian province of Tbong Khmum, equipped with high-end facilities and an in-house laboratory. The company works closely with 600 farmers who follow with Good Agricultural Practices (GAP) and organic standard.

Sela Pepper is a well-established brand that can be found not only in most Cambodian supermarkets but is also being exported to Europe, the USA, New Zealand, Japan, Korea, Taiwan, Hong Kong, India, Thailand, and Vietnam.

The company aims to promote organic farming in a sustainable manner and to explore domestic and global markets for the organic products they produce. Major emphasis is placed upon improved living standards for small and marginal farmers through fair trade practices.

PRODUCTS & QUANTITIES PER YEAR

- + Pepper / 1,500t

SOURCE OF RAW MATERIAL

- + Cambodia center of pepper farms with direct access to more than 600 local farmers

CAMBODIA

Guiding Hope

Hall 3A | 3A-220

Guiding Hope is an enterprise created in 2006 whose mission is to guide the hopes of small producers and all those involved in the sector through the promotion and formalization of value chains for authentic local traditional products, the valorization through organic and other certifications and the creation of brands to distinguish these products improving the livelihoods of local producers.

In addition, they propagate the promotion of fair trade, sustainable development and training and community projects, traceability and quality control of product.

Guiding Hope takes a people-profit-planet approach. In other words, they aim to run a profitable business while improving the livelihoods of producer communities and caring for the increasingly fragile environment.

PRODUCTS & QUANTITIES PER YEAR

- + Beeswax / 100t
- + Honey / 200t

CERTIFICATIONS

- + ORGANIC (EU, NOP)
- + HACCP

SOURCE OF RAW MATERIAL

- + 1,000 beekeepers; the impact reaches 10,000 small producers (because each beekeeper works with about 10 beekeepers from their family) spread over the national territory.

CAMEROON

Baobab Products Mozambique

Hall 3A | 3A-220

Baobab Products Mozambique (BPM), established in 2015, is based in Chimoio, Manica Province in central Mozambique. BPM is an inclusive business, with 20 % of shares in the company held by the association representing the 3,000+ women baobab harvesters from whom BPM buys fruit. BPM is committed to sustainable harvesting and natural resource management and imposes strict quality controls at all stages of production, including rigorous testing of samples.

BPM is a growing business: since 2016, BPM has become one of the biggest suppliers of high-quality organic baobab powder in Africa. BPM supplies natural product distributors and food manufacturers in Europe and the UK and has a growing national market. In 2022, BPM added organic certified oil to its product range.

PRODUCTS & QUANTITIES PER YEAR

- + Organic baobab fruit pulp / 60-80t
- + Organic baobab seed oil / 3t

CERTIFICATIONS

MOZAMBIQUE

Impresario Beauty Oils

Hall 3A | 3A-220

Impresario Beauty Oils Africa is a bulk manufacturer and distributor of cosmetic grade oil to the international beauty and personal care industries. The company's business is moulded by its strategy of supply on an individual client's demand – based on prescheduling; meaning that clients always receive the freshest and “cosmetic” – ready quality oil when and where needed.

Impresario Beauty Oils Africa believes in corporate policies that benefit the people and environment. The improvement of quality of life can be done by small increments like participating in socially and environmentally conscious investment like the company's Fair-for-Life projects.

PRODUCTS & QUANTITIES PER YEAR

- + Marula oil / 80 –100t
- + Mongongo oil / 10–15t
- + Kalahari melon oil / 10–15t

CERTIFICATIONS

- + ORGANIC (EU, NOP)
- + FAIR FOR LIFE

NAMIBIA

Agrokom is a company specialised in the production of organic agricultural products such as: soya, sesame, shea and fonio. It processes and markets soybean meal, shea butter, shelled and precooked fonio for the European market.

Soybean cake is used for animal feed and shea butter is used in cosmetics. Fonio is a cereal of the Poaceae family and is naturally gluten-free. It is rich in nutrients and fiber. It is very digestible and is suitable for fragile intestines and diabetics. It is also called the African quinoa.

Agrokom strives to contribute to the development of local communities in Togo, by promoting organic agriculture through fair trade and by adding value to agricultural products through their transformation.

PRODUCTS & QUANTITIES PER YEAR

- + Raw soybean / 3,000t in bulk
- + Soybean meal / 1,000t in bulk
- + Shea butter / 500t in bulk
- + Fonio / 500 t in 25 kg bags

CERTIFICATIONS

- + ORGANIC (EU, NOP)
- + HACCP
- + FAIR FOR LIFE

SOURCE OF RAW MATERIAL

- + The soya, fonio and organics sesame come directly from smallholders in Togo. The shea kernels come from the women who collect shea kernels in Togo

Agro Vision Initiative

Hall 3A | 3A-220

Founded as a cooperative in 2013, Agro Vision Initiative transformed into a company in 2019. Based in Notsé, Togo, the company maintained its social and environmental objectives and employs 28 persons. Its mission is to increase the economic opportunities and income of disadvantaged micro-entrepreneurs engaged in the production and processing of organic products.

For this reason, the company works with around 3,240 producers which are supported with agricultural inputs, finance opportunities and technical know-how. By focusing on organic products, the company is striving to enhance its international marketing strategy.

PRODUCTS & QUANTITIES PER YEAR

- + Soybean / 4,500t
- + Moringa / 20t
- + Ginger / 30t
- + Turmeric / 30t
- + Desmodium adsensens / 20t
- + Groundnut / 20t
- + Manioc
- + Souchet (Tigernut)

CERTIFICATIONS

- + ORGANIC (EU, NOP)

TOGO

Label d'Or

Hall 3A | 3A-220

Label d'Or, located in Togo, West Africa, was born under the impulse of people with twenty years of experience in the production and export of organic agricultural products. Label d'Or sets up a unique service offer for the benefit of small producers: organization and development of organic channels according to market needs, training on organic, audits and certifications. Thus, the company collaborates with more than 10,000 Togolese producers. The products of Label d'Or have been certified organic for years by highly regarded organizations.

Currently, its certified products are exported directly to wholesalers in the European Union who dispatch them to their network on other continents.

Label d'Or has developed two modern processing plants for some of its products, thus assuring its clients of the raw material and the processed product. The transactions and exports of Label d'Or are facilitated since 2020 by an approval in the Togolese free zone.

PRODUCTS & QUANTITIES PER YEAR

- + Fonio / 200t
- + Shea butter / 2,000t
- + Fresh pineapple / 800t
- + Pineapple dried / 80t

Soy-Max

Hall 3A | 3A-220

Founded in 2018, Soy-Max is a Togolese company that markets soy and cashew. Its products are organic, 100 % pure and natural and exclusively of Togolese origin.

Soy-Max's mission is to develop and enhance the cultivation of organic products in Togo as well as the organization of the collection of organic products to contribute to reduction of unemployment. Based in Lomé, the capital city of Togo, the company has 22 employees, who work together with 6,400 producers. To ensure high quality organic products the company provides farmers with high quality seeds and technical know-how.

Soy-Max works with local companies in Togo and companies in the EU. The company improves its production line and delivering process every year. For next season, Soy-Max intends to provide organic certified shea nut, pineapple and sunflower to his customers.

Blessed Organic Release

Hall 3A | 3A-220

Blessed Organic Release seeks to introduce the world to the healing properties of organic Shea Nilotica products. Unique to Eastern Africa, the naturally occurring Shea Nilotica possesses properties that deeply moisturize skin and hair, polish and rejuvenate the skin and also reduce skin inflammation. Its high oleic content makes it ideal for the cosmetic industry.

Launched in 2004 soon after the war ended in Northern Uganda, Blessed Organic Release inspires returnees from Internally Displaced Peoples' camps with hope, while equipping them with means to earn a living. Today, over 6,000 farmers partner with Blessed Organic Release through organized groups and earn regular income through the sale of shea tree products and organic sesame oil.

The company's future plans include purchasing and packaging organic shea butter from several newly registered women-led shea cooperatives that are beginning to process it.

PRODUCTS & QUANTITIES PER YEAR

- + Shea nuts / 50t
- + Shea butter / 20t

CERTIFICATIONS

- + ORGANIC EU

SOURCE OF RAW MATERIAL

- + Shea butter raw material (nuts) is sourced directly from certified collectors from Agago District
