Import Promotion Desk (IPD)

Your partner for sustainable business contacts

Discover quality fresh produce from all over the world at Fruit Attraction 2024

IPD connects European buyers with carefully screened suppliers from its partner countries.

Our strict international sourcing ensures that all partners we introduce to you meet European standards for sustainable production and food safety, and offer a reliable and diverse range of produce. We focus on short and transparent supply chains with no intermediaries.

This year at FRUIT ATTRACTION 2024, we will introduce you to 28 evaluated suppliers from Brazil, Ecuador, Egypt, Ghana, Kenya, Morocco, Peru, Senegal, and Ukraine.

In addition, we are pleased to be able to present a Jordanian company at our stand, which is supported by our partner "Gesellschaft für internationale Zusammenarbeit".

Take advantage of IPD's quality-driven matchmaking service to find new sources of supply and expand your product portfolio.

Our contact brokering is neutral and free of charge!

Check out the high-quality fresh produce offer of our partners for yourself and visit us at

FRUIT ATTRACTION 2024 in Hall 4, BOOTH 4C27.

You cannot attend in person? No problem, IPD will be happy to arrange individual meetings with the producers for you: in person or virtually.

Get in touch with us!

On the following pages you can find detailed information about our suppliers. With IPD, you will discover new sources of fresh produce and forge valuable partnerships.

IPD is an initiative of the Federation of German Wholesale, Foreign Trade and Services (BGA) and sequa, the development organisation and partner of German business. IPD is funded by the Federal Ministry for Economic Cooperation and Development (BMZ) and part of the "Partners in Transformation – Business & Development Network", into which the BMZ programmes for economic actors are organised.

IPD partners

IPD works with a network of international organisations in Europe and its partner countries.

Thus, we efficiently pool information and know-how. This enables us to link existing import and export promotion measures and carry out their strategic further development. Our partnerships always make it possible for us to match all services of IPD to the needs of importers and exporters exactly and then carry out our services optimally at any place.

Cooperativa Agrícola Juazeiro

Hall 4 | booth 4C12

The Agricultural Cooperative Juazeiro da Bahia (CAJ) was founded in 1994 to join forces and promote the socio-economic development of its members. It is located in the São Francisco Valley, in the city of Juazeiro in the state of Bahia. It now has two branches, one in Juazeiro and another in Petrolina Pernambuco. The main crop is table grapes and the varieties for export are Timpson™ and BRS Vitória. In 2025, the variety Sugar Crisp™ will be introduced to their export portfolio.

CAJ has an infrastructure to support every stage of production. From technical assistance to comprehensive storage and cooling facilities, CAJ ensures the highest standards for its produce. With storage capacity of 140,000 boxes per day, CAJ efficiently manages the flow of production, reinforcing their commitment to excellence and sustainability in agriculture.

Ginger Schaeffer is a company that grows, processes, and exports conventional and organic ginger from Brazil. The company is based entirely in the Santa Leopoldina region of Espírito Santo, Brazil. The founder, Leomar Schaeffer, is a farmer who was born, raised, and currently lives with his family in the region.

The company has two packing houses, allowing all exported ginger products to be processed within their own processing plant. The company has been exporting since 2019, but Leomar has been working with ginger since 2005, initially selling locally to exporters.

Lina Frutas

Hall 4 | booth 4C12

Lina Frutas is a family-owned fruit producer located in the fertile lands of the São Francisco Valley in the Northeast of Brazil. This region, known for its unique combination of tropical sunshine and abundant water from the São Francisco River, provides an ideal environment for growing fruit.

Founded in 2018 by two brothers, Lina Frutas aims to become one of the prominent players in the Brazilian fruit industry. Sustainability, quality, and community are the core values of the company, which is now starting to export its mangoes directly to Europe. Sustainability is a cornerstone of Lina Frutas' operations. The company aims to set an example through the responsible use of natural resources and precision farming.

Agricola Industrial Zapotillo (Agrindzap)

Hall 4 | booth 4C27

Agricola Industrial Zapotillo, abbreviated as Agrindzap, is a family business dedicated to the production and export of table grapes and dragon fruit. It was founded in 2014 in the province of Loja, in the very south of Ecuador bordering Peru.

Agrindzap's production and packing facilities are located in Zapotillo at an altitude of 156 meters above sea level. With its arid soils and small hills, the region provides excellent conditions for grape production. Within their portfolio they have 5 different table grape varieties of which some are green, red, and black seedless grapes, as well as dragon fruit red flesh (Pitahaya). Their production and packing plant are GLOBALG.A.P. certified, and to ensure compliance on a social level, they also have GRASP.

Ecualexotics, founded in 2014, is the leading and most innovative pitahaya exporter from Ecuador. The company, apart from growing its own produce, works closely with more than 200 farmers; the management team strongly believes in social and economic inclusion from farmers located in rural areas.

The team at Ecualexotics is made up of 50+ employees who are responsible for one mission: providing the best exotic fruit. To comply with the mission there are different certifications by which Ecualexotics' quality standards are met: good agricultural practices, good manufacturing practices, and social & environmental compliances.

Falusán

Hall 4 | booth 4C27

Falusán is an agro-industrial family company founded in 2018 by two women who embarked on an agricultural journey to make use of the potential of their country and generate impact and visibility for women in agriculture in the province of El Oro. The company is a pioneer in exporting organic turmeric and the first in the country to specialize in turmeric production with a high level of curcumin as a bioactive component. Falusán is dedicated to boosting its internationalization through a sustainable management model, adding value, and managing initiatives that promote environmental preservation, gender equity, innovation, and the circular economy.

Falusán holds the distinction of being the first company specialized in turmeric production in the country to offset its emissions, thereby becoming a "Carbon Neutral" company. Additionally, it has obtained the highest number of certifications in recognition of its commitment to excellence and in the year 2024 the company is incorporating new crops, starting with the production of ginger.

IrubiTerra

Hall 4 | booth 4C27

In 2021 five women – 4 daughters and their mother – decided to found IrubiTerra to carry on their father and husband's legacy as a pioneer for avocado in Ecuador producing and exporting Hass avocados from the Ecuadorean Andes.

Today, IrubiTerra has their own technified production worked by experience agronomists. They control every step of the way from planting to harvest to ensure a supreme quality of their fruit. IrubiTerra were among the first to convince importers in the EU to buy avocados from Ecuador – with excellent results and enthusiastic feedback from their customers. By meticulously managing the entire value chain, they guarantee that every single shipment continues to exceed expectations.

IrubiTerra is GLOBALG.A.P. and GRASP certified ensuring implementation of good agricultural practices and a strong commitment to their workers and community through the creation of jobs, provision of health care, fair working conditions and to a positive social impact overall.

Social Deal

Hall 4 | booth 4C27

Social Deal is a grower and exporter of exotic fruits with a mission to promote sustainable agricultural development around exotic fruits in Ecuador. Established in 2017 by Nobis Holding de Inversiones, Social Deal has built an extensive network of more than 200 growers through partnership programs to ensure a year-round supply of a wide portfolio of fruits.

From production to its Rotterdam-based commercial office, Social Deal is highly invested in controlling quality throughout the supply chain, ensuring freshness and optimizing order lead times for its customers.

Social Deal collaborates with research institutions such as Wageningen University & Research and seed experts like Fall Creek as part of its commitment to providing the highest standards of quality.

Tiba Land

Hall 4 | booth 4C27

Tiba Land is an Egyptian company based in Qeft-Qena and was established in 2004. They are first time movers in the Egyptian market to produce and export melons. The company demonstrates constant innovation and adaptation in a fast-paced market.

The farm and pack house are located in Qena Governorate (800km South of Cairo) where they grow all of their fresh produce on privately owned premises. Tiba Land is located in southern Egypt, which makes it a prime location suitable for optimal growth due to dry weather, unpolluted atmospheres and untouched hectares.

They pride themselves on working closely with an exceptional team to guarantee top quality produce and are always seeking new opportunities to expand their services while maintaining a credible reputation.

TK & Danny for Land Reclamation and Cultivation

Hall 4 | booth 4C27

TK & Danny follows a full-scale business model of reclaiming, cultivating, growing, harvesting, trading, consulting, importing, and exporting food commodities. Their farm and packhouses are located in between Cairo and Alexandria directly on the main highway which is a prime location logistically to reach the main Egyptian shipping ports swiftly. TK & Danny grows, packs and partners with growers of fresh produce such as grapes, citrus, mangoes, bananas, peaches, apricots, dragon fruit, spring onions, strawberries, and plum. TK & Danny's Farm and packhouse are respectively GLOBALG.A.P. and BRC certified.

Their model is distinctive in that it includes the farm, packhouses, trading-house and logistic office which ensures all products are delivered with the highest quality and professionalism. TK & Danny wants to further increase its exports to Europe..

NAANfields Farm

Hall 4 | booth 4C27

Naanfields Farm Ltd. is an agribusiness entity that has been in business since 2012. It started as academic research field of Naanfields' founder Dr. Mark Tutu Sarpong focusing on pest and disease prevention. Afterwards the research findings were put into practice and adapted for commercial production. The farm is situated in the Central region of Ghana, Africa. The company complies with all food safety requirements in the production and handling of its products. It boasts a robust and effective traceability and food safety management system, which assures the buyer or the consumer of quality and the ability to address complaints with precision. Production is on an all-year-round basis.

Naanfields can consistently deliver the below mentioned quantities meeting retail market quality. Fruits are cultivated under the tropical climate, carefully monitored to assess maturity, and hand-picked at the precise time to meet the customer's preferences.

Products & quantities per year

- Pineapples (Sugarloaf) / 500 t
- Pineapples (Smooth Cayenne) / 250 t
- Pineapples (MD2) / 250 t
- Papayas (Solo) / 150 t

Founded in June 2006, Modern Karmel for Agricultural Technology thrives in agricultural innovation. Operating from its own farms, the company exports Jordanian vegetables, including tomatoes, cucumbers, and bell peppers, each meticulously measured for quality and freshness. The vegetables are grown in 145 greenhouses across five different farms, utilizing advanced farming techniques to ensure optimal yield and quality.

In addition, Modern Karmel delivers premium fresh dates. The company collaborates closely with the University of Jordan's Faculty of Agriculture, focusing on maintaining and enhancing date palms through innovative pre-harvesting and post-harvesting practices. This partnership also explores smart farming technologies aimed at sustainable agriculture. Modern Karmel is dedicated to ensuring the highest quality of exports in the market, setting a standard for excellence in agricultural technology, and showcasing a commitment to sustainable farming practices with global impact.

Products & quantities per year

Equator Avocados Kenya

Hall 4 | booth 4C27

Kenya

Equator Avocados Kenya Ltd is a Kenyan avocado farm located in Eldoret, North Rift region. It covers 150 acres at an elevation of 2,250 masl with approximately 14,000 trees at various stages of maturity. The farm primarily grows Hass avocados, with a few Fuerte avocado trees used as pollinators. Equator Avocados orchards are located in a medium to high rainfall area with good soil, resulting in high quality and consistent fruit production. The avocados are not only produced in a sustainable way, but they are also delicious.

The company is committed to being a sustainable business by consciously protecting the environment through good orchard management practices such as using water catchments to collect rainwater, enriching the soil with organic compost and farmyard manure, and using biological traps for pest control. The company also provides employment opportunities for the community that are gender balanced and fair trade compliant. Equator Avocados Kenya Ltd produces superior avocado fruits in both quality and quantity for its targeted export markets.

Goshen Farm

Hall 4 | booth 4C27

🌱 Product available in organic quality

Kenya

Goshen Farm Exporters is a Kenyan contractual grower, food processor and exporter. Established in 2010, the company has grown into a leading exporter, both organic and conventional fruits.

Goshen Farm Exporters focuses on an all inclusive sustainable business model where it contracts smallholder farmers to produce fruits in various geographical regions in Kenya. They are committed to build quality that lasts and this is achieved through rigorous extension services and support that is offered to its producers.

The company has also been able to get certifications that are a proof of their processes.

They strive to build long-lasting relationships because these are important for the company's future and the future of its producers.

EGA Agroindustrial

Hall 4 | booth 4C27

EGA Agroindustrial is a Peruvian company that grows, packs and exports fresh pomegranates. They are the first ever grower and exporter of this product in the Peruvian southern region of Tacna, close to the border with Chile.

They produce the Wonderful variety and have sent a total of 34 containers throughout their 3 campaigns in 2022, 2023 and 2024 to the EU, USA, Canada, Russia and Brazil. For the next campaign they will add oranges to their product catalog. Their project has a positive impact on several families in Tacna – a region with limited income opportunities for the local population – as well as on the overall development of the agroindustry in the Peruvian south.

The geography and climate of the Tacna region contribute to a unique red color of EGA Agroindustrial's pomegranates, which is more intense than the average fruit from Peru. 100% of their exports are packed in their own packing house, which started operations in March 2023. Close proximity to the Chilean port of Arica allows for easy logistics.

Jema Agropecuaria

Hall 4 | booth 4C27

Jema Agropecuaria, founded in 2012, is a company dedicated to the production of avocados for export, with the aim of having a positive impact on the agricultural sector. The company differentiates itself from its competitors by harvesting in the first months of the year (February-March), offering its products in a different sale window than most of the country's production.

Jema emphasises the promotion of transparency and traceability in all its operations, from farm to box, in order to meet current customer and market demands.

Jema constantly promotes its core values: integrity, socially responsible solutions, and a focus on the well-being of their employees.

Partners in
Transformation
Import Promotion Desk

2 - 6 December 2024

IPD Buying mission to Egypt

Meet reliable fresh produce growers on site.

The product range of Egyptian suppliers is diverse – from garlic and onions to citrus fruits, grapes, mangoes and sweet potatoes. When selecting our producers in Egypt, we focus on compliance with international standards, such as GLOBALG.A.P., organic, ISO standards, HACCP, IFS, BRC or Fairtrade. We also ensure transparent supply chains without middlemen.

See for yourself how the IPD-approved companies work to ensure consistently high product quality.

Your benefits at a glance:

- On-site visits to evaluated fresh produce suppliers in Egypt, accompanied by IPD sourcing experts
- First-hand information about the entire supply chain: from cultivation and production to logistics and export
- Exclusively arranged company visits and individual B2B meetings – tailored to your requirements
- The entire logistics in Egypt (transport to the companies and accommodation) is organised by IPD
