Sourcing for development

Discover the potential of natural ingredients from developing and emerging countries!

At this year's SIAL, **Import Promotion Desk (IPD)** – the German initiative for import promotion – and **Open Trade Gate Sweden (OTGS)** – part of the National Board of Trade Sweden, facilitating trade from developing countries to Sweden – are collaborating and will be present with a joint stand at **SIAL 2024** under the motto "Sourcing for development".

Together we connect German and European importers with selected suppliers of natural ingredients from developing and emerging countries.

Partners in
Transformation
Import Promotion Desk

At **SIAL 2024**, we are showcasing more than 50 innovative companies from **Bolivia, Burkina Faso, Cambodia, Colombia, Ecuador, Egypt, Ghana, Indonesia, Jordan, Moldova, Morocco, Sri Lanka, Tunisia, Tanzania, Ukraine, and Uzbekistan**, offering their diverse range of natural ingredients for foods, pharmaceuticals or cosmetics.

Our suppliers bring a wide variety of over 250 products to Paris.

Take a look at the product finder starting from page 10, which gives you an overview of the available products.

Take advantage of **SIAL 2024** and visit us in **HALL 3, BOOTH 36047** – there we will put you in direct contact with exporters that are of interest to you.

On the following pages you will also find detailed information about the **IPD** evaluated producers and the companies supported by **OTGS**.

Open Trade Gate Sweden (OTGS)

Meet Open Trade Gate Sweden and producers from Bolivia, Moldova and Ukraine at SIAL

A partnership to support food producers from Bolivia, Moldova and Ukraine

Open Trade Gate Sweden (OTGS) partners with the German Import Promotion Desk (IPD) to support food producers from developing countries.

We bring to Paris carefully selected companies from **Bolivia, Moldova, and Ukraine** that match the needs of the European market.

Several companies have long experience exporting to partners in the European Union as well as to other countries.

Check out the following pages to learn more about the OTGS' companies you can meet at SIAL.

Open Trade Gate Sweden

National Board of Trade
Drottninggatan 89, P.O. Box 6803

Phone: + 46 8 690 48 00

Open Trade Gate Sweden (OTGS) is a part of the National Board of Trade Sweden. OTGS facilitates trade from selected developing countries to Sweden and the European Union. OTGS partners with business support organisations in developing countries to offer training, coaching, study visits as well as participation at trade fairs and other business events.

Our current projects are in the food, textile and IT-sector and focus on countries in Eastern Europe, South America and Africa.

Import Promotion Desk (IPD)

Your partner for sustainable business contacts

If you are an importer looking for reliable exporters of natural ingredients and want to open up new supply sources, then Import Promotion Desk (IPD), the initiative for import promotion, will support you.

On your behalf, we undertake the international sourcing of reliable trade partners in selected partner countries.

We identify highly promising producers for you who are able to reliably meet the demand on the European market. We prepare the suppliers thoroughly for the EU market: considering factors such as product quality, exportability, export capacity, and compliance with international standards and certifications.

We introduce you to carefully evaluated companies at trade fairs in Europe or during virtual b2b events. Thanks to our preparation, you will meet business partners who know what is important to European importers.

At **SIAL 2024** we introduce you to reliable suppliers from **Burkina Faso, Cambodia, Colombia, Ecuador, Egypt, Ghana, Indonesia, Jordan, Morocco, Sri Lanka, Tanzania, Tunisia, Ukraine, and Uzbekistan.**

We establish direct contact to these new companies and organise b2b meetings for you. Our mediation is neutral, quality-conscious and free of charge.

Get in touch with us!

IPD is an initiative of the Federation of German Wholesale, Foreign Trade and Services (BGA) and sequa, the development organisation and partner of German business. IPD is funded by the Federal Ministry for Economic Cooperation and Development (BMZ) and part of the “Partners in Transformation – Business & Development Network”, into which the BMZ programmes for economic actors are organised.

Make an appointment

IPD partners

IPD works with a network of international organisations in Europe and its partner countries.

Thus we efficiently pool information and know-how. This enables us to link existing import and export promotion measures and carry out their strategic further development. Our partnerships always make it possible for us to match all services of IPD to the needs of importers and exporters exactly and then carry out our services optimally at any place.

Agroexport is a Bolivian company dedicated to the production and marketing of a variety of grains and seeds. They take pride of their commitment of sharing nutrition, quality, sustainability and reliability in the global agricultural market.

Based in Santa Cruz, Bolivia, the company operations are rooted in a partnership with over 4,000 small-scale farmers, to whom they provide extensive resources and technical support. This collaboration ensures not only sustainable farming practices but also the highest quality of produce. They design an annual production program to meet global market demands, enhancing our reliability and minimizing operational issues.

Products & quantities per year

Faso Global (AVLA)

Hall 3 | Booth G047

🌱 Product available in organic quality

Burkina Faso

Faso Global Import-Export (FGIE) is a Burkinabè company specializing in the processing of fruits and vegetables whose flagship product is mango. FGIE was created in 2017 with the aim of reducing mango rot and promoting the fruit and vegetable sector in Burkina Faso.

It is based in the province of Kénédougou, commune of Orodara located 75 km from Bobo Dioulasso and 432 km from Ouagadougou. The company plans to export over 100 tons of organic dried mango and 150 tons of cashew nuts in the coming years. This factory is HACCP, Fairtrade and Organic certified. Faso Global exports to Canada, the Netherlands and Tunisia.

Faso Global owns another association called "Association Vive L'Arboriculteur" (AVLA). AVLA monitors 600 hectares of orchards and 190 mango farmers for traceability purposes. To ensure the quality of all products, all its farmers are Organic, Fairtrade, GLOBALG.A.P., and Tesco certified.

Founded in 2003 by the women of the ABASF/E association in Ouagadougou, the Royal Nature brand specializes in producing high-quality dried fruits and vegetables. Their flagship product is organic dried mango, which they have been perfecting for 20 years. Royal Nature's extensive experience guarantees exceptional quality for their clients.

To meet growing demand and maintain their high standards, they continuously invest in their production facilities, ensuring increased capacity and consistent quality.

The association behind Royal Nature, ABASF/E established in 1995, is dedicated to empowering women and supporting children in need. Through Royal Nature, the association has helped hundreds of women achieve financial independence and become active contributors to Burkina Faso's socio-economic development.

Grupo Empresarial La Estrella (Frutone)

Hall 3 | Booth G047

Frutone transforms Colombian fruits into 100% natural purees and 100% fruits in aseptic packaging, to create a new product with a longer shelf life, up to 18 months without a cold chain.

Their juices/purees is the liquid product obtained by the mechanical crushing of fresh and healthy fruits. They have color, aroma, texture and flavor typical of the fresh fruit from which they are extracted. It is an innovative solution, which reduces times and movements, in turn operating costs. Frutone is liquid fruit, ready to be used in the preparation of any culinary dish, whether drinks (juices, cocktails, sodas and beers), fruits (sorbets, dairy), desserts, dressings, compotes, jams, etc. Frutone offers packages of 5kg, 20kg and 200kg.

From seeds to final products, ManaMana is a family agribusiness based at the heart of the Colombian Andes. As the company's mission statement, the objective of its new range of products is to deliver well-being to its customers in a variety of "supernatural" fruits. All the fruits are grown and processed by a very meticulous handmade technique that takes special care of their aspect and flavor, which are key factors in the final product quality.

ManaMana has a wide range of ready-to-eat fruit products that are used in the HORECA and B2C sectors. Their fruit chunks can be used as an ingredient for cocktails, bakery preparations, and ice cream preparations or can be consumed as a snack ready to be enjoyed at breakfast. Besides, ManaMana develops private labels for retail and food service companies too.

Novo Fruits

Hall 3 | Booth G047

With over 20 years of experience in the fresh produce industry, Novo Fruits is one of Egypt's leading agri-businesses, which provides the global markets with the best fresh products grown on its farms. Being deeply rooted in farming and processing, Novo Fruits produces best-in-class fresh and frozen fruits and vegetables.

Novo Fruits combines years of experience with new ideas to deliver a fresh approach to exporting produce. They believe the successful implementation of export programs is centered on understanding customer requirements.

As a grower, processor, and exporter, they have full control over the production process. This is how they can always guarantee quality, consistency, and safety.

Berkat Petani (Gulapa)

Hall 3 | Booth G047

Berkat Petani Indonesia (Gulapa) is a manufacturer of high-quality coconut sugar. The company name comes from their mission to be a blessing and increase the life standard of local farmers in Central Java by partnering up with them and giving back to society.

Coconut sugar is produced by collecting the sap from the flower bud of the coconut palm tree. Not only is it a healthier alternative, but it is also a more sustainable option, as coconut palms are a renewable resource that requires minimal inputs and can be grown in diverse agroforestry systems. In Indonesia, coconut sugar has been used for centuries as a traditional sweetener.

Gulapa's role is to support and maximize the local community by working together with Non-Governmental Organization as they strive to improve the prosperity of the local community.

Products & quantities per year

- Coconut sugar 🌱 / 240 t
- Ginger coconut sugar 🌱 / 60 t
- Arenga palm sugar 🌱 / 60 t
- Turmeric coconut sugar 🌱 / 60 t

Certifications

Frootiful Natural Nusantara

Hall 4 | Booth J146

Frootiful® was founded by a recently returned Indonesian expatriate woman with the goal of introducing healthy snacks to Indonesian culture. Since its establishment in 2019, Frootiful® has been committed to continuous innovation, aiming to create natural, healthy, and convenient products for busy consumers.

Frootiful® is Indonesia's first freeze-dried food manufacturer, producing 100% natural products without additives, preservatives, or additional sugars, and is gluten-free. The company sources the finest tropical fruits and vegetables directly from organically grown farms and smallholder local farmers across the archipelago to create the highest quality products.

Their commitment extends to helping reduce post-harvest spoilage and landfill, as well as educating smallholder farmers on more sustainable practices. Frootiful's central mission is to create wholesome, nutritious food that meets the food preferences and dietary needs of consumers leading active and healthy lives.

Educating consumers about making healthier and more sustainable choices is their primary objective.

Products & quantities per year

- Freeze dried fruits and vegetables (bananas, mangoes, pitahayas, strawberries or mixtures) / 24 t
- Freeze dried mushrooms / 9.6 t
- Freeze dried yoghurts / 15 t
- Freeze dried smoothies / 9.6 t

Gunung Hijau Maserang is a pioneering renewable energy company that harnesses geothermal power to process agro products. Their vision is to create a sustainable future through the preservation of nature and the empowerment of local people.

The company's flagship project in North Sulawesi utilizes geothermal energy to power its sugar processing factory and support the livelihoods of local farmers.

Gunung Hijau Maserang produces certified organic arenga sugar with a distinct caramel taste and a lower glycemic index compared to other sweeteners. The company has a strong commitment to sustainability that goes beyond operations, as they collaborate with local communities to promote sustainable agriculture, reforestation, and ecotourism.

Adnan Khudari & Sons promises the authentic taste of Jordan with premium spices and condiments, crafted from locally sourced ingredients for unmatched quality. They specialize in developing proprietary blends or flavors exclusive to Middle Eastern cuisine, such as a zaatar mix with rare herbs and spices. Founded in 1977, this family-owned food manufacturing and packaging company was the first to introduce spices in retail packages in Jordan, quickly becoming a market leader under the brand name "Blue Mill".

Their wide range of over 150 items includes spices, vinegar, rose and flower water, herbal teas, syrup concentrates, puddings, and pulses. With over 30 years of experience in exporting white label products to 45 countries worldwide, the USA is currently their top export market, contributing to 18 different brands in the country. The company offers support services such as aggregating container loads from multiple Jordanian suppliers, selling containers from Jordan and pallet loads from their Chicago warehouses, and assisting with clearance and approval processes, package, and label design.

Products & quantities per year

- Dried herbs (e.g. chamomile, sage, hibiscus, melissa) / 200 t
- Extra virgin olive oil / 30 t
- Sumac & Middle Eastern blends / 500 t
- Zaatars (herb and spice mix) / 500 t

Al Bandar Group (Habibah Sweets)

supported by GIZ – Hall 3 | Booth G047

Jordan

Habibah Sweets, a beloved Jordanian brand, began in 1951 when founder Al Hajj Mahmoud Habibah opened a small shop in downtown Amman. His passion for creating delectable sweets quickly captured locals' hearts, making the shop famous for its kunafa, baklava, and other traditional Arabic desserts. Habibah is credited with starting the tradition of Arabic sweets and kunafa in the Middle East.

Over the decades, Habibah Sweets has become synonymous with quality and tradition. The brand thrives, offering a wide range of treats for ethnic markets while preserving authentic recipes and craftsmanship. Their special production processes and Al Bandar premium raw materials from certified sustainable sources ensure high-quality, unique products. Their kunafa contains original nabulsi cheese, and their baklava features premium Syrian pistachios. Additionally, they offer lower sugar products for a less sweet and healthier option.

Today, Habibah Sweets remains a cherished part of Jordan's cultural heritage, delighting customers with every bite.

Products & quantities per year

- Kunafas (frozen) / 360 t
- Assorted baklavas / 360 t
- Assorted maamouls & barazek cookies / 280 t

Divont Chocolate Factory

supported by GIZ – Hall 3 | Booth G047

Divont Chocolate Factory offers an unparalleled range of 250 premium praline chocolate varieties with different fillings. Each piece is crafted with the highest quality Belgian couverture with ethically sourced cocoa beans from Africa. The cocoa content of the chocolate ranges from 39% to 65%. The company uses state-of-the-art chocolate-making machinery imported from Belgium to create these exceptional confections and offers customizable packaging options. To provide a unique Middle Eastern flavor, they incorporate the finest Jordanian ingredients, such as dates and pistachios.

Divont Chocolate Factory offers more than excellent chocolate pralines with unique Jordanian flavors. It is also an industrial project established in Wadi Musa, right beside the UNESCO World Heritage site of Petra. By creating job opportunities in a region with limited prospects, the company aims to empower young Jordanians and women, by developing their skills, energizing their potential, and fostering their leadership abilities.

Established in 1918, Neapolis Food Industries, under the esteemed brand Al-Aloul Foods, has upheld a legacy of crafting exceptional tahini products. Rooted in Jordan, a country with robust free trade agreements, the family-owned factory ensures every batch embodies heritage, quality and expertise.

Behind the premium offerings lies a team of dedicated “sesameliers” who meticulously transform fair-trade Humera sesame seeds into the silky-smooth tahini that defines their brand. The commitment to excellence spans generations, evolving with modern tastes while honoring traditional methods.

As importers seeking distinguished tahini products, partnering with Al-Aloul Foods not only connects you to a century-old heritage but also offers flexibility through private labeling. Discover why this tahini is more than just a pantry staple — it’s a testament to unparalleled craftsmanship and taste.

Products & quantities per year

- Tahini / 1,200 t
- Halva (plain, pistachio, chocolate) / 100 t

Certifications

- ISO 22000

Qabalan Bakery

supported by GIZ – Hall 3 | Booth G047

Qabalan Bakeries was established in 1995 as a family business with the mission to craft high-quality bread and delectable pastries, all at a reasonable price, ensuring that customers always get the best value for their money. The products have been diversified to include over 500 types of premium quality bread, pastries, desserts, cakes and various nutritional food products.

One of Jordanian and Palestinian homes' most famous Arabic sweets is the "bracelet mammal". This delight is a gateway to the world of Arabic sweets, offering a glimpse into the region's rich heritage of using spices and natural ingredients. Qabalan, a village in Nablus, Palestine, is renowned for the fennel and anise plants that grow along its roads. Inspired by this, Qabalan Bakeries has tweaked the traditional recipe of "Smediah" (bracelet maamoul) by adding semolina, fennel, and anise. The sweet date paste filling is wrapped in a mould of delicate baked anise and fennel-infused dough. New fillings include olive oil and pistachio or walnuts.

Products & quantities per year

- Smediahs and maamouls (cookies with date fillings) / 450 t
- Baklavas / 24 t
- Arabic cookies (e.g. barazeks, ghraybehs) / 150 t

OJSC Zavod konservov detskogo pitaniya is a private enterprise. The company is one of the largest factories for frozen and canned vegetables in Moldova. Modern high-quality equipment allows them to preserve all vitamins and minerals for the health of their consumers. Natural flavours and absence of preservatives make the products competitive, both in the local market and in European countries. OJSC is constantly developing by updating their equipment and introducing new products. The company goal is to provide environmentally friendly and natural products of high-quality.

Dar Tomoor is a family business inspired by long-lasting traditions. The farm base was established 14 years ago in the Ferkla region, near Errachidia in Morocco – a 23 hectares lot where the orchards of palm trees are now thriving. The company's mission is to make organic Mejhoul and Boufeggous dates accessible to all and to promote a healthy lifestyle by educating consumers on the benefits of dates.

Dar Tomoor dates are grown with care in order to deliver the highest-quality products. Dar Tomoor's commitment to the environment is crucial. Some of the actions taken are powering the land with solar energy to reduce carbon emissions, recycling organic farm waste as compost, and delivering zero phytosanitary products.

Dar Tomoor is currently operating in Morocco, which has been a great success. The next step is to enter the European market and supply Dar Tomoor's unique products internationally.

Products & quantities per year

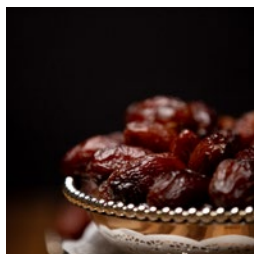

- Mejhoul dates 🌱 / 120 t
- Boufeggous dates 🌱 / 50 t

Heritage Agri (Hyrin Herbals)

Hall 3 | Booth G047

🌿 Product available in organic quality

Sri Lanka

Heritage Agri was established in 2014 by a passionate woman entrepreneur who decided to support farmers in the Northern Region of Sri Lanka. In the company's own moringa plantations, they have implemented a BRC-implimented production plant. Heritage's vision is to offer moringa products that are 100% traceable and have a high impact on the communities they work with.

Hyrin Herbals, a conscientious and responsible brand under the Heritage umbrella, is deeply committed to the herbal traits of moringa leaves. The brand's mission is to uncover and share the health and medicinal benefits of these leaves, which are nestled amidst the lush groves. Hyrin Herbals' passion for moringa leaves has led them to curate organically, ensuring the purity and potency of their products.

Products & quantities per year

SDS Spices

Hall 7 | Booth H249

Since 1931, SDS Spices has built its reputation within the food & spice industry and is one of the premier spice exporting companies in Sri Lanka. They grow, source and export conventional and organic spices unique to the isle of Sri Lanka.

Their extensive local knowledge has been built over decades of managing their own estates as well as working closely with small scale farmers around the country. They source their spices, not from factories, but from the most passionate & knowledgeable spice farmers (and foragers) in the country.

SDS recently launched their second state-of-the-art processing facility that offers steam sterilisation, spice blends and private labelled retail packs, including conventional and pyramid type spice tea bags and a nutraceutical line of cinnamon-based health supplements.

Products & quantities per year

AM Food Processing has been exporting walnuts from Ukraine for 15 years, and they have created a new brand called Slow Walnuts which aims to connect responsible consumers with the long and widespread traditions of Ukrainian walnut gathering.

Their walnuts are not perfect in their appearance, but they are truly sustainable because of the following characteristics:

- They are grown in a biodiverse environment (forests and home gardens).
- Only rainwater is used for irrigation.
- The production is based on the total absence of pesticides.
- They have a higher content of Omega 3 than cultivated walnuts.
- The exports are important for low-income people (mainly women) in rural areas.

Products & quantities per year

- Walnut kernels 🌱 / in total 3,000 t*

Certifications

- ORGANIC
- FSSC 22000 (in process)
- ISO 22000

Source of raw material

- Small-scale farmers
- Wild collection

* This product is also available as conventional product.

Armoprom-D

Hall 4 | Booth L106

Since its market entry in Ukraine in 2006, Armoprom-D has been offering high-quality and innovative ingredients for the global food industry. In Ukraine, the company was the pioneer in producing candied fruits, berries, and vegetables for use in various food industries.

With an in-house R&D center, Armoprom-D enables different food manufacturers to develop unique products and capture a growing market share. Today, consumers pay extra attention to the composition of the products they buy. The demand for healthy products has allowed Armoprom-D to expand its business and enter new markets, including sports nutrition, eco-products, and diabetic products.

Producing sugar-free products is a strategic and marketing decision that will yield significant benefits. The company offers a range of ingredients from its manufacturing facility to assist in the production of high-quality goods.

Sunny Land Products

Hall 3 | Booth F017

Sunny Land Products is a family business and founded in 2018 as manufacturer of freeze-dried products. All products are marketed under the trademark BonaF™. The factory of the company is located in Tashkent region, near to western side of Tian-Shan Mountains and is equipped with freezing chambers for shock freezing and for storage, freeze-drying and packing machinery. Almost 250 sunny days in Uzbekistan enable its suppliers to harvest the most delicious products which are used as a raw material in the production of freeze-dried fruits & vegetables as whole, sliced or diced, and powder.
