# Import Promotion Desk (IPD)

Your partner for sustainable business contacts

If you are an importer looking for **reliable suppliers of natural ingredients** and want to open up new supply sources, then Import Promotion Desk (IPD), the initiative for import promotion, will support you.

On your behalf, we undertake the international sourcing of reliable trade partners in selected partner countries.

We identify highly promising producers for you who are able to reliably meet the demand on the European market. We prepare the suppliers thoroughly for the EU market: considering factors such as product quality, exportability, export capacity, and compliance with international standards and certifications.

We introduce you to carefully evaluated companies at trade fairs in Europe or during virtual b2b events. Thanks to our preparation, you will meet business partners who know what is important to European importers.

At **Food ingredients Europe (FIE) 2024** we will be presenting 14 selected suppliers from Côte d'Ivoire, Ecuador, Egypt, Ghana, Kenya, Madagascar, Peru, Rwanda, Tunisia, and Ukraine.

We establish direct contact to these new companies and organise b2b meetings for you. Our mediation is **neutral, quality-conscious and free of charge**.

## Get in touch with us!

IPD is an initiative of the Federation of German Wholesale, Foreign Trade and Services (BGA) and sequa, the development organisation and partner of German business. IPD is funded by the Federal Ministry for Economic Cooperation and Development (BMZ) and part of the "Partners in Transformation – Business & Development Network", into which the BMZ programmes for economic actors are organised.

# IPD partners

IPD works with a network of international organisations in Europe and its partner countries.

Thus we efficiently pool information and know-how. This enables us to link existing import and export promotion measures and carry out their strategic further development. Our partnerships always make it possible for us to match all services of IPD to the needs of importers and exporters exactly and then carry out our services optimally at any place.

# Natafin

Hall 4.1 | Booth D81

Natafin, a division of Drickel & Co. based in Abidjan, Côte d'Ivoire, specialises in the export of natural raw ingredients from West Africa for the beverage, food, cosmetic and pharmaceutical industries. Natafin prides itself on strict processing, packaging and transport protocols to ensure highest quality products.

Notably, women make up 80% of the workforce in the villages where the ingredients are collected, underlining Natafin's commitment to empowering local communities. The company stands out for its reliable sourcing of authentic African ingredients, ethically harvested to support local communities.

## Products & quantities per year

- Annatto seeds / 66 t
- Thaumatococcus daniellii aril (frozen) / 35 t
- Kola nut (dried) / 35 t
- Desmodium / 26 t
- Griffonia / 26 t

## Source of raw material

# EcoDecisión

Hall 4.1 | Booth D81

EcoDecisión is a private enterprise, based out of Quito, Ecuador, dedicated to developing new ways to fund biodiversity conservation and sustainable rural livelihoods.

Under its Canopy Bridge® brand, the company works to connect producers of sustainable Amazonian food products with new markets and buyers. Since 2017, they have been building a value chain around macambo (*Theobroma bicolor*), or white cacao, a traditional native agroforestry crop.

Closely related to cacao, macambo is a delicious, nutrient-rich seed that can be consumed as a snack or as a nut alternative for chocolate making and other food formulations. In 2024, they are working with over 500 indigenous and rural women farmers to process macambo and other amazing food ingredients.

## Products & quantities per year

- Macambo (toasted) / 3 t
- Macambo (dried) / 3 t

# Apotec Bay Botanical Solutions

Hall 4.1 | Booth D81

🌿 Product available in organic quality

Egypt

Apotec Bay Botanical Solutions, part of the "Ottoman Group" with over 90 years of experience in the botanicals sector, has been growing organic herbs in Egypt and exporting them to global markets since 1965. Now in its fourth generation, the company operates the largest industrial supercritical CO<sub>2</sub> extraction plant in the MEA region. Using green chemistry, Apotec Bay uses carbon dioxide as a solvent for sensitive plant materials. The company processes approximately 900-1,000 tonnes of raw materials annually.

Apotec Bay is a trusted and reliable manufacturer of premium oleoresins, CO<sub>2</sub> extracts, powder extracts, natural flavours, natural colours, essential oils, herbs and spices. It supplies natural flavours, colours, aromas and active ingredients to major food and beverage, nutraceutical and pharmaceutical companies worldwide, customising products to meet customer specifications.

Grow It Green is a full spice solution export company with extensive experience in the production and processing of capsicum (chilis, paprika, habanero) ginger and turmeric. It also offers fresh Asian vegetables like okra, to clients in Europe.

The company has an equipped dehydration and processing facility ensuring most of the work is done in-house. Their production capacity stems from nucleus farms and more than 2,250 outgrowers located across four regions who undergo continuous training and sensitization to meet strict food safety, quality assurance and operating standards.

Now, Grow It Green is one of the largest exporter of dried capsicum in Ghana. During the peak season they employ around 250 workers for its operations, 80% of whom are women. They recently obtained their GLOBALG.A.P. certification for its farm and currently finalizing their Fairtrade and organic certification, both as a producer and for farmers in their outgrower scheme.

## Products & quantities per year

- Dried capsicum  
(birds eye chili, paprika) / 500 t
- Ginger (sliced/powdered) / 100 t
- Turmeric (sliced/powdered) / 100 t

## Certifications

- FAIRTRADE (in process)
- GLOBALG.A.P.
- ORGANIC (in process)

## Source of raw material

- Own cultivation in Ghana 140 ha
- Farmers from Ghana 1,400 ha

# Kenya Bixa

Hall 4.1 | Booth D81

Kenya

Kenya Bixa commenced operations in 1979. Initially designed to process 250 tons of Bixa seeds per year, the factory has since been upgraded to a processing capacity of 3,000 tons of per year.

Kenya Bixa processes annatto seeds into annatto based natural food colorants (norbin and bin) and its by-products. The company is experienced with direct exports worldwide (incl. Japan, Latin America, USA, Europe).

Kenya Bixa has its own annatto farm of about 1,500 acres and about 7,000–10,000 farmers supplying Bixa orellana seeds through a contract farming scheme as well as traders. The farmers are spread across the Kwale, Lamu and Kilifi counties along the Kenyan coast.

## Products & quantities per year

- Norbin powder / 50 t
- Bin powder / 50 t
- Annatto oil / 10 t

## Certifications

- ISO 22000
- ISO 9001
- HALAL
- KOSHER

Founded in 2016, Moringa Wave supports farmers and smallholders in Madagascar through the production, processing and marketing of Moringa oleifera.

The company chose to employ mainly young people and women to enhance the local economy. Moringa Wave's mission is to improve the nutritional situation and increase agricultural incomes in Madagascar through its collaboration with the local community and its commitment to the preservation of biodiversity and reforestation by planting moringa trees.

The company offers a range of food products based on organically grown Moringa oleifera as well as a range of cosmetic products made from pure and natural Moringa oleifera oil. Moringa oleifera has been widely used in traditional medicine, specifically in India. It is a great source of antioxidants and amino acids and a food supplement rich in nutrients, mainly protein.

Established in 2001, Peruvian Nature is a leading Peruvian company dedicated to producing and marketing high-quality dehydrated ingredients. These superior ingredients serve as essential raw materials for various sectors, including food production, manufacturing industries, and direct consumer use. Globally, these ingredients (powder, extracts, dried) are utilized in nutritional supplements, bakery products, infusions, pet food, tablets, and more. They apply OSS technology, an organic sterilization system, which reduces the bacterial load through a 100% natural process using steam and vacuum. This technique is adapted to each product type, ensuring the highest quality and safety standards required by global markets such as the USA, Europe, and Asia. Their products are vegan, non-GMO, and allergen-free, meeting the growing demand for health-conscious and environmentally friendly options. Peruvian Nature's commitment to excellence keeps the company at the forefront of the industry, setting new benchmarks for quality and innovation.

## Products & quantities per year

Kinazi Cassava Plant Ltd., established in 2012, is a leading cassava processing facility in East Africa. Sourcing from over 2,000 farmers across Rwanda, the company produces up to 30 tons of cassava flour daily. KCP Ltd. is certified by the Rwanda FDA for Good Manufacturing Practices and holds the RS EAS 740:2010 (S-Mark) certification from the Rwanda Standard Board, reflecting its commitment to high-quality manufacturing practices and adherence to national standards. The company prioritizes meeting international food safety standards and is registered with the USFDA, enabling it to export approximately 70% of its products to the USA, Europe, Canada, and Australia.

KCP Ltd. offers two main products: fine cassava flour, a fermented variety with over 90% of the particles passing through a 250-micron sieve, and high-quality cassava flour, a non-fermented product where 95% of the particles pass through a 250-micron sieve, making it ideal for use in the baking industry.

# Rwanda Nut Company

supported by GIZ | Hall 4.1 | Booth D81

Rwanda

Rwanda Nut Company Ltd., established in 2012, produces, processes, and exports premium macadamia nuts. The company partners with local farmers to elevate macadamia as Rwanda's third major export, following coffee and tea. Known as the "Land of a Thousand Hills," Rwanda's fertile tropical highlands produce macadamia nuts with a rich, creamy flavor.

These nuts are grown sustainably using traditional methods and are harvested only when fully ripe, ensuring a sweet, crisp texture. For over a decade, the company has primarily exported to the U.S. (US FDA registered) and Japan. Employing 250 people, Rwanda Nut Company Ltd. is committed to improving local livelihoods.

## Products & quantities per year

Actifs Précieux produces premium food and health ingredients made exclusively from botanicals for application in the functional nutrition, wellness, and cosmetics sectors. The company is in Africa a pioneer in supercritical fluid green technology (SFE) applying high pressure and low temperature processes for extraction.

Actifs Précieux offers pure functional nutritional extracts, active health ingredients and tailor-made solutions from lab to industrial scale. It delivers not only functional properties but also flavours. The extracts are 100% free of known or suspected toxins and are highly effective giving maximum functionality at the lowest dosage level. The company is committed to sustainable business practices advocating for ethical ingredient sourcing and environment friendly processes that are traceable and compliant with certified organic production guidelines.

# Natur Svit

Hall 4.1 | Booth D81

Natur Svit is an Ukrainian company, which was founded in 2008 to promote authentic Ukrainian spices and herbs worldwide. Their unique and profound expertise in the production of high-quality sustainable spices and herbs combined with their long-term relationships with Ukrainian farmers creates outstanding possibilities for clients in the food processing industry.

The Ukraine-grown spices come from fertile fields straight to the modern facilities equipped with new cleaning lines, mills, a color sorting and steam sterilising machine. In addition to spices in different quality grades, Natur Svit also offers powders and essential oils made from these spices. The experienced production team can make any product adjustment to meet any client requirement.
