Import Promotion Desk (IPD)

Your link to reliable fresh produce suppliers

For more than 10 years, IPD has been sourcing internationally for European importers, supporting them in their search for fresh produce suppliers in selected partner countries and opening up new procurement sources for them.

All the companies we present to you at Fruit Logistica have gone through a complex screening process. We carefully prepare all our companies for the European market and ensure that they meet all the requirements of the most important European standards for sustainable production and high food safety.

We focus on short and transparent supply chains without intermediaries.

We also advise producers in our partner countries on certifications such as GLOBALG.A.P., EU organic and other relevant standards (Fairtrade, Rainforest Alliance, etc.).

More than 40 evaluated suppliers from 12 partner countries

At FRUIT LOGISTICA 2025, we will introduce you to 42 fresh produce producers from our partner countries Brazil, Colombia, Ecuador, Egypt, Ghana, Kenya, Morocco, Peru, Senegal, and Ukraine. In addition, we are pleased to be able to present companies from Jordan and Rwanda at our stand, which are supported by our partner "Gesellschaft für internationale Zusammenarbeit".

New in 2025: Alumni companies with many years of export experience

For the first time, we will also be presenting companies from our alumni programme at Fruit Logistica. These suppliers have successfully completed the IPD programme and are fully export-ready. They impress with a diversified portfolio and excellent export know-how.

Our contact brokering is neutral and free of charge!

Check out the high-quality fresh produce offer of our partners for yourself and visit us at **FRUIT LOGISTICA 2025** in **Hall 25 C03**.

Are you unable to attend? No problem! We are happy to arrange individual meetings with our producers – flexible and convenient. On the following pages you can find detailed information about the IPD companies and their offer.

Get in touch with us!

IPD is an initiative of the Federation of German Wholesale, Foreign Trade and Services (BGA) and sequa, the development organisation and partner of German business. IPD is funded by the Federal Ministry for Economic Cooperation and Development (BMZ) and part of the "Partners in Transformation – Business & Development Network", into which the BMZ programmes for economic actors are organised.

IPD partners

IPD works with a network of international organisations in Europe and its partner countries.

Thus, we efficiently pool information and know-how. This enables us to link existing import and export promotion measures and carry out their strategic further development. Our partnerships always make it possible for us to match all services of IPD to the needs of importers and exporters exactly and then carry out our services optimally at any place.

SBG Brazil

Halle 25 | C03

SBG Brazil produces premium ginger by leveraging Brazil's ideal growing conditions. The ginger is handpicked, meticulously washed, and carefully selected for exceptional taste and freshness. Through advanced packaging, SBG Brazil ensures optimal conditions during transit, delivering fresh ginger globally.

With a steadfast commitment to sustainable farming practices, SBG Brazil supports local communities and upholds ethical production standards. With 20 years of experience in ginger cultivation and a collaboration with 50 partner farms – representing 50 families – the company has established a total production area of approximately 5 hectares. Located in the heart of Brazil's ginger capital, Santa Leopoldina, these farms produce ginger that combines tradition with innovation.

The UK-based sales office enables close customer relationships and facilitates meetings, enhancing SBG Brazil's global reach and service.

Colombian Berries Association

Halle 25 | C03

Colombia

The Colombian Berries Association, composed of 30 Colombian families, produces blueberries using tropical, eco-friendly farming methods that respect nature. Their "Blueberries with a Colombian Flavour" are crafted for individuals who value nature and seek healthy, exclusive, and high-quality products.

By enjoying "Blueberries with a Colombian Flavour," customers not only savor a fruit with an exquisite taste but also contribute to the preservation of Colombia's wildlife. One percent of the company's profits are donated to foundations dedicated to rescuing Colombian animals threatened by extinction or affected by illegal trade.

Colombian Fruit Group

Halle 25 | C03

Product available in organic quality

Colombia

Colombian Fruit Group (CFG) is an organic enterprise that has been growing and exporting organic produce since 2016. CFG firmly believes in the importance of fair and ethical agricultural practices, ensuring the harmony of the ecosystems where their fruit is cultivated. Additionally, the company empowers fruit growers to achieve international certifications. With their assistance and guidance, CFG ensures a wide variety of excellent, organic certified fruit. The company's objectives are 1) to expand growers' fruit production capacity, improving their quality of life by providing technology and tools to help them to do what they love in a more sustainable way, and 2) to enable customers to enjoy all year long a selection of new and exotic fruits by continuously increasing production and adding new varieties with the required certification. CFG is committed to collaborating with companies that share their dedication to environmental sustainability.

Merlet

Halle 25 | C03

Merlet SAS is the result of the union of three family businesses dedicated to the production, processing, and export of citrus fruits from the Los Llanos region in eastern Colombia. Merlet produces Tahiti limes year-round, with production peaks in June, July, and August, when demand in Europe is highest. Both their crops and packing facility are GLOBALG.A.P. certified. Additionally, they have carried out GRASP, highlighting Merlet's commitment to social sustainability and their belief that employees are the foundation of the company.

Driven by passion and dedication, Merlet brings the best of Colombian citrus to the world. Their experience and values ensure the highest quality in every fruit.

Terra Trading is supported by Central del Campo, a company specializing in agricultural production. Terra Trading's packing house, Packing Parnaso, enables them to guarantee traceability and ensure a reliable fruit supply. This allows them to provide a transparent and personalized business relationship, delivering oranges, limes, and avocados with the size, color, flavor, and food safety standards required.

Colombia, with its privileged weather and fertile land, is an ideal location for cultivating Terra Trading's products. With over 10 years of experience in the international fresh produce market, Terra Trading is committed to maintaining traceability for their products at every step of the supply chain.

Agricola Karlita

Halle 25 | C03

Ecuador

At Agricola Karlita, pineapples benefit from natural microorganisms that enhance their shelf life while preserving a delightful and refreshing flavor. The company is dedicated to improving consumer well-being and has successfully conducted trials to replace fungicides with beneficial microorganisms.

Agricola Karlita supplies two containers of pineapples per week in calibers 5, 6, 7, and 8, with larger quantities available for calibers 5, 6, and 7. FOB options are offered for both maritime and air shipments. The company's certifications demonstrate its compliance with rigorous standards in agriculture, environmental practices, human resources, and safety processes. With extensive experience supplying major supermarkets in Chile and Ecuador, Agricola Karlita has proven its ability to meet regional market demands while remaining well-positioned to expand into European export markets.

Ecuador Fruit Company

Halle 25 | C03

Based in the province of Guayas, Ecuador Fruit Company grows and exports fresh tropical fruit worldwide. Their core fruits are: mangoes, dragon fruits, bananas. The company is specialized in the production of organic as well as conventional products.

Ecuador Fruit Company's mission is to provide consumers with the highest quality of tropical fruits while contributing a positive impact in the communities they operate. They operate according to global standards, with certifications required for almost all markets.

In addition, Ecuador Fruit Company has a unique logistical capacity, due to its proximity to the port of Guayaquil and the international airport. This advantage gives them a full flexibility to quickly reach any global market.

El Dragon Farm is a family-owned business specializing in producing dragon fruit in Ecuador, and they've recently expanded their focus to organic farming. They are committed to being more than just organic farmers; the company cultivates 15 hectares using regenerative agriculture which is central to their mission. They aim to prioritize soil health and ecosystem restoration.

Their approach not only yields quality fruit but also contributes to environmental sustainability. They believe in products that not only meet consumer needs but also address broader challenges, ensuring that every purchase makes a positive impact on the planet's future.

Falusán

Halle 25 | C03

Falusán is an agro-industrial family company founded in 2018 by two women who embarked on an agricultural journey to make use of the potential of their country and generate impact and visibility for women in agriculture in the province of El Oro. The company is a pioneer in exporting organic turmeric and the first in the country to specialize in turmeric production with a high level of curcumin as a bioactive component. Falusán is dedicated to boosting its internationalization through a sustainable management model, adding value, and managing initiatives that promote environmental preservation, gender equity, innovation, and the circular economy.

Falusán holds the distinction of being the first company specialized in turmeric production in the country to offset its emissions, thereby becoming a “Carbon Neutral” company. Additionally, it has obtained the highest number of certifications in recognition of its commitment to excellence and in the year 2024 the company is incorporating new crops, starting with the production of ginger.

Halle 25 | C03

🌱 Product available in organic quality

Ghana

Bomarts Farms Ltd. was founded in 1985 in Ghana and began as a producer and exporter of fresh fruits to Europe, first pineapples and then mangoes.

In 2011, Bomarts went into value addition with a state-of-the-art dry processing unit and is currently processing mangoes, pineapples, bananas, coconuts, and papayas.

The company manages 1,433 hectares across four farms, all professionally operated and equipped with packhouses to ensure efficient production and export processes. It collaborates with over 500 smallholder farmers from four cooperatives, fostering sustainable agricultural partnerships. In 2023, the company expanded its operations by establishing a 1,000-acre plantation in Saru, located in Ghana's Savannah Region. With a robust export network, it serves markets in the Middle East, Europe, and Africa via sea and air.

Bomarts provides products with a unique taste and quality handled by a competent team and assures reliability of supply by own farms and a high number of trained outgrowers..

Naanfields Farm

Available for online meetings only

Naanfields Farm Ltd. is an agribusiness entity that has been in business since 2012. It started as academic research field of Naanfields' founder Dr. Mark Tutu Sarpong focusing on pest and disease prevention. Afterwards the research findings were put into practice and adapted for commercial production. The farm is situated in the Central region of Ghana, Africa. The company complies with all food safety requirements in the production and handling of its products. It boasts a robust and effective traceability and food safety management system, which assures the buyer or the consumer of quality and the ability to address complaints with precision. Production is on an all-year-round basis.

Naanfields can consistently deliver the below mentioned quantities meeting retail market quality. Fruits are cultivated under the tropical climate, carefully monitored to assess maturity, and hand-picked at the precise time to meet the customer's preferences.

SGA Farms

supported by GIZ
Halle 25 | C03

SGA Farms Ltd. is a Ghanaian family-owned business that has been primarily producing fresh papaya, coconuts, pineapples, & sweet potatoes since 2018. SGA stands for Sheila Akosua Gyesi who is the matriarch of the Gyesi family. Her passion for preparing meals for friends and family was often hampered by her inability to acquire healthy food ingredients. Determined to honor their mother's commitment to quality and nourishment, her adult children made the life-changing decision to return to Ghana and establish a certified farm in her namesake. Today, SGA Farms stands as a testament to Sheila's legacy, providing families around the world with the fresh, nutritious produce she always dreamed of.

SGA Farms sets itself apart with its "4 Point Pledge," which emphasizes exceptional product selection, quality, sustainability, and taste, ensuring customers receive top-quality produce. Located on a fully-owned 125-hectare farm in Ghana's Eastern Region, SGA Farms cultivates a variety of crops, remaining dedicated to high standards and eco-friendly farming practices.

Domangad

Halle 25 | C03

Domangad specializes in growing packaging and export of red fruits, particularly raspberries, blackberries, and blueberries. The company plays a significant role in Morocco's rapidly growing red fruit sector, which has experienced considerable expansion in production and export capacity in recent years. The area dedicated to red fruit cultivation in Morocco has grown substantially, establishing the country as a key player in the global market for these products.

Domangad's services include sorting, packing, and quality control to ensure that the fruits meet international standards before export. The company is committed to maintaining high quality throughout the complete production process, which is essential to meet the rigorous demands of foreign markets, particularly in Europe, where a large percentage of Moroccan red fruits are sold.

Agronegocios Pina

Halle 25 | C03

Agronegocios Pina is a family farm with more than 70 years experience in the fruit business, cultivating their own mango and avocado plantations close to the town of Moro, Peru. Agronegocios Pina has now decided to expand the business seeking strategic allies to supply their high-quality fruit directly from farm to customers in international markets.

To meet the nutritional and water requirements of avocado plants and at the same time preserve local natural resources, they have technified the irrigation systems and build their own organic lab of fertilizers made with in-house raw materials. The climate of the valley, allowed them to develop, over time, a unique pruning process for mango, postponing the harvest until April, being the last to harvest in the Peruvian mango campaign. Furthermore, Agronegocios Pina maintains a close relationship with the surrounding community and provides income opportunities for local families.

Products & quantities per year

- Avocados (Hass) / 200 t
- Mangoes / 150 t

ITC

ITC began as a fruit trading company dedicated to offering top-quality products and services. By managing their production sites, ITC ensures adherence to food safety standards. In 2019, they ventured into organic vegetables with sweet potatoes, leading to their first organic harvest of green beans, sugar snaps, and spring onions in 2020.

Their 2021 expansion featured pumpkins, strawberries, onions, garlic, and nearly 3,000 tons of sweet potatoes. ITC's expertise led to launching a dedicated company focused on sweet potatoes, allowing them to deliver top-quality produce across diverse specifications.

Kwafre Farms

Kwafre Farms is a privately owned farm in Ghana, West Africa with focus on the production of high-quality, tasty, sun-ripe mango fruits. They have highly qualified agronomists and other skilled staff focused on producing fruits safely and responsibly. Their 400 acres mango farm is GLOBALG.A.P.-certified and they produce 700 tons annually with Keit and Kent as main varieties. Harvesting period is from May – August each year with fruit sizes between “count 6 to count 10” in a pack with average weight being 400-700g.

The company currently sells some fruits to 2 European-owned processors (Blue Skies and HPW) based in Ghana who sell the processed fruits to Europe. However, Kwafre plans exporting fresh fruits directly to EU. Kwafre Farms performs measures to support the environment and biodiversity, e.g. by adding and managing teak and acacia tree plantations on the farm site.

Agroexportadora Don Eloy is a Peruvian family owned company, established in 2019 as a result of vertically integrating the foreign trade operations of the Don Eloy Group. The company has 40 years of experience in agricultural production and packaging in its estate. Agroexdel fulfills Don Eloy's family dream of bringing the best fruits from the dry tropics of Peru to every home in the world.

Don Eloy ensures food safety, control and supervision of the different stages of the production process and provides the client with premium quality products at a fair price. The company strives to achieve the best results and service through the responsible management of human resources and nature. Don Eloy is committed to the satisfaction of their customers and the safety of their goods – this is reinforced by having a logistics operator as a strategical partner. Currently, Don Eloy supplies its products to the United States, The Netherlands, Germany, Sweden and Panama.
