Sourcing for development

Discover the potential of natural ingredients from developing and emerging countries!

At this year's Anuga, **Import Promotion Desk (IPD)** – the German initiative for import promotion – and **Open Trade Gate Sweden (OTGS)** – part of the National Board of Trade Sweden – are collaborating and will be present with a joint stand at **Anuga 2025** under the motto "Sourcing for development".

Together we connect German and European importers with selected suppliers of natural ingredients from developing and emerging countries.

At **Anuga 2025**, we are showcasing more than 50 innovative companies from **Armenia, Bolivia, Burkina Faso, Cambodia, Colombia, Ecuador, Egypt, Ghana, Indonesia, Jordan, Moldova, Morocco, Sri Lanka, Tunisia, Tanzania, Ukraine, and Uzbekistan**, offering their diverse range of natural ingredients for foods, pharmaceuticals or cosmetics.

Our suppliers bring a wide variety of over 250 products to Cologne.

Take a look at the product finder starting from page 10, which gives you an overview of the available products.

Take advantage of **Anuga 2025** and visit us in **hall 4.1, booth C91g** – there we will put you in direct contact with exporters that are of interest to you.

On the following pages you will also find detailed information about the **IPD** evaluated producers and the companies supported by **OTGS**.

Open Trade Gate Sweden (OTGS)

Meet Open Trade Gate Sweden and producers from
Armenia, Bolivia, Colombia, Guatemala, Moldova, and Ukraine at Anuga 2025

Open Trade Gate Sweden (OTGS) partners with the German Import Promotion Desk (IPD) to support food producers from developing countries.

We bring to Cologne carefully selected companies from **Armenia, Bolivia, Colombia, Guatemala, Moldova, and Ukraine** that match the needs of the European market. Several companies have long experience exporting to partners in the European Union as well as to other countries.

Open Trade Gate Sweden

National Board of Trade
Fleminggatan 14,

Phone: + 46 8 690 48 00

Open Trade Gate Sweden (OTGS) is a part of the National Board of Trade Sweden. OTGS facilitates trade from selected developing countries to Sweden and the European Union. OTGS partners with business support organisations in developing countries to offer training, coaching, study visits as well as participation at trade fairs and other business events.

Our current projects are in the food, textile and IT-sector and focus on countries in Eastern Europe, South America and Africa.

Import Promotion Desk (IPD)

Your partner for sustainable business contacts

If you are an importer looking for reliable exporters of natural ingredients and want to open up new supply sources, then Import Promotion Desk (IPD), the initiative for import promotion, will support you.

On your behalf, we undertake the international sourcing of reliable trade partners in selected partner countries.

We identify highly promising producers for you who are able to reliably meet the demand on the European market. We prepare the suppliers thoroughly for the EU market: considering factors such as product quality, exportability, export capacity, and compliance with international standards and certifications.

We introduce you to carefully evaluated companies at trade fairs in Europe or during virtual b2b events. Thanks to our preparation, you will meet business partners who know what is important to European importers.

Import Promotion Desk (IPD)

Project Office Bonn
c/o sequa GmbH
Alexanderstraße 10
53111 Bonn, Germany

At **Anuga 2025** we introduce you to reliable suppliers from **Cambodia, Colombia, Côte d'Ivoire, Ecuador, Egypt, Ethiopia, Ghana, Indonesia, Morocco, Peru, Senegal, South Africa, Sri Lanka, Tanzania, Ukraine, and Uzbekistan.**

We establish direct contact to these new companies and organise b2b meetings for you. Our mediation is neutral, quality-conscious and free of charge.

Get in touch with us!

IPD is an initiative of the Federation of German Wholesale, Foreign Trade and Services (BGA) and sequa, the development organisation and partner of German business. IPD is funded by the Federal Ministry for Economic Cooperation and Development (BMZ) and part of the "Partners in Transformation – Business & Development Network", into which the BMZ programmes for economic actors are organised.

Make an appointment

IPD partners

IPD works with a network of international organisations in Europe and its partner countries.

Thus we efficiently pool information and know-how. This enables us to link existing import and export promotion measures and carry out their strategic further development. Our partnerships always make it possible for us to match all services of IPD to the needs of importers and exporters exactly and then carry out our services optimally at any place.

Aregi is one of Armenia's leading producers of dried fruits and healthy snacks. Located in the sun-rich Aragatsotn region, Aregi uses innovative, energy-efficient dryers and traditional sun-drying methods to preserve the natural flavour of fruits and vegetables.

With a strong commitment to zero carbon emissions and zero food waste, Aregi combines ancient Armenian traditions with modern sustainability.

Their products are unique and sugar-free. They offer a wide range of items: dried fruits, vegetable chips, soups, power bars and more.

Aregi stands out for its variety, natural ingredients and dedication to health – offering consumers a flavourful and responsible choice for snacking. Aregi truly means “sunny” in every way.

Amazonas has over 30 years of experience in collecting, producing, and exporting Brazil nuts. Their products reach customers on all five continents and meet high quality and food safety standards.

This superfood is organic and sustainable. Brazil nuts are naturally rich in selenium, protein, healthy fats, and essential minerals. They are committed to protecting the environment and they engage in initiatives such as carbon footprint reduction, reforestation, and transitioning to biomass energy. When customers choose Brazil nuts, they help support a sustainable business model that contributes to the preservation of the Amazon rainforest.

Products & quantities per year

- Brazil nuts 🌱 / 2,700 t

The number of containers per year ranges from 140 to 180, depending on the size of the crop. This is because the Brazil nut is being harvested in the wild.

Handcrafted Cashew Nuts Stung Treng

Hall 4.1 | booth D94g

Cambodia

Handcrafted Cashew Nuts Stung Treng (HCST) is a women-founded social enterprise established in 2021 in Cambodia's Stung Treng province, focused on inclusive, forest-friendly growth. HCST promotes a deforestation-free, chemical-free cashew value chain by partnering with local farmers, including Indigenous communities, offering training on pruning, pest control, harvesting, and contract farming for sustainable practices and fair pricing. Its solar-powered facility reduces CO₂ emissions and follows eco-conscious standards.

HCST offers premium snacks – tom yum, milk-cream, spicy, cinnamon, Kampot pepper, light-salted, and unsalted cashews – crafted with care for people and the planet. Choosing HCST means supporting a responsible brand that empowers communities, protects forests, and delivers delicious, high-quality cashews.

Hesed Agriculture Trading

Hall 4.1 | booth D94g

Hesed is a Cambodia based company committed to ethical and sustainable agriculture. Working directly with smallholder farmers, they produce palmyra blossom sugar – a naturally harvested sweetener from wild palmyra palm trees (*Borassus flabellifer*), Cambodia's national tree.

Certified with EU Protected Geographical Indication (PGI), this minimally processed slow food retains nutrients and delivers a light caramel sweetness with subtle umami – free from bitterness or additives.

As a WFTO member, Hesed ensures full traceability, ethical sourcing, and fair pricing. Its model supports biodiversity, women's participation, and rural livelihoods, fostering long-term community development and environmental stewardship.

Cacao Básico

Hall 4.1 | booth C91g

Chuculat produces high-quality chocolate made with cacao from different Colombian regions.

They are a spin-off of a long standing (more than 18 years) company working in agriculture and rural development. Their motto is to help small producers do business, improving their living conditions through sustainability.

The companies commitment to traceability guarantees that every step, from cultivation to production, is transparent and accountable. By ensuring the origins of their cacao and promoting zero-deforestation practices, they guarantee not just exquisite taste but also ethical sourcing. Their connection to the origins, flavours, ecosystems, and communities is more than a story – it's a way of living and enjoying.

Products & quantities per year

- Chocolate bars

Morumbí Cacao is a family-owned single estate plantation producing premium cacao using agroforestry and regenerative agriculture. Located in the Ariari river valley, Meta, Colombia—once the epicenter of civil conflict—this region now thrives through cacao and the 2016 peace agreement.

Established in 2019, the farm has 50 hectares of fine flavor Criollo and Trinitario cacao trees. Another 100 hectares remain as protected native forest under environmental conservation policy. Post-harvest is done on-site: beans are fermented in wooden boxes with controlled pH and temperature, then naturally dried. The process is expert-validated to enhance flavor and aroma.

Morumbí Cacao supplies single origin beans to chocolatiers and the chocolate industry, mainly in Canada and Germany.

Products & quantities per year

- Cacao beans / 50 t
- Cacao nibs / 30 t

- Own cultivation/fields

Kymuba (by Ocati)

Hall 4.1 | booth C91g

Kymuba is a brand specializing in premium passion fruit ingredients and snacks, belonging to Ocati, one of the largest growers and exporters of this exotic fruit. Leveraging advanced processing techniques – like air-drying, freeze-drying, and spray-drying, Kymuba transforms Ocati's high-quality passion fruit into versatile ingredients and snacks tailored to the diverse needs of the food and gastronomy industries.

The product range includes crunchy pieces, chewy cubes, crispy flakes, freeze-dried crystals, air-dried powders, and more, all designed to deliver a truly unique and elevated passion fruit experience. Mostly 100%, products have no additives and are rich in fiber and antioxidants. With year-round availability, full traceability from field to finished product, and stock held in the Netherlands, Kymuba supports flexible, small-scale distribution across Europe.

2Saisons

Hall 4.1 | booth C91g

Since 2022, 2Saisons is an agro-processing company in Bazré (Marahoué region), Côte d'Ivoire, transforming seasonal tropical fruits – Kent and Brooks mangoes, MD2 and Sugar-Loaf pineapples, ginger, and more – into 100% natural, preservative-free, dried products and snacks. Respecting HACCP standards, the company guarantees high food-safety and quality levels.

2Saisons exports bulk dried fruits and dried mangoes packed in 100g or 2,5KG sachets to Europe and innovates with value-added items like rum-infused dried fruits and chocolate-coated mangoes.

Driven by a gender-inclusive mission, the company empowers female employment and runs its production within a conserved 7-hectare forest using eco-concrete. In addition to cooperatives and farmers, the company sources parts of its supply through exporting companies.

Founded in 2023 in Grand-Bassam, Côte d'Ivoire, GFA is an innovative agro-industrial company specialized in processing and freezing fresh fruits and vegetables. Their mission is to deliver high-quality frozen products that meet strict food safety standards while respecting the environment. To support this commitment, they recently got certified in the FSSC Development Program Level 2. The program version provides a two-level approach to support SMEs in producing safe food. It is aligned with CODEX HACCP, GFSI Global Markets, and fits into the FSSC 22000 structure.

GFA has his local distribution and export, with strategic partnerships including Auchan Côte d'Ivoire, KFC Côte d'Ivoire, and Traiteur TBC and is also looking for export to Europe. Looking ahead, GFA aims to develop an integrated agro-industrial complex to secure raw material supply and increase production capacity.

True Farms is a leading supplier of high-quality natural and organic superfood ingredients from Ghana. The company works directly with 5,000 small farming families to cultivate 3 million trees, transforming hundreds of acres of deforested land into flourishing, regenerative, organic, solar-powered farms.

True Farms specialises in herbs, spices, and botanical oils, including moringa, chili pepper, hibiscus, ginger, and lemongrass.

The company prioritizes the employment of women, increasing incomes by up to 10 times and providing essential support such as childcare, scholarships, organic seeds, and fertilizer. Through its Village Savings & Loan program, True Farms' farmers have generated over \$1.1 million in community wealth.

Berkat Petani Indonesia (Gulapa) produces high-quality coconut sugar while supporting smallholder farmers in Central Java. The name "Gulapa" reflects the company's mission: to be a blessing and improve farmers' livelihoods by building strong partnerships and giving back to society. Coconut sugar is made by collecting the sap of coconut palm flower buds – a traditional sweetener in Indonesia and a sustainable alternative to refined sugar.

Coconut palms thrive in low-input, diverse agroforestry systems, making this sweetener both eco-friendly and renewable. Gulapa works closely with NGOs to empower local communities and promote sustainable agriculture, striving to raise living standards through ethical production and inclusive business practices.

Dar Tomoor is a family business inspired by long-lasting traditions. The farm base was established 14 years ago in the Ferkla region, near Errachidia in Morocco – a 23 hectares lot where palm trees are now thriving. The company's mission is to make organic Mejhoul and Boufeggous dates accessible to all and to promote a healthy lifestyle by educating consumers on the benefits of dates.

Dar Tomoor dates are carefully cultivated to ensure premium quality. The company is deeply committed to sustainability—using solar energy to cut carbon emissions, composting organic farm waste, and avoiding all phytosanitary chemicals. After a successful presence in Morocco, Dar Tomoor is bringing its unique, eco-friendly dates to the European market.

Inka Fresh

Hall 4.1 | booth C91g

Inka Fresh is a family-owned company that grows, processes, and exports high quality dehydrated fruits, vegetables, herbs and spices from the highlands and rainforests of Peru. The fields and processing plant are located closely together, in such a manner that peak harvest and post harvest quality are maintained before processing. The plant is located in Satipo, in the central jungle of Peru. The tropical weather of the zone (rainforest) allows for year round production. The company is vertically integrated, from the fields to final export destination, in such a way that complete traceability is guaranteed for the products.

Inka Fresh owns a storage and sorting facility close to the shipping port that allows consolidation of the export containers. Founded in 2004 they have continually expanded their operations mainly in North America and are now targeting to expand operations in Europe.

Products & quantities per year

- Ginger slices, granules, powders (dehydrated) / 200 t
- Orange slices, granules, powders (dehydrated) / 200 t

Zimlam Moringa transforms sustainably grown moringa into high-quality natural products such as moringa tea and capsules, promoting health and well-being. Based in southern Senegal, the company builds an inclusive value chain by working closely with local farmers and offering year-round employment, especially for women. Through ecological farming without using pesticides and synthetic fertilizers and payment of fair prices for raw material, Zimlam supports rural livelihoods, fights child malnutrition, and turns moringa into a source of health, sustainability, and dignity.

Zimlam Moringa is currently building a second processing room for Moringa powder. The company is currently in the process of acquiring ISO 9001, HACCP and organic certification which is expected for next year when the new processing room is operational.

Products & quantities per year

- Moringa powder / 3 t
- Moringa soaps / 2 t
- Moringa oil / 250 l

Certifications

- HACCP (in process)

Bestinvestin is the proud owner of the Wupperthal Rooibos 1830 (WR1830) and Ingwe Teas Rooibos brands. WR1830 is a luxury brand sourced from the epi-center of the rooibos cultivation region, and is the highest quality rooibos available, packed with antioxidants with a range of amazing health benefits for young and old. WR1830 also heals the impoverished community of Wupperthal through direct benefit sharing.

Ingwe Teas Rooibos is a premium everyday export quality brand that supports commercial and small-scale producers from a rural village, perfect as an enjoyable health beverage, served hot or cold.

Niice Foods

Hall 11.1 | booth A050g B059g

Niice Foods manufactures and supplies value added macadamia nut products. Their vision is to create macadamia-inspired artisanal products that are flavour packed, delicious to eat, and good for their customers.

Macadamia nuts have a very unique health profile. They are 1 of only 2 foods that contain palmitoleic acid, and have the perfect balanced ratio of omega 3:6. Macadamia nuts are high in protein, fibre and heart healthy monounsaturated fats.

The company believes in the global shift toward more plant based, healthier diets and an increase in ethics, awareness about food safety, traceability, people and environmental welfare.

Since 1996, Tzamac has been processing premium macadamias in Limpopo, Northern South Africa. Their commitment to quality is underpinned by meticulous batch processing and robust traceability systems. This high standard is further strengthened by the direct involvement of three of their largest growers – who also serve as factory directors – ensuring alignment, accountability, and consistency across every stage of production.

They prioritize long-term partnerships over one-off transactions. The companies lean, hands-on team delivers fast, flexible, and personalised service tailored to each client's specific needs. Deeply rooted in their local community and trusted by international markets, Tzamac is your reliable and ethical source for world-class macadamias.

A pioneer in Sri Lankan agriculture since 1992, Ellawala Horticulture is the creator of the Tom EJC mango – now the preferred variety for dry zones across the island.

The company exports organic fresh mangoes and tropical fruits worldwide, grown on its own certified organic farms.

In 2021, Ellawala launched a modern processing facility with five production lines for pulping, canning, freezing, and dehydrating. From tree-ripened harvest to finished product, everything is crafted with care and traceability. With 70% of its 150 employees being local women, Ellawala is deeply committed to rural empowerment, sustainability, and delivering fruit products bursting with natural goodness.

Navigeta Foods, based in Kurunegala, Sri Lanka, produces premium dehydrated tropical fruits – papaya, banana, mango, and jackfruit – with a monthly capacity of 4,000–5,000 kg. Since 2017, the company has developed a rural supply chain that supports biodiversity through organic farming, creates employment for women, and strengthens local communities. Certified to FSSC standards, Navigeta ensures full traceability and food safety.

Its modern facility operates with clean energy and optimised dehydration processes to reduce waste and carbon footprint. Products are naturally ripened, gently processed, and packed in 1 to 2.5 kg bulk for export.

Navigeta is a reliable partner for buyers seeking sustainable, ethically sourced tropical fruit ingredients.

The Lima Group is an agricultural company based in the Southern Highlands of Tanzania, specialising in working with smallholder farmers. Unlike many social enterprises, the company not only promotes impactful solutions but also implements them directly. Through farmer-elected village coordinators (VCs), the company maintains a constant presence in the villages, providing support 24/7.

The Lima Group offers farmers access to markets, free training in organic and regenerative agricultural practices, interest-free pre-financing, and organic inputs. Since 2015, the company has been developing a holistic smallholder agroforestry carbon project.

Galicia Trade

Hall 4.1 | booth C91g

Transparency "from garden to table": Galicia's natural juices and purees are made from fresh fruits and berries sourced directly from their orchards and partner farms. This direct connection ensures product freshness, quality, and full transparency throughout the entire production process.

Galicia cooperates only with selected farmers, follow strict quality control measures, and maintain high production standards. Thanks to this, each package of juice or puree is a product of pure fruits, ethically grown and preserved in their natural taste.

Galicia offers both conventional and organic options, also private label production and various packaging options - tailored to clients' request. The product range includes a variety of juices and purees, as well as specialized juices and purees for infants with added fiber to help reduce sugar intake and support healthy digestion.

Products & quantities per year

- NFC juices (apple, pumpkin, apricot, pear, carrot, strawberry, chokeberry, tomato, peach, blueberry, raspberry, spinach, plum, melon) / 10m l
- Fruit purees (apple, pumpkin, apricot, pear, carrot, strawberry, chokeberry, tomato, peach, blueberry, raspberry, spinach, plum, melon) / 1,000 t

Invert is a Ukrainian confectionery company producing a broad range of biscuits under the brand name Pichkar. The company operates two production facilities in Poltava and Dykanka, covering a total area of 13,000 m² and running seven production lines. Invert offers around 70 different products and more than 120 SKUs, organised into seven product categories.

Responding to modern consumer preferences, Invert continues to expand its assortment with more health-conscious options. Their selection includes biscuits where conventional sugar is replaced entirely with fructose or stevia, as well as vegan-friendly options made without animal fats, milk, or eggs. Several recipes are also available without palm oil, using high-oleic sunflower oil as an alternative, in savoury flavours and tailored shapes.

AM Food Processing has been exporting walnuts from Ukraine for 15 years, and they have created a new brand, Slow Walnuts, which aims to connect responsible consumers with the long and rich tradition of Ukrainian walnut gathering. Their walnuts may not be perfect in appearance, but they are truly sustainable due to the following characteristics:

- Grown in biodiverse environments, including forests and home gardens
- Irrigated only with rainwater
- Completely free from pesticides
- Contain more Omega-3 than cultivated walnuts
- Support rural livelihoods, especially for women in low-income areas

Food Agro Company

Hall 5.1 | booth B079 C078

The factory in Uzbekistan was founded in 2019, sourcing fresh fruits from own gardens as well as from partner farmers (no GMOs and primary processing by hand). Food Agro is among the largest processors of dried fruits and nuts – with an area of 20,000 sq metres, where more than 150 employees are currently working.

Food Agro's factory has been accredited for compliance with food safety standards, which allows the company to produce high quality products. More than 100 tons of products are processed daily. Each product undergoes laser processing on modern equipment. The company tries to adapt to the requirements of customers by providing flexible delivery terms and providing customized solutions.

Sirdarya Beans Export

Hall 5.1 | booth B079 C078

Uzbekistan

Sirdarya Beans Export is Uzbekistan's leading exporter of pulses, located in the middle of production areas. The company is a longstanding family business working in pulses exports for almost 10 years.

Due to its extensive experience and advanced technology, the company is able to offer premium quality at good prices, and a wide range of pulses like green mung beans, purple and red speckled kidney beans, yellow and red millets. Beautiful colour, bigger size and excellent taste of Uzbekistan pulses make them premium. All the products meet the international standards, and transparency in the negotiation.
