# Import Promotion Desk (IPD)

Your partner for sustainable business contacts

If you are an importer looking for reliable suppliers of organic natural ingredients and want to open up new supply sources, then

**Import Promotion Desk (IPD)** will support you.

On your behalf, we undertake the international sourcing of reliable trade partners in selected partner countries.

We identify highly promising producers for you who are able to reliably meet the demand on the European market. We prepare the suppliers thoroughly for the EU market: considering factors such as product quality, exportability, export capacity, and compliance with international standards and certifications.

Thanks to our preparation, you will meet business partners who know what is important to European importers.

## Organic sourcing for development

Since 2015, **Import Promotion Desk (IPD)** – the German initiative for import promotion – and the **Gesellschaft für Internationale Zusammenarbeit (GIZ)** have been present at BIOFACH with a joint stand under the motto “Organic sourcing for development”. There, we connect European importers with selected producers from developing and emerging countries.

Partners in  
Transformation  
Import Promotion Desk

**giz** Deutsche Gesellschaft  
für Internationale  
Zusammenarbeit (GIZ) GmbH

Our collaboration demonstrates how economic promotion and development cooperation can successfully work together: By combining GIZ's sustainability expertise with IPD's market access support, we show that fair, high-quality products from partner countries can be both economically successful and developmentally meaningful.

Visit our joint stand at **BIOFACH 2026 – Hall 1, Booth 261** – and meet your next reliable supplier!

This year, we introduce you to evaluated producers of organic products from our partner countries: Brazil, Cambodia, Côte d'Ivoire, Ecuador, Egypt, Ghana, Indonesia, Kenya, Madagascar, Morocco, Peru, South Africa, Sri Lanka, Tanzania, and Ukraine.

On the following pages you will find detailed information about the exhibiting companies.

IPD is an initiative of the Federation of German Wholesale, Foreign Trade and Services (BGA) and sequa, the development organization and partner of German business. We are funded by the Federal Ministry for Economic Cooperation and Development (BMZ) and part of the “Partners in Transformation – Business & Development Network”, into which the BMZ programmes for economic actors are organised.

# Fazenda Bella

Hall 1 | Booth 1-261

Fazenda Bella is a woman-led organic farm founded in 2020 in the Caatinga region of Bahia, Brazil. Organic certification is deeply rooted in its identity, reflecting its commitment to environmental preservation and the well-being of workers and consumers. Its main products include acerola, passion fruit, cassava, and a range of medicinal and culinary herbs, all scalable according to demand. The farm also partners with certified processors, meeting international production standards, to produce frozen acerola and passion fruit pulp with full traceability.

Applying regenerative practices adapted to semi-arid conditions, Fazenda Bella prioritizes quality, while preserving nature, and contributing to the local livelihoods by generating income. It remains committed to soil health, biodiversity restoration, and delivering reliable certified organic ingredients to global partners.

## Products & quantities per year

- Acerola junco frozen pulp / 200 t
- Passion fruit (AC 275) frozen pulp / 150 t

# Guaraná do Brasil

Hall 2 | Booth 2-421

Guaraná do Brasil is the steward of Fazenda Karina, the largest producer of organic guaraná in the region. For nearly 30 years, the company has enhanced the crop in partnership with the Brazilian government through EMBRAPA, building unmatched expertise through decades of research, dedication, and continuous investment that ensures exceptional biochemical, physical, and microbiological quality. Its processing facility handles 11 t per day, using thermal sterilization, moisture reduction, magnetic filtration, and impurity ventilation, while upholding the highest standards of quality and safety. The company oversees every stage of production – from planting, cultivation, and harvesting to processing and extraction. It also produces the first guaraná-based energy drink ever registered in Brazil – reaffirming its pioneering trajectory and its commitment to quality, innovation, and authenticity.

## Products & quantities per year

# Hesed Agriculture Trading

Hall 1 | Booth 1-261

Hesed is a Cambodia-based company dedicated to ethical and sustainable agriculture. They partner directly with smallholder farmers to produce Palmyra blossom sugar, a distinctive natural sweetener tapped from wild-growing Palmyra palm trees (*Borassus flabellifer*) – the national tree of Cambodia. Certified with EU Protected Geographical Indication (PGI), their sugar is a minimally processed slow food that retains its natural nutrients and delivers a light caramel sweetness with subtle umami, free from bitterness or additives. Similar to coconut sugar but with a richer, slightly smoky caramel note, it's an ideal alternative when coconut sugar is limited. With respect for both nature and people, Hesed promotes biodiversity, fair pricing, and community development.

Wild-Harvested & naturally grown. Fairly traded. Uniquely Cambodian.

## Products & quantities per year

- Palmyra blossom sugar / 200 t
- Palmyra blossom syrup / 50 t
- Palmyra blossom paste / 50 t

## Certifications

- BRCGS
- Fair trade (WFTO)
- ORGANIC EU
- ORGANIC JAS
- ORGANIC NOP

# EcoCajou

Hall 1 | Booth 1-261

EcoCajou, a cashew processor (50-60 t/day) operating since October 2023 in Northern Côte d'Ivoire, specializes in the production of organic cashew kernels. It aspires to spearhead agricultural transformation in the Kabadougou region of Côte d'Ivoire.

Recognizing that unequal growth is inefficient and wastes human resources and opportunities for development and innovation, the company views its social policy as a business strategy. By adopting a holistic, farmer-centered approach, they aim to drive positive change within communities engaged in sourcing organic raw cashew nuts. Their business impacts 12,746 small cashew producers (including 1,512 women and 3,690 young people) across 460 communities. They seek partners who share a commitment to co-create a lasting and reliable narrative with the producing community, fostering a sustainable kernel.

# Nunalabs

Hall 1 | Booth 1-261

Nunalabs is a leading innovator in botanical extraction, rooted in Ecuador's rich biodiversity. They create high-quality herbal extracts for food & beverage, nutraceutical, cosmetics, and supplement industries. Blending modern science with traditional wisdom, they harness the benefits of native plants to produce natural, effective, and versatile extracts.

Their low-temperature extraction process preserves bioactive compounds, delivering potent and sustainable products. Guided by sustainability, they support wildcrafting, agroforestry, and partnerships with indigenous communities, they help protect Ecuador's rainforests while supporting ethical sourcing and local economic growth.

Nunalabs also offers tailored formulations and white-label products to meet partners' needs, helping partners create standout products and bring the power of nature into their offerings.

Bio Oasis is a family business. The journey started in 1988 when founder Prof. Dr. Hamdy Seif El-Nasr was reclaiming his farm in the desert area and was converting it into an organic farm.

Bio Oasis adapted its own system for small farmers (collective farm system), while also maintaining its own farm and sourcing additional produce from these smallholders.

Bio Oasis focuses on delivering highest quality to its customer world wide and providing a reliable and sustainable service. Its success is achieved through well-trained quality assurance staff, working on the farm and processing facilities.

# True Farms

Hall 1 | Booth 1-261

True Farms was born out of MIT and Harvard, founded by engineer Kwami Williams and economist Emily Cunningham with a bold mission: to cultivate wellness for people and planet alike.

From its solar-powered, regenerative farm in Ghana, True Farms supplies premium organic superfood ingredients grown in close partnership with women and family farmers.

With year-round availability, low minimum order quantities, full traceability, and turnkey private label solutions, True Farms makes it easy for European importers to meet the rising demand for sustainable, high-quality tropical ingredients – bringing the power of purpose-driven superfoods to shelves with the taste and integrity customers expect.

## Products & quantities per year

# Berkat Petani (Gulapa)

Hall 1 | Booth 1-151

Berkat Petani Indonesia (Gulapa) produces high-quality coconut sugar while supporting smallholder farmers in Central Java. The name “Gulapa” reflects the company’s mission: to be a blessing and improve farmers’ livelihoods by building strong partnerships and giving back to society. Coconut sugar is made by collecting the sap of coconut palm flower buds – a traditional sweetener in Indonesia and a sustainable alternative to refined sugar.

Coconut palms thrive in low-input, diverse agroforestry systems, making this sweetener both eco-friendly and renewable. Gulapa works closely with NGOs to empower local communities and promote sustainable agriculture, striving to raise living standards through ethical production and inclusive business practices.

## Products & quantities per year

- Coconut sugar / 3,486 t

# Hugo Inovasi (Nectara)

Hall 1 | Booth 1-151

Nectara is the flagship brand of Hugo Inovasi, a manufacturer and exporter of coconut sugar. The company is located in Banyumas, Central Java, the heart of coconut sugar farming and plantations. It processes sugar directly from local farmers in its own facility, ensuring a short supply chain and complete traceability.

Nectara's coconut sugar carries industry-standard certification seals. It is produced using biological and mechanical practices that support ecological balance, promote on-farm resource cycling, and conserve biodiversity.

Hugo Inovasi grows together with farmers, empowering them to reach their fullest potential. They aim not only to make a profit, but also to create meaningful benefits.

## Products & quantities per year

- Coconut sugar / 1,800 t
- Coconut syrup / 200 t
- Coconut block sugar / 500 t

# Privamnuts

Hall 1 | Booth 1-261

The macadamia nuts of Privamnuts are naturally grown in the mineral-rich highland soils of Mt. Kenya, right at the equator. The farmers allow their trees to grow most naturally with very little intervention, using available resources like animal manure only. Spraying is non-existent.

Privamnuts has a modern processing facility as well as a macadamia nursery that supplies over 100,000 organically grafted macadamia seedlings. End-to-end quality monitoring systems are implemented and the quality control team adheres to a strict food safety management system from the farm to the point of sale.

Privamnuts exports macadamia kernels to different global markets. The American market accounts for the largest share of its exports with the other markets being Europe, the Middle-East, Japan and China.

## Products & quantities per year

- Macadamia nuts kernel / 1,050 t

## Certifications

# Amazon Specialties

Hall 1 | Booth 1-261

Amazon Specialties, founded in 2016 by two Peruvian friends, shares the nutritional benefits of Peruvian superfoods globally with a commitment to social and environmental responsibility. After 12 years of Amazonian exploration and founding an NPO to support local communities, they partnered with over 4,500 farmers to provide premium cacao, yacon, brazil nuts, maca, and other Peruvian superfoods.

With collection centers across the Amazonia and Andes, and a processing plant near Lima, they do business directly (and fairly), promote organic and regenerative farming practices, minimize environmental impact, creating socioeconomic value while realizing their dream of making a true positive impact for the local communities and environment.

## Products & quantities per year

- Cacao beans / 300 t
- Cacao derivatives (nibs, powder, paste, butter, tea) / 200 t
- Dried physalis, brazil nuts / 70 t
- Yacon powder / 20 t
- Powders (maca, ginger, turmeric, banana, purple corn, mesquite) / 60 t

## Certifications

# Andean Roots

Hall 2 | Booth 2-515

Andean Roots is an agroindustry that produces, processes and markets organic and functional superfoods from Peruvian biodiversity. It was founded in June 2007 in the Peruvian Highlands. The company's farm is located close to its processing plant, which allows for quick processing of the products, resulting in high quality and cost efficiency.

Andean Roots works with 20 farming families in the region to grow and harvest yacon and goldenberries, which are then processed and marketed. In the processing of its products, the company specialises in vacuum concentration and continuous dehydration. This allows to preserve the physical, chemical and organoleptic characteristics of the raw material.

## Products & quantities per year

- Yacon syrup / 180 t
- Yacon powder / 120 t
- Yacon dried / 140 t
- Goldenberry syrup / 60 t

# Kaukou

Hall 1 | Booth 1-261

Kaukou honeybush tea is organically cultivated on the Herold Meander farm situated in the Garden Route of South Africa. Kaukou was established in 2018 by an indigenous family who are developing a derelict and abandoned farm with 18 employees.

The farm is socially and environmentally sustainable where honeybush are naturally cultivated on southern slope farmlands. The indigenous Khoikhoi used the honeybush shrub to make a medicinal tea with a pleasant, mildly sweet taste and aroma.

The tea formed part of their traditional healing systems, a practice that remains applicable in modern times. Honeybush is a herbal tea that is caffeine-free, with very low tannin levels and high antioxidants.

## Products & quantities per year

# Aikya Agro

Hall 1 | Booth 1-267

Rooted in the rich heritage of Sri Lanka's Uva Province, Uva Spices, the brand of Aikya Agro, embodies the island's legacy of exceptional spice cultivation. From its own plantations and dedicated farmer groups, the company produces premium single-origin spices, nurtured by Uva's pristine climate and fertile soils that yield distinctive aromas and flavours.

As an integrated agri-business, Uva Spices champions sustainable, organic, and multi-cropping practices, empowering local farming families through fair partnerships and long-term collaboration. Guided by integrity and authenticity, it delivers a genuine Farm-to-Home experience – sustainably grown, ethically sourced, and truly Sri Lankan.

# GFP Organics

Hall 1 | Booth 1-261

GFP Organics is a Tanzanian family-run, social-impact-oriented enterprise that has been building bridges with smallholder farmers for two decades. The farmers grow organic spices around the East Usambara Mountains (part of the Eastern Afromontane Biodiversity Hotspot), creating sustainable market opportunities for their high-quality spices.

Spice farming supports communities by diversifying livelihood options, increasing incomes, reducing dependence on natural resources, and enhancing human-wildlife coexistence. GFP ensures that women and youth have equal opportunities to engage in the production and trading of spices, thereby improving their overall quality of life. GFP has been organically certified for 20 consecutive years and has been exporting to the European Union throughout this time. GFP is committed to continuing its mission of building strong and sustainable businesses.

## Products & quantities per year

- Black pepper (whole) / 30 t

# NEI

Hall 1 | Booth 1-261

Viva Vanilla® by NEI delivers exceptional-quality vanilla, sustainably sourced from over 13,000 partner farmers in Tanzania and Uganda. The company pioneered full bean-to-extract digital traceability in East Africa, ensuring transparency, EUDR compliance, and complete control with no middlemen.

As a social enterprise, it respects and invests in the land and local communities, providing technical support and fair-value partnerships to farmers. Its superior vanilla bean quality, with a guaranteed minimum of 2% vanillin content, combined with its proprietary in-house extraction process and expertise, offers a unique, premium, and competitive range of vanilla extracts, oleoresin, and absolute – meeting the needs of industrial B2B customers.

## Products & quantities per year

Panfruit is a Ukrainian family brand founded in 2020, built on naturalness, innovation, and premium quality. The company creates snacks that combine taste, health, and convenience – inspiring new trends.

Panfruit specialises in freeze-dried fruits and berries, offering clean-label, shelf-stable products rich in natural flavour and nutrients. Its production is FSSC 22000 certified, and selected products hold EU Organic certification, ensuring international quality and trust.

At Biofach 2026, Panfruit will present its unique “30-minute rule” – processing fruits within 30 minutes of harvest to preserve maximum freshness, vitamins, and taste.

With full traceability, certified production, and growing export experience across Europe and Asia, the company is expanding its organic range and seeking partners who share its commitment to quality, sustainability, and innovation.

## Products & quantities per year

Shans Vik is a Ukrainian producer of organically certified dried berries and herbs, operating since 2018. Located in the Volyn region – an ecologically clean area surrounded by forests – the company runs two air-drying plants with heat exchangers. Wild-collected raw materials are processed fresh on the day of harvest, with 90% of production exported to the EU for tea and pharmaceuticals.

Guided by fair trade principles, Shans Vik builds long-term partnerships and develops its own herbal tea brand TRAVKA, made exclusively from Ukrainian herbs, blending local traditions with a modern natural lifestyle.
