Import Promotion Desk (IPD)

Your partner for sustainable business contacts

If you are an importer looking for **reliable suppliers of natural ingredients** and want to open up new supply sources, then Import Promotion Desk (IPD), the initiative for import promotion, will support you.

On your behalf, we undertake the international sourcing of reliable trade partners in selected partner countries.

We identify highly promising producers for you who are able to reliably meet the demand on the European market. We prepare the suppliers thoroughly for the EU market: considering factors such as product quality, exportability, export capacity, and compliance with international standards and certifications.

We introduce you to carefully evaluated companies at trade fairs in Europe or during virtual b2b events. Thanks to our preparation, you will meet business partners who know what is important to European importers.

At **Food ingredients Europe (FIE) 2025** we will be presenting around 20 selected suppliers from Côte d'Ivoire, Ecuador, Egypt, Ethiopia, Kenya, Madagascar, South Africa, Tanzania, Ukraine, and Uzbekistan.

We establish direct contact to these new companies and organise b2b meetings for you. Our mediation is **neutral, quality-conscious and free of charge**.

Get in touch with us!

IPD is an initiative of the Federation of German Wholesale, Foreign Trade and Services (BGA) and sequa, the development organisation and partner of German business. IPD is funded by the Federal Ministry for Economic Cooperation and Development (BMZ) and part of the "Partners in Transformation – Business & Development Network", into which the BMZ programmes for economic actors are organised.

IPD partners

IPD works with a network of international organisations in Europe and its partner countries.

Thus we efficiently pool information and know-how. This enables us to link existing import and export promotion measures and carry out their strategic further development. Our partnerships always make it possible for us to match all services of IPD to the needs of importers and exporters exactly and then carry out our services optimally at any place.

Coop-Ca Sopeco

Hall 7.3 | Booth 73R33

Coop-Ca Sopeco is a dynamic cooperative of 300+ smallholder farmers in San Pedro, Côte d'Ivoire, dedicated to producing and exporting premium, traceable kola-based ingredients.

Since 2014, the cooperative has combined tradition with innovation – using eco-friendly, chemical-free methods and collaborating with French research institutions to ensure superior quality and sustainable transformation processes.

With tailored packaging for both bulk and retail markets and fast air-shipping to preserve freshness, Coop-Ca Sopeco meets the needs of global buyers. As a trusted partner and key player in the professionalization of Côte d'Ivoire's kola sector, they deliver ingredients with impact – socially, environmentally, and economically. Their nuts are sourced directly from a network of smallholder farmers located in the areas shown on the map.

Products & quantities per year

Natafin

Hall 7.3 | Booth 73R33

Natafin, a division of Drickel & Co., based in Abidjan, Côte d'Ivoire, specialises in the export of natural raw ingredients from West Africa for beverages, food, cosmetics and pharmaceutical industries. Natafin prides itself on strict processing, packaging and transport protocols to ensure highest quality products.

Notably, women make up 80 % of the workforce in the villages where the ingredients are collected, underlining Natafin's commitment to empowering local communities.

The company stands out for its reliable sourcing of authentic African ingredients, ethically harvested to support local communities.

Magic Flavors

Hall 7.3 | Booth 73R33

Magic Flavors is an Anglo-Ecuadorian company based in Quito, Ecuador. They create high-quality natural flavors and green extracts derived from the rich biodiversity of the equatorial region. Their unique geographical location allows them to source exclusive plants from the Amazonian and its surroundings, which are then processed with care to retain their natural components, essence, and freshness.

Magic Flavors Goes Green isn't just a product range: it's a mindful shift towards creating truly immersive sensory experiences. Rooted in the principles of circular economy, Magic Flavors is the answer for a new generation of consumers and brands who want real, traceable, sustainable ingredients without compromising on quality, effectiveness, or sensory richness.

Products & quantities per year

- Natural flavors (orange, lemon, peach, strawberry, mint) / 60 t
- Natural extracts (pineapple, chamomile, lemongrass, guayusa, banana, ishpingo, passion fruit, blackberry, vanilla, naranjilla) / 60 t

Established since 1996 within the Egyptian market and since 2012 on the international stage, Alrehab Herbs is a dedicated specialist in medicinal and aromatic plants sourced from Egypt. Their distinction lies in a robust and well-established supply chain that sets them apart.

Alrehab Herbs approach encompasses the complete spectrum: cultivation adhering to GAP and GHP standards, drying techniques encompassing both sun and advanced machine drying, processing that aligns with GMP guidelines, and packaging crafted from fresh fibers to mitigate MOSH/MOAH concerns.

They predominantly serve key markets including Europe, the USA, and the Gulf region. Their credentials encompass prestigious certifications such as ORGANIC (EU, NOP), FSSC 22000, KOSHER, and SMETA verification, underlining the commitment to quality and ethical practices.

Egyptian Gulf Group

Hall 7.3 | Booth 73R33

EG-Oregano, a trademark of the Egyptian Gulf Group for Trading and Investment, has over 30 years of expertise in supplying premium herbs, spices, and dehydrated vegetables. Sustainably cultivated and processed under strict supervision, all products are packaged to ensure freshness, quality, and trust.

Equipped with advanced production lines, the company delivers competitively priced goods supported by reliable after-sales service. Headquartered in Cairo with a modern facility in the Al Fayoum Industrial Zone, EG-Oregano serves both domestic and global markets. Having exported to Poland, Hungary, the USA, Turkey, and Kuwait, the company is expanding its international reach to meet growing demand.

WanESCO is an Egyptian company that produces herbs and spices with more than 40 years of experience. The factory is located in Beni Suef, a strategic hub for sourcing herbs. The company offers a wide range of products and is involved in all stages of production – from cultivating crops to sieving, sorting, and packing.

WanESCO values long-term business relationships and prioritizes delivering high-quality products according to customer requirements in full compliance with EU standards.

Dabase

supported by GIZ | Hall 7.3 | Booth 73R33

Dabase combines “DABA” (meaning trade) and “SE” (Sustainable Environment) in the Oromipha language, reflecting the company’s mission to unite the principles of sustainable trade and environmental stewardship to restore and conserve Ethiopia’s natural forest ecosystems while supporting the livelihoods of smallholder farmers, especially women.

A family-owned business since 2020, Dabase has established itself as a leading supplier of high-quality spices and herbs, directly sourced from smallholder farmers, and processed and packaged at its factory in Adama (Oromia Region).

Backed by over 19 years of research and development experience and its management team’s exposure to 17 countries, the company now serves more than 32 customers across the USA, EU (Switzerland, France, Italy), the Middle East, and Asia.

Products & quantities per year

- Rosemary (dried) / 480 t

Kenya Bixa commenced operations in 1979. Initially designed to process 250 tons of Bixa seeds per year, the factory has since been upgraded to a processing capacity of 3,000 tons of per year.

Kenya Bixa processes annatto seeds into annatto based natural food colorants (norbixin and bixin) and its by-products. The company is experienced with direct exports worldwide (incl. Japan, Latin America, USA, Europe).

Kenya Bixa has its own annatto farm of about 1,500 acres and about 7,000–10,000 farmers supplying Bixa orellana seeds through a contract farming scheme as well as traders.

The farmers are spread across the Kwale, Lamu and Kilifi counties along the Kenyan coast.

Products & quantities per year

- Norbixin powder / 50 t
- Bixin powder / 50 t
- Annatto oil / 10 t

Certifications

- FSSC 22000
- HALAL
- ISO 9001
- KOSHER

Vokenel

Hall 7.3 | Booth 73R33

Vokenel Enterprises is a Kenyan company that processes and sells natural baobab fruit powder and baobab oil. Baobab fruit powder is a nutritious superfood, while baobab oil is valued in cosmetics for nourishing skin and hair. The company sources baobab fruits from Makueni, Kenya, where the powder is processed and the oil cold-pressed. The baobab tree is one of the most iconic and indigenous trees from Africa and it is also referred to as the 'Tree of Life' due to its numerous benefits. Vokenel works with over 100 farmers, mostly women, in the semi-arid Makueni area. Purchasing their products directly supports rural communities by enabling farmers and processors to earn income, improve livelihoods, access healthcare, and educate children. Their model also contributes to conserving baobab trees, since farmers gain incentives to preserve them by sustainably harvesting and selling fruits.

Products & quantities per year

- Baobab fruit powder / 120 t
- Baobab oil / 12 t

Certifications

- ISO 14001
- ORGANIC EU

Freedom African Botanicals

Hall 7.3 | Booth 73R33

Freedom African Botanicals is a B2B supplier of high-quality, ethically sourced African medicinal botanicals, committed to delivering to markets worldwide. Their uniqueness lies in a short, direct-to-source value chain, built through close collaboration with tribal communities in South Africa and Lesotho, who harvest botanicals using traditional methods.

By working hands-on with trusted partners, they preserve plant potency and cultural heritage while fostering ethical, sustainable relationships rooted in transparency and fair practice. This approach enhances raw material management, improving quality, traceability, and trust throughout the supply chain. The botanicals are ideal for encapsulation, blending, extraction, and value-added formulations, enabling buyers to access authentic African botanicals directly from the source.

Products & quantities per year

- African potato (*Hypoxis hemerocallidea*) / 50 t
- Common wormwood (*Artemisia afra*) / 20 t
- Devil's claw (*Harpagophytum procumbens*) / 20 t

Factoria-Agro

Hall 7.3 | Booth 73R32

Since the foundation in 1993, Factoria-Agro Ltd. has become one of Europe's leading producers of mustard, flaxseed, and coriander ingredients. In partnership with the Zaporizhzhia Oilseed Institute, Factoria-Agro pioneered mustard cultivation in Ukraine in the early 1990s and developed new seed varieties with low erucic acid levels and a high oil content.

Factoria-Agro's innovations combined with Ukraine's fertile soil and strong agricultural traditions, form the foundation of the family-owned company. Today, Factoria-Agro offers a broad range of ingredients, including natural essential mustard oil, natural mustard flavour, mustard flour, de-oiled mustard powder, mustard bran, mustard oilcake, mustard seeds, flaxseeds, flaxseed oil and oilcake, coriander seeds, ground coriander, and more.

Products & quantities per year

- Mustard seeds / 7,000 t
- Mustard flour / 10,000 t
- Coriander seeds / 5,000 t
- Ground coriander / 6,000 t

KB Freeze

Hall 7.3 | Booth 73R33

KB Freeze has recently established a state-of-the-art fruit-processing facility in Kamyanka-Buzka, Lviv region, meticulously designed to meet the highest European standards and reflect the owner's strong commitment to excellence. At the heart of the facility is an IQF (Individual Quick Freezing) tunnel that uses eco-friendly carbon dioxide (CO₂) as a refrigerant, enabling rapid freezing that locks in the natural freshness, flavor, and nutritional value of the local fruits.

The company distinguishes itself through its unwavering focus on quality and food safety, as evidenced by BRCGS certification, its dedication to environmental responsibility through modern, energy-efficient equipment and adherence to Organic standards, and its fair and ethical practices toward both customers and employees, with Sedex/Smeta certification planned for the near future.

Products & quantities per year

- Raspberries (frozen) 🌱 / 100 t
- Strawberries (frozen) 🌱 / 100 t
- Raspberries (frozen) / 1,000 t
- Wild blueberries (frozen) / 500 t

UkrOilStar is a manufacturer and exporter of bottled refined, deodorized, frozen sunflower oil of brand (grade) P.

Made from Ukrainian sunflower seeds, the oil is highly purified, with a neutral taste and smell. To ensure clarity and stability waxes are removed through a winterization process (cold treatment process). The brand P designation confirms the oil is food-grade and suitable for human consumption.

UkrOilStar products meet Ukrainian national quality standards and fully comply with EU regulations. The company offers both its own brand products and private label options.

The location of the company's facilities, forwarding, and logistics department allows to deliver goods to anywhere in the world with minimal cost, in optimal time, and by any transport.

Yuma Bio is one of the largest producers of natural extracts in the CIS region, specializing in the processing of local plant materials—such as flowers, leaves, fruits, peels, seeds, and roots of medicinal plants. The company currently has an annual processing capacity of up to 3,000 tons of raw materials.

The main extraction facility was launched in May 2022. Since then, Yuma Bio's advanced technological equipment enables the production of various types of extracts, including DGL (Deglycyrrhizinated Licorice Root Extract), which is manufactured without the use of acids or alkalis – ensuring the highest levels of quality and safety. An onsite own laboratory equipped with high precision analytical equipment, as well as a pilot production, supports quality control as well as steady product development.

Products & quantities per year

- Liquorice root extract / 100 t
- Beetroot extract / 100 t
- Glabridin / 4 t
- DGL / 20 t
