Import Promotion Desk (IPD)

Your partner for sustainable business contacts

Discover quality fresh produce from all over the world at Fruit Attraction 2026

IPD connects European buyers with carefully vetted fresh produce suppliers from our partner countries.

Our sourcing approach ensures that all the companies we present to you at the fair meet the European standards for sustainable production, food safety, and reliable quality.

At **Fruit Attraction 2026**, we are pleased to introduce more than 20 carefully evaluated suppliers from Brazil, Colombia, Ecuador, Egypt, Ghana, Kenya, Morocco, Peru, Senegal, and Ukraine. In addition, three IPD alumni companies will present their diversified portfolio and excellent export experience.

We are also delighted that three companies from Ethiopia, which are supported by Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ), will be joining us at our stand.

Take advantage of IPD's tailored sourcing and matchmaking service to find new sources of supply and reliable, long-term suppliers. Benefit from a wide product range with short and transparent supply chains and without Intermediaries.

Our contact brokering is neutral and free of charge.

Visit us at **FRUIT ATTRACTION 2026 in Hall 12, Booth D11** and discover the high-quality fresh produce offered by our partners. If you cannot attend the trade fair in person, IPD will be happy to arrange individual meetings with our suppliers, on-site or online.

On the following pages, you will find detailed information about our partner companies. With IPD, you can discover new sourcing opportunities and build long-term business partnerships.

IPD is an initiative of the Federation of German Wholesale, Foreign Trade and Services (BGA) and sequa, the development organisation and partner of German business. IPD is funded by the Federal Ministry for Economic Cooperation and Development (BMZ) and is part of the "Partners in Transformation – Business & Development Network", into which the BMZ programmes for economic actors are organised.

IPD Partners

IPD works with a network of international organisations in Europe and its partner countries.

Thus, we efficiently pool information and know-how. This enables us to link existing import and export promotion measures and carry out their strategic further development. Our partnerships always make it possible for us to match all services of IPD to the needs of importers and exporters exactly and then carry out our services optimally at any place.

Britchis

Hall 12 | Booth F02

Britchis is a premier, family-owned agribusiness established in 2010 and home to the largest lychee orchard in Latin America. Cultivating more than 16 varieties (9 commercially available), Britchis manages the complete value chain through three packing houses and advanced processing facilities equipped for blast freezing, cold storage, and dehydration. Their innovative product lineup includes freeze-dried, dried, and frozen lychee, lychee honey, artisan spirits, and nursery seedlings.

Since launching its export operations in 2023, Britchis has expanded beyond local retail and direct-to-consumer markets into a global brand, supplying Canada, France, the Netherlands, Germany, Spain, Italy, the Czech Republic, and the UK.

Cooperativa Agrícola Juazeiro

Hall 12 | Booth F02

The Cooperativa Agrícola Juazeiro da Bahia (CAJ) was founded in 1994 to join forces and promote the socio-economic development of its members. It is located in the São Francisco Valley, in the city of Juazeiro in the state of Bahia. It now has two branches, one in Juazeiro and another in Petrolina Pernambuco. The main crop is table grapes and the varieties for export are Timpson, Sugar Crisp, Arra Sweeties and BRS Vitoria.

CAJ has an infrastructure to support every stage of production. From technical assistance to comprehensive storage of production. From technical assistance to comprehensive storage and cooling facilities, CAJ ensures the highest standards for its produce.

With storage capacity of 140,000 boxes per day, CAJ efficiently manages the flow of production, reinforcing their commitment to excellence and sustainability in agriculture.

Fazenda Calabaço

Hall 12 | Booth F02

In 2016, the GMC Group acquired land in Juazeiro, Bahia, transforming it into Fazenda Calabaço, known for its mango production. Starting with a few dozen hectares, it expanded to over 100 hectares dedicated to mango cultivation.

The family-run management modernized processes and implemented sustainable techniques. The farm employs over one hundred local workers, producing high-quality, sweet, and juicy mangoes that have gained international recognition.

The story highlights the success of family entrepreneurship and the transformation of a small farm into a thriving business, bringing prosperity to the local community. Calabaço's produce reaches European markets via exporters and has an excellent track record. Now the company seeks to explore export markets directly.

Products & quantities per year

Frutas Bessa

Hall 12 | Booth F02

Frutas Bessa is a family-owned company specializing in the production and export of tropical fruits, established in 2003 and located in Ceará, northeastern Brazil. The company manages its own farming, packing, and export operations, ensuring full control of the supply chain from cultivation to shipment. It values the well-being of its workers and ensures safe and good working conditions across all operations.

With more than 25 years of experience in fruit production and international trade, Frutas Bessa offers a reliable and consistent supply supported by an integrated production model and long-term business relationships with customers in different international markets. The company is also committed to providing high-quality products that meet international standards.

Lina Frutas

Hall 12 | Booth D11

Nestled in Brazil's sun-drenched São Francisco Valley, Lina Frutas is a family farm dedicated to growing premium mangoes with care and purpose. The unique location offers ideal conditions for producing exceptional fruit, while the farm's commitment to sustainability ensures the protection of the land that nourishes them. Lina Frutas practices carbon-negative farming and uses precision irrigation to conserve water and support local ecosystems. Each mango is hand-selected for quality, reflecting the farm's high standards and deep respect for nature.

More than just a farm, Lina Frutas empowers women, supports local communities, and upholds fair labor practices. Lina Frutas: premium mangoes, grown sustainably - nourishing people and protecting the planet.

Royal Grapes

Hall 12 | Booth D11

Royal Grapes is a family-owned company founded in 2020 by the Felli family, based in Petrolina, Brazil, in the heart of the São Francisco Valley. The company currently cultivates 90 ha of patented grape varieties – including Arra 15, Autumn Crisp, Sugar Crisp, Cherry Crush, and Sweet Celebration – with plans to expand to 358 hectares. The company serves the local market and exports directly and indirectly to the U.S., U.K., EU, Mercosur and more. With on-site packing houses, the grapes are packed the same day they are harvested, ensuring superior freshness and quality.

Royal Grapes generates over 400 direct jobs, nearly 60% of them for women, and is deeply committed to social and economic community development.

Sifora

Hall 12 | Booth D11

Sifora regenerates land, communities, and local economies by transforming former eucalyptus monocultures into diverse organic farming systems. Degraded soils are revived through regenerative practices and ancestral knowledge that restore fertility, enhance water retention, and strengthen ecological balance. In Boyacá, Colombia, Sifora fosters community networks built on trust, transparency, and collective learning, supported by investments in rural infrastructure and efficient water management.

With its packing and processing facility in Santa Rosa de Viterbo, Sifora prepares fresh physalis for export and transforms non-exportable fruit into value-added products. This model ensures a regenerative, zero-waste value chain in which every part of the harvest is used to generate economic and environmental benefits from origin to market.

Terra Trading is a business group specialized in the export and import of agricultural products. With its Singapore property of 100 hectares and 10,600 trees, the company focuses on the commercialization of its products.

Currently, Terra Trading operates two packing plants: Packing Parnaso and Agropack. This allows the company to guarantee traceability, ensure a reliable fruit supply, and provide transparent and personalized business relationships. Terra Trading delivers Valencia oranges, organic limes, conventional limes, and yams that meet the required standards for color, flavor, and food safety.

Colombia, with its privileged climate and fertile lands, is an ideal place to grow Terra Trading's products. With more than 12 years of experience in the international fresh produce market, Terra Trading is committed to maintaining product traceability at every stage of the supply chain.

Osiris Farms

Hall 12 | Booth D11

Osiris Farms – where ancient roots meet modern precision. As a family-owned company, Osiris Farms grows and produces all its products sustainably, with future generations in mind – regenerating soil, empowering people, and raising every standard. From seed to fruit, each product is carefully nurtured. Certified by GlobalG.A.P., SPRING, and SEDEX, Osiris Farms meets leading benchmarks in sustainability, food safety, and social accountability. With decades of experience in high-compliance industries like specialty chemicals, the team knows how to deliver and maintain freshness and quality.

From Egypt to Europe in as little as five days, Osiris Farms serves international markets with speed and care. More than crops are nurtured here – trust, integrity, and a better tomorrow are cultivated every day. Osiris Farms. Ancient Roots. Fresh Futures.

Beeco Agro Industry

supported by GIZ
Hall 12 | Booth D11

Beeco Agro Industry is an international horticulture company based in Ethiopia, operating on 24.6 hectares of land in Holeta, 30 km west of Addis Ababa. The company was established in 2017 with the vision of becoming a recognized leader in the horticulture industry, known for quality, sustainability, and innovation, while making a positive impact on the environment and society.

The company has created jobs for more than 300 employees and established markets globally. Its products are graded and packed on the farm before being transported to the airport in refrigerated trucks.

Beeco Agro Industry uses advanced technology to produce high-quality products, supported by qualified agronomists from Ethiopia and abroad. Its teams are trained and certified under the British Agrochemicals Standards Inspection Scheme (BASIS) and the Fertilizer Advisers Certification and Training Scheme (FACTS).

Founded in 2020, Aromatic Fresh is a premium herb grower and exporter delivering consistent, year-round supply to European buyers directly from its farm in Kitengela, Kajiado County. The core advantage of the company lies in proximity and speed: located just one hour from the main international airport, herbs reach European clients within 48 hours of harvest hence fresh, traceable, and cold-chain protected from field to door. Greenhouse cultivation alongside the equatorial climate of Kenya guarantees reliable volumes every week of the year. With over 360 tonnes exported to Europe since inception, Aromatic Fresh has built a reputation as a single, dependable source for quality Kenyan herbs. Its operations are rooted in community impact, employing a primarily youth and female workforce and guided by sustainable farming practices that balance productivity with environmental responsibility.

Azatech Organics

Hall 12 | Booth D11

Azatech Organics is a Kenya-based grower-exporter headquartered in Mangu, Thika (est. 2017). The company employs an inclusive, trained workforce and operates sustainably managed farms certified to GlobalG.A.P. and GRASP. Azatech controls the full chain from field to port: careful harvesting, grading and food-safety checks at partner packhouses, eco-efficient pre-cooling, secure packaging, and lot-level traceability. Shipments move in monitored refrigerated containers via a maintained cold chain from Nairobi to Mombasa, serving buyers across Europe and the Middle East.

Its USP is a reliable, ethical supply built on sustainable practices, precise traceability, and consistent quality—powered by water-saving drip irrigation, solar energy, and community investment.

Uhoreru

Hall 12 | Booth D11

Uhoreru Limited is a commercial farm specializing in premium herbs for local and international markets. Founded in 2020 by Merab and Paul – professionals with backgrounds in law and human resources – the venture grew from a shared passion for sustainable agriculture. The name “Uhoreru”, meaning tranquility in Kikuyu, reflects the company’s commitment to giving clients peace of mind through reliable, ethical business practices.

Operating from the fertile foothills of Mount Kenya in Laikipia County, Uhoreru combines rich soils with modern farming techniques. Certified GLOBALG.A.P. and GRASP, the farm is led by a highly experienced agronomist and general manager with years in large scale horticulture. Uhoreru delivers high-quality, safe produce while supporting community development and environmental stewardship.
