# Import Promotion Desk (IPD)

Connecting you with reliable fresh produce suppliers

For more than a decade, IPD has connected European importers with reliable suppliers of fresh produce from selected partner countries. Our aim is to open new procurement channels and make international sourcing more efficient, transparent, and sustainable.

At **FRUIT LOGISTICA 2026**, we introduce you to thoroughly evaluated producers from 10 countries – Brazil, Colombia, Ecuador, Egypt, Ghana, Kenya, Morocco, Peru, Senegal, and Ukraine – giving you direct access to reliable partners and high-quality products.

## Why importers benefit from IPD

**Quality Assurance:** All companies presented at **FRUIT LOGISTICA** undergo a rigorous screening process to meet the highest standards in sustainable cultivation and food safety.

**Risk Reduction:** We only select reliable, export-experienced producers with proven capacity. All suppliers are thoroughly prepared for the European market. Our experts also guide them through certification processes such as GLOBALG.A.P., EU Organic, Fairtrade, Rainforest Alliance, and other relevant sustainability standards, ensuring a smooth and secure sourcing process.

**Exclusive Access:** IPD provides direct contact with evaluated producers who are often difficult to reach otherwise. Through transparent, direct supply chains without intermediaries, buyers gain access to trustworthy partners.

We also present **IPD Alumni companies** – experienced exporters who have successfully completed the IPD programme. With proven expertise and a broad product range, they are well prepared to build long-term business relationships. Profiles of our Alumni companies can be found starting on page 51.

## Our matchmaking service is neutral and free of charge!

We carefully pre-select suitable suppliers on your behalf and organize personal meetings, ensuring you are introduced directly to the right business partners.

Discover the outstanding range of fresh produce from our partner companies and visit us at **FRUIT LOGISTICA 2026** in **Hall 25 C-03**.

**Can't attend in person?** No problem – we are happy to arrange individual virtual meetings with our producers. Detailed company profiles and product information can be found on the following pages.

IPD is an initiative of the Federation of German Wholesale, Foreign Trade and Services (BGA) and sequa, the development organisation and partner of German business. IPD is funded by the Federal Ministry for Economic Cooperation and Development (BMZ) and part of the "Partners in Transformation – Business & Development Network", into which the BMZ programmes for economic actors are organised.

# IPD Partners

IPD works with a network of international organisations in Europe and its partner countries.

Thus, we efficiently pool information and know-how. This enables us to link existing import and export promotion measures and carry out their strategic further development. Our partnerships always make it possible for us to match all services of IPD to the needs of importers and exporters exactly and then carry out our services optimally at any place.

# Fazenda Calabaço

Hall 23 | B11/B31

In 2016, the GMC Group acquired land in Juazeiro, Bahia, transforming it into Fazenda Calabaço, known for its mango production. Starting with a few dozen hectares, it expanded to over 100 hectares dedicated to mango cultivation.

The family-run management modernized processes and implemented sustainable techniques. The farm employs over one hundred local workers, producing high-quality, sweet, and juicy mangoes that have gained international recognition.

The story highlights the success of family entrepreneurship and the transformation of a small farm into a thriving business, bringing prosperity to the local community. Calabaço's produce reaches European markets via exporters and has an excellent track record. Now the company seeks to explore export markets directly.

# Natural Citrus

Hall 25 | Booth C-03

Natural Citrus has been active in the Brazilian Tahiti lime market for over 22 years. Today, the company's orchards include approximately 60,000 trees spread across Rio Grande do Norte, Bahia, and São Paulo, allowing Natural Citrus to supply their clients consistently 52 weeks a year.

Natural Citrus is projecting a production of 3,600 tons in 2025 and has already begun an expansion phase aiming to reach 5,000 tons by 2026. The company's orchards are irrigated using micro-sprinklers fed by tubular wells powered by solar energy, which meets 80% of their energy needs.

All team members are trained and qualified to understand clients' needs, providing service that fully meets their expectations while complying with all social, environmental, and food safety standards.

# Viva Agricola

Hall 23 | B11/B31

Founded in 2009, Viva Agricola is a leading agribusiness company located on the border of the Brazilian states of Rio Grande do Norte and Ceará. Over the years, Viva has built a strong reputation for customer dedication, sustainable practices, and a commitment to quality.

Viva invests in state of the art agricultural practices to deliver highly aromatic and safe products, while prioritizing environmental stewardship. Above all, Viva Agricola focusses on clear communication and personalised customer service, building lasting relationships with those they serve. At Viva Agricola, they grow more than just melons – they grow trust.

# Colombian Berries Association

Hall 25 | Booth C-03

The Colombian Berries Association, composed of 30 Colombian families, produces blueberries using tropical, eco-friendly farming methods that respect nature. Their "Blueberries with a Colombian Flavour" are crafted for individuals who value nature and seek healthy, exclusive, and high-quality products.

By enjoying "Blueberries with a Colombian Flavour," customers not only savor a fruit with an exquisite taste but also contribute to the preservation of Colombia's wildlife. One percent of the company's profits are donated to foundations dedicated to rescuing Colombian animals threatened by extinction or affected by illegal trade.

Sifora regenerates land, communities, and local economies by transforming former eucalyptus monocultures into diverse organic farming systems. Degraded soils are revived through regenerative practices and ancestral knowledge that restore fertility, enhance water retention, and strengthen ecological balance. In Boyacá, Colombia, Sifora fosters community networks built on trust, transparency, and collective learning, supported by investments in rural infrastructure and efficient water management.

With its packing and processing facility in Santa Rosa de Viterbo, Sifora prepares fresh fruit for export and transforms non-exportable fruit into value-added products. This model ensures a regenerative, zero-waste value chain in which every part of the harvest is used to generate economic and environmental benefits from origin to market.

# Agricola Karlita

Hall 25 | Booth C-03

At Agricola Karlita, pineapples benefit from natural microorganisms that enhance their shelf life while preserving a delightful and refreshing flavor. The company is dedicated to improving consumer well-being and has successfully conducted trials to replace fungicides with beneficial microorganisms.

Agricola Karlita supplies two containers of pineapples per week in calibers 5, 6, 7, and 8, with larger quantities available for calibers 5, 6, and 7. FOB options are offered for both maritime and air shipments.

The company's certifications demonstrate its compliance with rigorous standards in agriculture, environmental practices, human resources, and safety processes. With extensive experience supplying major supermarkets in Chile and Ecuador, Agricola Karlita has proven its ability to meet regional market demands while remaining well-positioned to expand into European export markets.

# Accretive Co. for agriculture (Atfa)

Hall 25 | Booth C-03

Accretive Co. for agriculture (Atfa) is Egypt's new aggregator of fresh fruits, and owner of one of Egypt's oldest Barhi date-fruit plantations.

More than a produce - a story of taste, sustainability, and empowerment from Egypt. Atfa Egypt offers Barhi dates and fruits with the cherished golden sweetness people love - yet with a meaningful difference.

Grown in Egypt's sun-kissed oases by a women-led, sustainability-driven team, each date is cultivated using renewable energy and water-efficient farming methods.

From farm to table, they combine premium quality with thoughtful, eco-friendly packaging, serving both bulk buyers and boutique retailers. They deliver not only exceptional fruit - but an exceptional story.

Deliciously ethical. Authentically Egyptian. Responsibly shared with the world.

# Farm Pick Fruit Export

Hall 25 | Booth C-03

Since 1995, Farm Pick has nurtured superior fresh produce with a mission to produce premium quality fruits for the export market.

What began as a modest farm near Sadat city, focusing on exceptional table grapes, has blossomed into a vast enterprise spanning 400 hectares of fertile land.

Diversifying their products to include citrus, pomegranates, and mangoes, Farm Pick sustains its unwavering commitment to cultivating only the finest fruits across all varieties it grows.

With a dedication to delivering excellence, the company strategically manages the entire supply chain, ensuring a seamless journey from their farm to the international markets. Committed to upholding the highest standards of safety and hygiene, Farm Pick strives for maximum compliance across all its processes, assuring constant top-tier produce and unparalleled customer service.

# Gezira United

Hall 25 | Booth C-03

As the 4<sup>th</sup> generation farming on the same land, the Badawy family takes a great pride in their agricultural heritage. In 2016, they launched Gezira United Company to expand their legacy and export their products worldwide.

Gezira United is a major producer of premium quality fresh fruits and vegetables in Egypt, with 120 acres cultivated using advanced farming techniques, overseen by a dedicated team of experts. Their farm and packing station are conveniently located minutes away from the Damietta port. In terms of sustainability, they apply drip irrigation, use fully recyclable packaging material, with a storing & packing facility which is entirely solar powered and includes an automated sizing line.

Gezira United stands out by owning and controlling the whole process from seeding to shipping.

## Products & quantities per year

# TK & Danny

Hall 25 | Booth C-03

TK & Danny follows a full-scale business model of reclaiming, cultivating, growing, harvesting, trading, consulting, importing, and exporting food commodities. Their farm and packhouses are located in between Cairo and Alexandria directly on the main highway which is a prime location logically to reach the main Egyptian shipping ports swiftly.

TK & Danny grows, packs and partners with growers of fresh produce such as grapes, citrus, mangoes, bananas, peaches, apricots, dragon fruit, spring onions, strawberries, and plum. TK & Danny's Farm and packhouse are respectively GLOBALG.A.P. and BRC certified.

Their model is distinctive in that it includes the farm, packhouses, trading-house and logistic office which ensures all products are delivered with the highest quality and professionalism. TK & Danny wants to further increase its exports to Europe.

# Azatech Organics

Hall 26 | E-80

Azatech Organics is a Kenya-based grower-exporter headquartered in Mangu, Thika (est. 2017).

The company employs an inclusive, trained workforce and operates sustainably managed farms certified to GlobalG.A.P. and GRASP. Azatech controls the full chain from field to port: careful harvesting, grading and food-safety checks at partner packhouses, eco-efficient pre-cooling, secure packaging, and lot-level traceability.

Shipments move in monitored refrigerated containers via a maintained cold chain from Nairobi to Mombasa, serving buyers across Europe and the Middle East.

Its USP is a reliable, ethical supply built on sustainable practices, precise traceability, and consistent quality – powered by water-saving drip irrigation, solar energy, and community investment.

# Leaf and Loaf

Hall 25 | Booth C-03

Leaf and Loaf is a Kenyan producer of premium herbs and vegetables located in the foothills of the Aberdare mountain range.

The farm benefits from rich volcanic soils, cool highland climates, and sustainable production practices, ensuring year-round freshness.

Only a 1.5-hour drive from Nairobi and Jomo Kenyatta International Airport, the farm supplies leading importers, retailers, and distributors across Europe, the UK, and the Middle East.

Leaf and Loaf is your trusted partner for the highest-quality herbs and specialty vegetables from Kenya.

# RK Citrus

Hall 25 | Booth C-03

RK Citrus is a citrus grower at heart, specializing in premium fruits and ensuring consistent quality through full supply chain control – from tree to fruit. With decades of experience and deep agricultural roots, the company blends traditional expertise with modern practices to deliver excellence at every stage. It runs a state-of-the-art, internationally certified packhouse for precise handling, food safety, and traceability. In addition to its own production, RK Citrus works with a select group of certified growers who meet strict quality and sustainability standards. This integrated approach ensures citrus that is fresh, flavorful, and dependable. RK Citrus is expanding across Europe and into new global markets, offering trusted partnerships and a steady supply of high-quality fruit.

# EGA Agroindustrial

Hall 25 | Booth C-03

EGA Agroindustrial is a Peruvian company that grows, packs, and exports fresh pomegranates.

It is the first grower and exporter of this fruit in southern Peru's Tacna region, near the Chilean border.

The company produces the Wonderful variety and has shipped 34 containers across 2022–2024 to the EU, USA, Canada, Russia, and Brazil.

Its work supports local families in a region with limited economic opportunities and contributes to the growth of southern Peru's agroindustry.

Tacna's climate and geography enhance the deep red color of EGA's pomegranates. All exports are packed in its own facility, active since March 2023. Proximity to the Chilean port of Arica ensures smooth logistics.

In 2025, EGA will add oranges and avocados to their portfolio.

## Products & quantities per year

# Ecuaexotics

Hall 25 | Booth C-03

Ecuaexotics, founded in 2014, is the leading and most innovative pitahaya exporter from Ecuador. The company, apart from growing its own produce, works closely with more than 200 farmers. The management team strongly believes in social and economic inclusion from farmers located in rural areas.

The team at Ecuaexotics is made up of 50+ employees who are responsible for one mission: providing the best exotic fruit.

To comply with the mission there are different certifications by which Ecuaexotics' quality standards are met: good agricultural practices, good manufacturing practices, and social & environmental compliances.

## Products & quantities per year

- Pitahayas (red)  / 100 t
- Pitahayas (white flesh) / 1,000 t
- Pitahayas (yellow) / 1,000 t
- Rambutans  / 40 t

# Sobek

Hall 25 | Booth C-03

Sobek was established as a subsidiary to the renowned Badrawy Farms which is a family-owned business that has operated successfully within the agricultural industry since the 1920s. Today, the Badrawy family aims at further expanding their exports to Europe with their premium products.

Sobek values its role in the community and provides its workers with fair and decent working conditions. The farm has solar panels that provide up to 50% of its energy needs.

Sobek's purpose is to shorten the supply chain thus resulting in a more efficient business cycle, providing its customers with premium products with great value. With end-to-end control over the supply chain, Sobek ensures the highest quality for its customers worldwide.

# Fresh Approach

Hall 25 | Booth C-03

Fresh Approach has over 20 years of experience growing and exporting high-quality fresh fruit and vegetables across Europe.

The company operates three main farms and works with many small-scale farmers – mainly women and young people to improve their incomes and livelihoods.

Growers prioritize environmental responsibility and production safety, resulting in higher yields. Key crops are green beans and extra-fine and fine peas in pod, with additional crops grown according to customer demand. By controlling the entire value chain from seed to final product, Fresh Approach ensures consistent high quality.

Working with Fresh Approach means receiving premium, safe produce while supporting the livelihoods of more than 2,000 rural households.

# Buying Mission to Latin America – Guide the IPD trip with your product interests

Ecuador and Colombia boast an incredible variety of fresh fruits and vegetables – and now you can experience it all firsthand by meeting selected fresh produce growers on site. IPD is planning an exciting travel opportunity for November 2026, and we want you to help shape it.

With such a broad and diverse range of suppliers in both countries, we are seeking your input early to ensure the mission is perfectly aligned with your needs.

## Which products are of most interest to you?

Let us know your priorities so we can tailor the programme to provide maximum value for you.

### Why join IPD Buying Missions?

- On-site visits to pre-verified fresh produce suppliers, guided by IPD sourcing experts
- First-hand insights into the entire supply chain – from cultivation to export
- Exclusively arranged company visits and tailored b2b meetings to match your requirements
- Complete on-site logistics organized by IPD

Register here and indicate your product focus.

Registration is non-binding, but you will:

- Receive all updates first
- Get priority access when official registration opens

# Benefit from the IPD matchmaking services

IPD connects you with carefully selected suppliers from its partner countries at upcoming events like Fruit Attraction 2026 or via virtual B2B events.

Stay updated on IPD's  
fresh produce matchmaking.  
Just register [here](#)!
