# Import Promotion Desk (IPD)

Connecting sustainability and innovation: Unique tourism products for the European market

The majority of travellers from Germany and Europe express the desire to travel in a way that is not only environmentally friendly, but also in tune with the cultural essence of the host country. To meet these customer expectations, European tour operators need reliable local partners.

Import Promotion Desk (IPD), the German initiative for sustainable tourism promotion, supports you in this. We connect you with carefully selected tourism companies from developing countries. Our services are neutral, quality-conscious and free of charge.

**Brazil** is the latest partner destination in the IPD portfolio. Together with the destinations **Ecuador, Ethiopia, Nepal, Sri Lanka, Tunisia, and Uzbekistan** IPD can offer a variety of innovative products from niche to full DMC services.

At ITB Berlin 2026 we will be presenting around 30 partner companies introducing their unique products to the European market. For the first time, we will also be showcasing four companies from Ethiopia that are supported by sequa through its **SME Support Scheme under the special initiative “Decent Work for Just Transition.”**

On the following pages you will find detailed information about the recommended tourism businesses.

All IPD companies are thoroughly evaluated and have been trained on the requirements of the European travel market. Our partners’ travel offers are customised for the European market, distinct from mass tourism, and sustainable in their philosophy.

Visit us at ITB Berlin in **Hall 4.1, Booth 221** and check out the innovative tourism products for yourself!

# IPD partners

IPD works with a network of international organisations in Europe and our partner countries. Thus we efficiently pool information and know-how.

This enables us to link existing trade promotion measures and carry out their strategic further development.

Our partnerships always make it possible for us to match all services of IPD to the needs of European tour operators and travel providers in our partner countries exactly and then carry out our services optimally at any place.
