Import Promotion Desk (IPD) – Cost- and risk-optimised sourcing

If you are an importer looking for reliable suppliers of sustainable wood products and want to open up new supply sources, then Import Promotion Desk (IPD) will support you.

IPD presents selected companies from Indonesia, offering a wide range of sustainable lightwood products. IPD is the German initiative for import promotion that connects European importers with the carefully evaluated suppliers.

All IPD companies were carefully selected and then readied by IPD to commence export to the European market. On the following pages you will find detailed information about our producers. We establish direct contact to these new suppliers and organise b2b meetings for you!

Get in touch with us!

IPD is funded by the Federal Ministry for Economic Cooperation and Development (BMZ). We are an initiative of the Federation of German Wholesale, Foreign Trade and Services (BGA) and sequa, the development organisation and partner of German business.

In line with our development policy objective, we aim to increase exports from partner countries, promote innovation and higher value creation in order to contribute towards sustainable economic development in partner countries.

IPD Partners

IPD works with a network of international organisations in Europe and the partner countries. Thus, we efficiently pool information, know-how and resources.

In cooperation with DGNED and ITPC, IPD has been promoting Indonesian lightweight timber exporters since 2014. An essential element of this cooperation has been to insure the visibility of Indonesian producers through an Indonesian country pavilion at interzum, for which DGNED and ITPC have gradually taken over the full financial and organizational responsibility.
