The Import Promotion Desk presents selected exporters from Colombia, Egypt, Ethiopia, Indonesia and Peru at Anuga 2015. All companies were carefully selected and then readied by the IPD to commence export to the European market. They meet the international quality standards and are equipped with the necessary certificates.

This brochure offers detailed information about these companies.

The IPD establishes direct contact to these new suppliers and organises b2b meetings at the trade fair.

ABOUT US
The IPD is the service provider for import promotion in Germany. It connects European importers with exporters from selected developing countries and emerging nations.

The IPD is an initiative of the Federation of German Wholesale, Foreign Trade and Services (BGA) and sequa, the development organisation and partner of German business.

The IPD is funded by the Federal Ministry for Economic Cooperation and Development (BMZ).
Our goal is the sustainable and well-structured import promotion of special products from selected partner countries – under compliance with high quality, social, and environmental standards.

We have the contacts, information and communication channels to reliable suppliers in our partner countries. By connecting you to those exporters which suit you best, we help you to profit from time-, cost- and risk-optimized sourcing.

The IPD provides you with sustainable trade contacts. We organise trade fair visits and buying missions to the partner countries for you. This allows importers to gather information on product quality and production conditions on site.

GET IN TOUCH WITH US

Hall 9.1 | Booth C008, Hall 7.1 | Booth G106,
Hall 4.2 | Booth A066, Hall 2.2 | Booth B060, Hall 3.1 | Both C014

FACTS & FIGURES
ProColombia is the entity that promotes international tourism, foreign investment and non-traditional exports in Colombia.

Through its national and international network of offices, it offers support and integral consultancy to clients through services or instruments aimed at facilitating design and execution of its globalization strategy, which seeks to generate, develop and close business opportunities.

PRODUCTS & SERVICES
ProColombia promotes international negotiations through the identification of market opportunities, design of market penetration strategies, company globalization, action plan design coaching, contact among entrepreneurs through commercial promotion, investment and international tourism activities.

MISSION & VISION
Additionally, it offers specialized services to foreign entrepreneurs interested in acquiring Colombian goods and services or who wish to invest in Colombia, and builds alliances with national and international private and public entities that allow expanding the availability of resources to support different business initiatives and promote development and growth of the service portfolio.
Agrícola Himalaya S.A.

Hall 2.2 | Booth B063

FACTS & FIGURES
Agrícola Himalaya S.A., a company with 55 years of experience in the tea industry, has established itself as leader in the Colombian market with the Hindu™ brand. Since 2013 they have been working on the development of Bitaco™ Unique Colombian Tea, a loose leaf tea bringing the best of Colombia from their fields to your cup. Agrícola Himalaya currently exports to the US, Panama, Guatemala, Bolivia and Paraguay. The company has a staff of 315 and more than 200 associates.

PRODUCTS & SERVICES
The company’s teas are grown between 1,800 and 2,050 metres above sea level at La Cumbre, Colombia, a region known for a unique microclimate and soil rich in organic minerals that allows a large production of high-quality tips throughout the year. All Bitaco black and green teas are 100% natural and do not contain any artificial flavours.

MISSION & VISION
The company supports local water and biodiversity conservation efforts. It is committed to sustainable farming that complies with organic production standards. As part of its social responsibility programme the Agrícola Himalaya also fosters community development especially in the field of education for children.
Alimentos Vegetales RONI S.A.S.

Hall 4.2 | Booth A066

FACTS & FIGURES
Alimentos Vegetales RONI S.A.S. is a Colombian company located in Bogotá and dedicated to the transformation of fresh fruits into fruit pulps. Since its foundation 27 years ago, it has been known for producing high-quality products with high market acceptance.

PRODUCTS & SERVICES
Alimentos Vegetales RONI manufactures fruit pulps from lemons, strawberries, blackberries mandarins, pineapples, as well as exotic varieties such as guanabana, coruba and lulo. The “Mr. FRUIT” fruit pulp range can be used in the production of desserts, juices, ice creams, sherbets and jams both industrially and at home.

MISSION & VISION
By specializing in 100% natural products that are free from preservatives, additives, sugar and water, Alimentos Vegetales RONI intends to become a leader in the national and international fruit pulp market.
Doña Panela Ltda.

Hall 2.2 | Booth B062

FACTS & FIGURES
Doña Panela Ltda. is a Colombian developer, manufacturer in Chitaraque and marketer of a range of products made from the Latin American whole cane sugar variety panela. Originally founded by a cooperative from the country’s Hoya del Rio Suarez region in 1994, the internationally-operating company Doña Panela has a store in Bogotá.

PRODUCTS & SERVICES
Doña Panela offers a range of both organic and non-organic instant drink cubes and powders in a variety of natural, fruit (e.g. lemon, orange, mandarin), herbal (e.g. mint, chamomile, cinnamon) and coffee flavours as well as a set of unrefined cane sugar products. All are 100 % natural, i.e. free from any chemical additives.

MISSION & VISION
Not only committed to the production of top grade, innovative goods that meet international quality standards, Doña Panela, one of the market leaders, is also dedicated to contributing to the development of additional jobs in the Hoya del Rio Suarez region and the sustainable use of natural resources.

SERO COLOMBIA S.A.S.

Hall 4.2 | Booth A066

FACTS & FIGURES
SERO Colombia S.A.S. is an internationally operating agro industrial manufacturer and supplier of freeze-dried and air-dried fruits and vegetables located in Santiago de Cali in the fertile Cauca Valley in Colombia’s Andean-Pacific region. The production facilities include freeze-drying, air-drying, as well as modified atmosphere packaging. They serve as a research and development platform for sourcing competitive and innovative products.

PRODUCTS & SERVICES
SERO Colombia offers a diverse portfolio of both organic and conventionally grown fruit and vegetable products in different forms (slices, cubes, powders, etc.). The main products are freeze-dried fruits such as bananas, strawberries or mangos, packaged in convenient snack-type pouches and sold under the brand name “Eezy Fruitz”.

MISSION & VISION
SERO Colombia aims to contribute to the growing trend of healthy eating around the world by providing natural, convenient, and wholesome premium products that retain the nutritional values of fresh fruits.
FACTS & FIGURES
Established in 1997, the Agricultural Export Council (AEC) is committed to increasing Egyptian exports globally within the agricultural sector and to reaching out to global buyers.

PRODUCTS & SERVICES
The organisation supports and promotes Egyptian producers and exporters of high quality produce such as fruits and vegetables, dried herbs and spices, nuts and seeds, and many more.

MISSION & VISION
AEC would welcome the opportunity to introduce importers to profitable new trade opportunities with Egyptian suppliers: The Egyptian Pavilion will present suppliers from Egypt at ANUGA 2015. Purchasers will find a wide variety of products, ranging from herbs and spices, to herbal teas and cold pressed oils as well dehydrated fruits and vegetables and natural honey products.
The Food Export Council (FEC)

Hall 2.1 | Booth C051 | B058

FACTS & FIGURES
The Food Export Council (FEC) is one of the leading export councils established by the Ministry of Foreign Trade and Industry.

PRODUCTS & SERVICES
The FEC liaises between private sector exporters and the Ministry of Foreign Trade and Industry, ensuring that government policies are adhered to. It also promotes Egyptian exports, highlighting them as a reputable product in international markets.

MISSION & VISION
The Council aims to improve the competitive advantages of the sector, and to strengthen the industry’s positive image in the world market. FEC members are the leading exporting companies in the field, covering 27 of the food industry sub sectors.
Danube for Import and Export

Hall 4.1 | Booth A011 | B018

**FACTS & FIGURES**
Danube for Import and Export is the result of the merger between Gannet Al Reda, a long-established agricultural cultivation company, and Ismailia Foods, a producer of processed fruits and vegetables. The new enterprise has a professional team of 300 employees.

**PRODUCTS & SERVICES**
Danube specializes in planting, harvesting, processing, freezing, packaging and exporting vegetables like artichokes, broccoli, cauliflower, green beans, peas, carrots, and spinach as well as fruits such as mangos and strawberries. The range of products is completed by semi-fried potatoes (French fries, wedges and croquettes).

**MISSION & VISION**
Danube’s vision is to provide affordable high-quality food products that are free of preservatives, additives, artificial colours or flavours and thus naturally healthy. The company continually tries to raise its production standards.

Green Hope for Agricultural Development Ltd.

Hall 2.1 | Booth C051 | B058

FACTS & FIGURES
Green Hope for Agricultural Development Ltd. is an Egyptian 75-staff manufacturer of frozen and canned vegetables and fruits. Both the company’s head office and its processing plant are located in the country’s capital, Cairo.

PRODUCTS & SERVICES
Green Hope’s portfolio is divided into three sectors (canned food, in-brine bulk, frozen food). The product range includes various types of fruit (e.g. strawberries, mangos and pomegranates) as well as vegetables like artichokes, olives, and green beans. The company targets industrial users, retailers, food services as well as private-label producers. All raw materials are carefully selected and processed just a few hours after harvesting to best preserve quality and freshness. All production and packing cycles are carried out according to current food safety standards using the most advanced European technology.

MISSION & VISION
Green Hope’s mission is to process vegetables and fruits in conformity with its customers’ preferences. This entails short production cycles and strict, constantly monitored quality control mechanisms as well as a high-level customer satisfaction policy.
FACTS & FIGURES
Farm Fresh is a privately-owned Egyptian fruit and vegetable business. Located south of the seaside city of Alexandria, the company is close to the fertile agricultural fields where it acquires its raw materials. Founded in 1987, Farm Fresh has been supplying international markets with the high-quality foods for over two decades.

PRODUCTS & SERVICES
Farm Fresh specialises in frozen vegetables such as artichokes (quarters, hearts, bottoms and whole), green beans, fava beans, peas & carrots, okra, spinach as well as mixed vegetables. In addition, the company also offers a range of frozen fruits like strawberries, mangos, guavas, and apricots.

MISSION & VISION
As one of the leading processors of frozen fruits and vegetables in Egypt, Farm Fresh is dedicated to providing the best quality and value to its clients worldwide.
Nuts Land for Agriculture & Reclamation

FACTS & FIGURES
Founded in the late 1980’s, Nuts Land for Agriculture & Reclamation is a company based in Al Sharkia, Egypt, that processes peanuts. Continually expanding its production facilities and market reach, the enterprise went public in 2008 as “Nuts Land Egypt” with 100% Egyptian capital. Today the Nuts Land plant has a seasonal production capacity of over 5,000 tons.

PRODUCTS & SERVICES
Nuts Land produces premium quality peanuts of the types Gregory, North Carolina and Virginia in-shell, redskin as well as blanched. Processing services are carried out with the latest global technology for cleaning, sorting, scaling and filling peanuts.

MISSION & VISION
Nuts Land strives to provide fresh, premium-taste and texture peanuts. The company is committed to increasing its agricultural investment and the ratio of its participation in the local market as well as the exported quantities of peanuts to other Arab countries and the European Union.
FACTS & FIGURES
The Ministry Of Trade is a ministry of the Government of Indonesia that directs the formulation of policies related to the development of trade and industry in Indonesia. Currently, the Minister of Trade is Thomas Lembong.

MISSION & VISION
The purpose of the Ministry of Trade is to facilitate, encourage, enhance and promote commercial life and activity in Indonesia by acting as a service and support structure for the domestic and international commercial and trading sector. It will do so by the vigorous pursuit of policies that will develop and maintain a correct framework for a vibrant and productive enterprise sector within the broad guidelines of a market-oriented competitive economy that is open to the world.
FACTS & FIGURES
The Ministry of Industry of Republic of Indonesia has the duty to organize all industrial affairs in Indonesia. Currently, the Minister of Industry is Saleh Husin.

The Ministry of Industry has the vision to strengthen the competitiveness of sustainable manufacturing based industry and built a pillar of future prospective industry.

MISSION & VISION
To achieve the vision, Ministry of Industry has seven objectives which include:

1. Promote an increase of industrial added value
2. Expanding domestic and international market expansion
3. Encourage the quality of industry support services
4. Facilitate mastery of industrial technology
5. Facilitate the strengthening of industrial structure
6. Encouraging the spread of industrial development outside of java island
7. Pushing the role of SMEs to GDP.
FACTS & FIGURES
PT Bukit Sari is one of three estates operating under the umbrella of Bankitwangi, one of the largest organic-certified tea plantation in the world, with holdings of 3,500 hectares. The plantation began producing in the 1920’s and obtained organic certification in 2007.

PRODUCTS & SERVICES
PT Bukit Sari delivers organic-certified teas, which have a unique, robust flavor. The tea is grown and processed in the Indonesian highlands at 650 to 1,800 metres above sea level. Most of the estates are bordered by national forest conservation areas, which protect crops from external pollution. By encouraging wide biodiversity within its estates and using natural hydropower, PT Bukit Sari maintains a balanced ecosystem to bring sustainable Indonesian tea to the world.

MISSION & VISION
PT Bukit Sari intends to be a leading ambassador for organic production, by expanding its organic product range and plantation areas, as well as continuing its commitment to sustainable organic farming.
PT Coco Sugar Indonesia

Hall 1.1 | Booth B064a

FACTS & FIGURES
PT Coco Sugar Indonesia is located in the Banyumas region of the Indonesian island of Java, the centre of the country’s coconut sugar production. The company’s continually upgraded production facilities comply with Good Manufacturing Practice standards.

PRODUCTS & SERVICES
PT Coco Sugar offers a range of both natural and flavoured (vanilla, cinnamon) unbleached coconut sugars; it is currently working on including coconut flower nectar in its portfolio as well. Rich in minerals, coconut sugar is known for possessing a low score on the glycemic index. All products are certified as 100% organically produced and non-GMO, i.e. free from preservatives or chemicals.

MISSION & VISION
PT Coco Sugar’s corporate philosophy includes a social responsibility policy that favours fairtrade conditions for the Indonesian coconut farmers supplying the raw material. The company is also committed to protecting the local environment to guarantee a high-quality produce.

In progress of certification: FSSC 22000
FACTS & FIGURES
Founded in 1999, PT Eka Timur Raya (ETIRA) is a privately-owned mushroom grower and processor whose production facility is located 65 km from the Indonesian port city of Surabaya. The company’s mushroom farms are situated some 28 km farther inland at 1,700 to 1,800 metres above sea level, in a region with ideal mushroom cultivation conditions all year round. The company has a total staff of 1,600 employees.

PRODUCTS & SERVICES
PT Eka Timur Raya offers fresh, frozen and canned mushrooms (whole, sliced, halved, diced and chartered) of the white button mushroom variety agaricus bisporus. The produce is available in different packaging forms (cans, glass) and sizes.

MISSION & VISION
Because of its mission to produce halal, safe and high-quality mushrooms, PT Eka Timur Raya has strict control mechanism regarding its raw material supply and a highly experienced professional staff. Its ultimate goal is to be a “one-stop point” for its customers.
PT Harendong Green Farm

Hall 1.1 | Booth A058 | B059

FACTS & FIGURES
PT Harendong Green Farm was established in 2005 to produce high quality tea for customers worldwide. The company has been certified organic by IMO Control since 2010.

PT Harendong Green Farm is located close to the Gunung Halimun Salak national park, 1,000 metres above sea level. The plantation’s tea plants benefit greatly from the mild climate, clean water and clear air.

PRODUCTS & SERVICES
In order to provide its customers with outstanding products, PT Harendong Green Farm grows only the highest grade of hand selected camellia sinensis var. sinensis tea plants for the production of organic green tea, organic oolong tea and organic red/black tea. Only the three topmost leaves are gathered. This guarantees consumers a uniqueness of taste, aroma and health-giving effects.

MISSION & VISION
From seedlings to plants, organic farming is taken very seriously at PT Harendong Green Farm. The company focuses especially on the implementation of organic farming methods not only at its own tea plantations but also in the surrounding area, and has implemented an environmentally eco-friendly policy. In addition, PT Harendong Green Farm supports community empowerment.
PT Megainovasi Karya Mandiri

Hall 1.1 | Booth A055a

FACTS & FIGURES
PT Megainovasi Karya Mandiri is an Indonesian producer of coconut products. Established in 2011, PT Megainovasi Karya Mandiri works with approximately 2,500 organic farmers in various regions of Indonesia covering more than 800 hectares. One half of the farmers producing the organic coconut sugar for the company are women.

PRODUCTS & SERVICES
PT Megainovasi Karya Mandiri produces organic virgin coconut oil through cold process, without fermentation, to ensure high quality. The organic coconut sugar is subjected to slow cooking to obtain the best flavor and maintain mineral content. PT Megainovasi Karya Mandiri has the capacity to produce 80 MT of organic coconut sugar per month and 20 MT of organic virgin coconut oil. The company can also produce a small amount of organic coconut syrup base on demand. To ensure product quality, PT Megainovasi Karya Mandiri has developed an Internal Control System (ICS) to track organic products from each farmer, and it maintains a field team that visits farmers regularly to monitor and control product quality.

MISSION & VISION
PT Megainovasi Karya Mandiri maintains economic balance with their farmers so they can grow together over the long term: buying organic products at a premium price, increasing farmers’ incomes up to 80 %, and encouraging them to save their earnings.
FACTS & FIGURES
The Indonesian company PT Sinar Sosro was founded in 1970. The name Sosro was taken from the name of the founding family Sosrodjojo. The company and its first plant are located in Bekasi. It was one of the first plants in Indonesia that produced ready-to-drink tea in glass bottles. Since then, the company has expanded their product range and their production. Currently, PT Sinar Sosro has 11 factories, more than 160 sales offices and warehouses and about 8,000 employees throughout Indonesia.

PRODUCTS & SERVICES
PT Sinar Sosro has developed a unique production system of hot filling, allowing it to produce its “SOSRO” brands of natural ready-to-drink teas, without preservative, artificial colour and sweetener. Besides ready-to-drink jasmine and fruit flavored tea, it also offers other ready-to-drink tea products, fruit drinks and bottled water. The company has already exported their products to Brunei, U.S.A., Australia, Saudi Arabia, Malaysia, Netherlands, Mongolia, Hong Kong, South Korea, Singapore and Papua New Guinea.

MISSION & VISION
“The Indonesian world class beverage company”. The basic value or philosophy of PT Sinar Sosro is to care for the environment and for the following three aspects, in Indonesia known as the 3 K’s: quality (kualitas), safety (keamanan) and health (kesehatan). In order to meet the health and safety standards of Indonesia’s Health Department, the company uses an Integrated Quality Control System that controls the entire production process.
Established in 1991, PT Sari Segar Husada is a manufacturer of coconut derivatives located in the southern region of the Indonesia island of Sumatra. The company can today boast of a staff of 1,100 employees.

The company’s portfolio includes a wide range of coconut-based products such as desiccated coconut, aseptic coconut cream, aseptic coconut water, coconut juice, coconut milk and crude coconut oil. There is also a ready-to-drink pinacolada.

PT Sari Segar Husada is committed to stringent hygiene control standards. To that end the company has, for instance, invested in its own water treatment plants to ensure the use of pure, filtered water in all production processes and other equipment that guarantee an antibacterial manufacturing and packaging environment. PT Sari Segar Husada also follows an eco-friendly policy.

PromPerú, Peru’s Export and Tourism Promotion Organization, is a Government Agency within the Ministry of Foreign Trade and Tourism, that articulates public and private initiatives to promote a competitive and diversified offer of products and services with the highest quality standards for the international markets and to position Peru as one of the leading world-wide tourist destinations.

PromPerú carries out a wide range of activities related to trade and tourism promotion, focused on those linked with the expansion of businesses in foreign markets, the generation of job opportunities and spreading the image of Peru as an exporting country and an attractive tourist destination.

In the exports sector, PromPerú acts as a key partner and adviser to potential and current exporters, organizing trade promotion and market intelligence activities, such as tradeshows, trade missions and market research studies.
Chavin de Huantar S.A.

Hall 4.2 | Booth C057

FACTS & FIGURES
Founded in 1998, Chavin de Huantar S.A. is a Peruvian family business. Headquartered in Casma Valley in Ancash on the northern coast of Peru, the company is specialized in cultivating, processing, packing and selling high-quality fruit and vegetable products. Chavin de Huantar has an extension of 300 hectares with dripping irrigation systems. Their packing facilities and refrigeration storage are located in the fields, which allow them to maintain their produce fresh from the harvest.

PRODUCTS & SERVICES
Chavin de Huantar produces a variety of both fresh and frozen fruits such as grapes, mangos, strawberries, pomegranates, as well as vegetables such as green asparagus or sweet potatoes. The harvested produce is packaged onsite and then immediately stored in the company’s refrigeration facilities.

MISSION & VISION
Chavin de Huantar is dedicated to maintaining sustainable production methods and environmental development in the Casma Valley.

GLOBAL G.A.P., BRC, HACCP, ORGANIC, KOSHER
FACTS & FIGURES
Agrofino is a family-owned business dedicated to the production and exportation of high-quality organic products from the Andes, the coast and the jungle of Peru. The company cooperates with a large number of local farming communities to guarantee a wide variety of traceable, sustainable products.

PRODUCTS & SERVICES
Agrofino provides a variety of products. The company portfolio includes grains (e.g. quinoa, amaranth, chia), beans, black eyes peas, panela, maca, ginger, cacao and goldenberry. The products processed in high-standard manufacturing facilities and then packaged either in bulk, retail or any special packaging required by the customer.

MISSION & VISION
Agrofino’s corporate philosophy and social responsibility policy is focused on a direct long-term relationship with suppliers and clients. Through one-to-one cooperation with the farmers that is based on ethical trade principles, the company intends to trigger the development of local communities.
FACTS & FIGURES
Inka Crops S.A. is a Peruvian gourmet snack producer offering a range of natural chips (crisps) and Andean seeds. The company is headquartered in Lima but derives its supplies from various of the country’s regions.

PRODUCTS & SERVICES
Inka Crops’s non-GMO, kosher house brand portfolio includes both single-type and mixed chips (crisps) made from plaintain, potato, sweet potato, cassava and beet root that come in a range of aromas (plain, sweet, salted, spicy), formats and packaging. The company also offers giant roasted corn (giant white corn of Cusco) and Andeans seeds such as broad beans and coms of the chulpi and native variety. Private label options are also available.

MISSION & VISION
Inka Crops has a strict non-GMO policy. The company is also committed to a complete traceability standard and has the relevant certification.
Edao International Trading

Please contact IPD.

FACTS & FIGURES
Edao International Trading is a growing Ethiopian agro-commodity exporter located in Adama. The seed processing plant uses European technology and comprises its own seed analysis laboratory. The company supplies over 15 countries worldwide and was shortlisted as core supplier to the World Food Program (WFP) in Ethiopia.

PRODUCTS & SERVICES
Edao International Trading specializes in exporting agricultural products of Ethiopian origin such as beans (pulses), spices and oil seeds. Packaging is carried out in standard PP bags (100 gm strength) of flexible size (i.e. 25 kg, 50 kg or bulk) depending on customer demand.

MISSION & VISION
Edao International Trading is dedicated to trading non-GMO agro commodities that have been produced and processed in a tightly controlled environment that yields product purity levels of between 98% and 99.9%. The company works closely with farmers, unions and farmers cooperatives throughout the country.

Orion Food Industries

Please contact IPD.

FACTS & FIGURES
Established in October City near Giza in 2011, Orion Food Industries can already show a highly qualified management team with more than 30 years of experience in the field. It has a full-time staff of 75 people.

PRODUCTS & SERVICES
Orion Food Industries specializes in producing premium fresh-fruit purees from such fruits as strawberry, mango, guava, peach and apricot. The company also manufactures aseptic and frozen strawberry purees with and without seeds. The Egyptian white guava, mango and strawberries utilized by Orion are known for their quality: they are especially sweet and rich in colour, flavour, texture and aroma.

MISSION & VISION
By providing superior quality products that comply with global food standards and professional customer service, Orion Food Industries intends to become the leading supplier of processed fruits and vegetables in the MENA region. It is planning to add new production lines for frozen vegetables, fruits and juices in the future.
